The Awakening Ground David Chaim Smith, 2016-06-16 Author David Chaim Smith offers a guide to the practice of mystical contemplation from the perspective of a highly unusual form of non dual Kabbalah unfettered by both religious mythology and psychological reductionism The path articulates the ultimate quest for meaning which seeks to pass through the clutter of the mind s conceptual associations to nakedly and directly recognize the innate essentiality of all things known as the light of En no Sof end or the Infinite Most mainstream conventional schools of Kabbalah hold such a radical aspiration to be inapproachable at best and heretical at worst The work introduces six stages that articulate how the mind breaks through its own restrictive habitual reflexes to awaken to the ground of En Sof which is the mind s essential nature Each stage is illustrated by the author s own original works of art and line diagrams Draws upon obscure sources such as the 13th century Kabbalistic text Fountain of Wisdom various alchemical and gnostic texts and the writings of Isaac the Blind The author reveals how meaning never remains static its nature is to move transmit and display yet its precious potential becomes buried under layers of mental constructs He explains how the mind s habits and reflexes impose structures of containment that try to make sense out of phenomena but these very structures actually obscure their essence completely Smith s experiential path to gnostic awakening reveals how in the wake of the lesser concerns of the conceptual mind primordial purity shines in resonances of vast poetic beauty if a sensibility of wonder awe and delight is cultivated Offering a step by step analysis to the ecstatic aspects of contemplative revelation David Chaim Smith explores how to ride the razor s edge of the paradox to coax the mind from the sleep of habituation towards the culmination of gnosis Although the process is described within the traditional symbol system of kabbalah its import is a truly radical exponent of
