Invented Knowledge Ronald H. Fritze, 2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in Invented Knowledge reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole

Atlantis in the Caribbean Andrew Collins, 2016-09-15 An in depth investigation of the mounting evidence that Atlantis was located in the Bahamas and Caribbean near Cuba in particular Explains how Atlantis was destroyed by a comet the same comet that formed the mysterious Carolina Bays Reveals evidence of complex urban ruins off the coasts of Cuba and the Bahamas Shows how pre Columbian mariners visited the Caribbean and brought back stories of Atlantis s destruction Compares Plato s account with ancient legends from the indigenous people of North and South America such as the Maya the Quich and the Yuchi of Oklahoma The legend of Atlantis is one of the most intriguing mysteries of all time Disproving many well known Atlantis theories and providing a new hypothesis the evidence for which continues to build Andrew Collins shows that what Plato recounts is the memory of a major cataclysm at the end of the last Ice Age 13 000 years ago when a comet devastated the island of Cuba and submerged part of the Bahaman landmass in the Caribbean He parallels Plato s account with corroborating ancient myths and legends from the indigenous people of North and South America such as the Maya of Mesoamerica the Quich of Peru the Yuchi of Oklahoma the islanders of the Antilles and the native peoples of Brazil The author explains how the comet that destroyed Atlantis in the Caribbean was the same comet that formed the mysterious and numerous elliptical depressions known as the Carolina Bays found across the mid Atlantic United States He reveals evidence of sunken ruins off the coasts of both Cuba and the Bahamas ancient complexes spanning more than 10 acres that clearly suggest urban development and meticulously planned road systems Revealing the identity of Plato s opposite continent as ancient America Collins argues that Plato s story was first carried back to the Mediterranean world by trans Atlantic mariners such as the Phoenicians and Carthaginians as early as the first millennium BC He offers additional ancient trans Atlantis trade evidence from Egyptian mummies Roman shipwrecks in the Western Atlantic and the African features of giant stone heads in Mexico Piecing together the final days of Atlantis and the wildfires earthquakes tsunamis days of darkness and advancement of ice sheets that followed the ancient comet s impact Collins establishes not only that Atlantis did indeed exist but also that remnants of it survive today most obviously in Cuba Atlantis s original central island

assessing the evidence for early Greek exercises in optics Finding the Walls of Troy Susan Heuck Allen,2023-09-01 The relentlessly self promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements But Schliemann gained this status as an archaeological hero partly by deliberately eclipsing the man who had launched his career Now at long last Susan Heuck Allen puts the record straight in this fascinating archaeological adventure that restores the British expatriate Frank Calvert to his rightful place in the story of the identification and excavation of Hisarlik the site now thought to be Troy as described in the Iliad Frank Calvert had lived in the Troad in the northwest corner of Asia Minor excavating there for fifteen years before Schliemann arrived and learning the local topography well He was the first archaeologist to test the hypothesis that Hisarlik was the Troy of Hector and Helen So that he would have unrestricted access to the site he purchased part of the mound and was the first archaeologist to conduct excavations there Running out of funds he later interested Schliemann in the site The thankless Schliemann stole Calvert's ideas exploited his knowledge and advice and finally stole Calvert's glory in part by slandering him and denigrating his work Allen corrects the record and does justice to a man who was a victim of his own integrity while giving a balanced treatment of Schliemann's true accomplishments This meticulously researched book tells the story of Frank Calvert's development as an archaeologist his adventures and discoveries It focuses on the twists and turns of his turbulent relationship with the perfidious Schliemann the resulting gains for archaeology and the successful conclusion of their common quest Allen has brought together a wide range of relevant published material as well as unpublished sources from archives diaries letters and personal interviews to tell this gripping story The relentlessly self promoting amateur archaeologist Heinrich Schliemann took full credit for discovering Homer's Troy over one hundred years ago and since then generations have thrilled to the tale of his ambitions and achievements But Schliemann gain Choice ,1993 **Celebrating Homer's Landscapes** John Victor Luce,1998-01-01 In this text an authority on Homeric texts takes us on a tour of the main localities that Homer paints in his Iliad and Odyssey Providing numerous photographs of the terrain and quoting liberally from the two epics J V Luce argues that Homer's descriptions of the ancient landscape far from being poetic fantasies are accurate in every detail Luce surveys what Homer tells us about the environs of Troy and Ithaca applying the developing science of narratology to Homeric depiction of landscape He also incorporates information about Troy that has been obtained in the past two decades in particular geophysical information about the alluviation of the Trojan plain and archaeological data about Troy that reveals that the fortified area of the city was ten times as large as previously supposed Tracing the ebb and flow of the battle as described in the Iliad Luce shows how Homer's account is consistent with this picture of the plain **The Sea Voyage Narrative** Robert Foulke,2013-10-11 From The Odyssey to Moby Dick to The Old Man and the Sea the long tradition of sea voyage narratives is comprehensively explained here supported by discussions of key texts *Troia and the Troad* Günther A. Thompson,2013-06-13 The Trojan War occurred more than 3 000 years ago Since then starting with Homer's epics people have been writing painting sculpting and creating music about this event and its participants This book starts with an overview of the Bronze Age when the Trojan War occurred and then follows a selection of the major literature about this war from Homer down through the ages and on to the Internet Each retelling of the Troy story is discussed in its historical context and includes a synopsis of the story itself The ways of telling the story change over time The main versions considered include Homer's Iliad and Odyssey a selection of Classical Greek Dramas especially Iphigenia at Aulis Virgil's Aeneid Chaucer's Troilus and Criseyde Guido delle Colonne's History of the Destruction of Troy Racine's Iphigenia at Aulis Goethe's Iphigenia in Tauris Shakespeare's Troilus and Cressida Joyce's Ulysses and two feminist Troy novels Sheri Tepper's The Gate to Women's Country and Marion Zimmer Bradley's The Firebrand Instructors considering this book for use in a course may request an examination copy here
