The Foreign Corrupt Practices Act Jeffrey P. Mendes, 2014-02-05 This book offers a stimulating introduction to the links between areas of global governance human rights global economy and international law By drawing on a range of diverse subject areas Errol P Mendes argues that the foundations of global governance human rights and international law are undermined by a conflict or tragic flaw where insistence on absolute

conceptions of state sovereignty are pitted against universally accepted principles of justice and human rights resulting in destructive self interest for both the state and the global community The book explores how human rights and international law are applied in some of the critical institutions of global governance and in the operations of the global private sector and how States institutions and global civil society struggle to fight this tragic flaw The book is brought up to date by considering developments in the role of the IMF the World Bank bilateral investment treaties the likely failure of the Doha round of WTO negotiations the legacy of the 2008 financial crisis and the role of the International Criminal Court and the evolving Responsibility to Protect doctrine in international peace and security crises in the Middle East Central and West Africa among other regions of the world With its intensely interdisciplinary approach this book motivates new thinking in the realm of global governance and international law and promotes the development of new strategies for negotiating between conflicting leadership and organisational values within global institutions The book will be of great interest and use to students and researchers of public international law international relations and political science business and human rights global governance and international trade and economic law *Black Money and Economic Crimes* Dr. A.K.

Global Perspectives on Corporate Governance and CSR Professor David Crowther, Professor Güler Aras, 2012-08-28 Good governance is good PR it is important in every sphere of society whether it be the corporate environment the political or wider society When resources are too limited to meet the minimum expectations of the people it is a good governance level that can help to promote the welfare of society Enlightened companies recognise that there is a clear link between governance and corporate social responsibility and make efforts to link the two Unfortunately this is too often no more than making a claim that good governance is a part of their CSR policy as well as a part of their relationship

with shareholders Corporate Governance and CSR are significant issues in all parts of the world huge amounts of time and energy are devoted to its global interpretation Most analysis however is too simplistic to be helpful as it normally resolves itself into simple dualities rules based v principles based or Anglo Saxon v Continental The editors of this book argue that this is not helpful that the reality is far more complex They show that Corporate Governance and CSR cannot be understood without taking geographical cultural and historical factors into account It is necessary they say to understand the concerns of people in different parts of the world Therefore by using a wealth of case studies theoretical models and drawing on the knowledge and perspective of experts from around the world the editors have produced this valuable book Global Perspectives on Corporate Governance and CSR discusses issues such as regional and cultural similarities and differences the contexts of differing legal frameworks and governance codes differences between large companies and SMEs governance in new environments companies and economies versus stable environments and the changing environment affecting corporate social responsibility around the world The editors then synthesise this in a way that will be helpful to business people as well as to academics

Durchgriffsmöglichkeit US-amerikanischer Behörden auf österreichische Vorstände und Geschäftsführer im Rahmen des Sarbanes-Oxley Act und des Foreign Corrupt Practices Act Bernhard Wolfgang Karollus, 2009-04-27

Inhaltsangabe Einleitung M ssen Vorst nde und Gesch ftsf hrer sterreichischer Gesellschaften einen Gerichtsprozess in den USA nach dem Sarbanes Oxley Act SOX oder dem Foreign Corrupt Practices Act FCPA f rchten Diese Frage mag auf den ersten Blick f r sterreichische Gesellschaften von geringer Relevanz sein Betrachtet man allerdings die Zahl der direkten und indirekten Beteiligungen von Konzernen mit B rsenotierung in den USA ndert sich der Blickwinkel Die Darstellung im Rahmen dieser Arbeit wird bewusst auf diese beiden US amerikanischen Gesetze eingeschr nkt da es sich dabei zum einen

um US Bundesrecht handelt und zum anderen beide Acts in einem Naheverhältnis zueinander stehen. Beide Gesetze sehen die Einführung und Aufrechterhaltung eines Systems interner Kontrollen zur Vermeidung von bestimmten Verfehlungen im Zusammenhang mit sog. white collar crimes vor. Bisherige Arbeiten im deutschen Sprachraum vor allem jene zum Sarbanes Oxley Act haben die ökonomischen Auswirkungen dieses Themenkreises untersucht bzw. die betriebswirtschaftlich einzuleitenden Maßnahmen untersucht. Zur Auseinandersetzung mit dem Thema werden zuerst der SOX und der FCPA in ihrer Gesamtheit betrachtet und jene Paragraphen näher erläutert, aus denen straf- oder zivilrechtliche Folgen für Geschäftsführer entstehen können. Im Anschluss wird ein grober Vergleich mit dem österreichischen Wirtschaftsstrafrecht angestellt, um die Praxisrelevanz und Paralleltendenzen zwischen den Acts und den hierzulande geltenden Gesetzen herauszustrichen. Anhand einiger Rechtsfälle soll gezeigt werden, welchen Risiken bzw. rechtlichen Konsequenzen Geschäftsführer aufgrund der beiden Gesetze ausgesetzt sein könnten. Im Anschluss beschäftigt sich die Arbeit mit der Frage nach der Anwendbarkeit US-amerikanischen Rechts und der Durchgriffsmöglichkeit US-amerikanischer Behörden in Österreich. Der Schwerpunkt muss um den Umfang der Arbeit nicht zu sprengen auf den strafrechtlichen Aspekten liegen. Im Rahmen der Arbeit werden sich auch Hinweise auf die 8 EU-Richtlinie bzw. EURO SOX finden. Dies soll jedoch nur soweit geschehen, als es notwendig ist, um die europäische Sicht auf den SOX und FCPA näher zu erläutern.

Corruption in Asia Timothy Lindsey, Howard W. Dick, 2002

Multilateral and bilateral aid agencies now direct much of their East Asia activities to so-called governance reform. Almost every major development project in the region must now be justified in these terms and will usually involve an element of legal institutional reform, anti-corruption initiatives or strengthening of civil society and often a mix of all of these. Most are in fact major exercises in social engineering. Aid agencies and major multilateral players like the IMF, the World Bank and the Asian Development Bank are attempting not just to improve governance systems and combat corruption but implicitly to restructure entire national political systems and administrative structures. Conditionality puts real weight behind these projects. If successful, they could transform the face of East Asia. Defining governance and understanding corruption are therefore not minor issues of terminology. However, a great deal of optimism is required to believe that social engineering for good governance will succeed in either Indonesia or Vietnam within the foreseeable future. In Indonesia there is neither the political will nor the mechanism to act, since the legal system is itself utterly corrupted. Better laws have been passed but they fail in implementation. In Vietnam the problems are somewhat different but the outcomes are similar. Corruption is widely recognised to be a major political, social and economic issue even by the Party itself but few cases are ever tried. The bureaucracy, including the legal system and the party, are so complicit that reform is impossible. These systemic problems point to the basic flaw in the good governance agenda and strategy: A politically powerful alliance of foreign and domestic

interests is necessary Foreign multilateral agencies donors and NGOs are able to set the international policy agenda but their domestic allies are politically weak In the absence of rule of law the basic institutions of these transitional societies remain largely as they were and there is as yet no viable alternative system in either Indonesia or Vietnam The argument of this book is that more might be achieved sooner by much better understanding of political legal commercial and social dynamics in Indonesia and Vietnam not as they are meant to be but as they are Multilateral agencies donors NGOs business firms and scholars on the one hand and local politicians bureaucrats business people lawyers journalists academics and NGOs on the other hand have much usefully to discuss Only out of that dialogue a dialogue between the world as it is and the world of ideals can steady progress be made This book examines these problems initially in an abstract theoretical sense before testing the frameworks thus established through a series of case studies of Indonesia and Vietnam two very different Asian states one Vietnam still socialist but in difficult transition from command economy to a limited market structure the other Indonesia embracing a market economy and an emerging democratic system one with a Confucian legal and political tradition the other not one with a socialist the other a civil law legal system The book is divided into three parts The first Frameworks establishes some theoretical approaches to the problem of corruption and governance including a East European example The second part looks at case studies from Indonesia and the third part looks specifically at Vietnam Relevant legislation and judicial decisions can be found in the table of cases and a detailed glossary and list of abbreviations will assist readers unfamiliar with the countries under examination
