Harvard Theological Studies ,1929 Paul and the Trinity Wesley Hill,2015-03-10 Paul s ways of speaking about God Jesus and the Spirit are intricately intertwined talking about any one of the three for Paul implies reference to all of them together However much current Pauline scholarship discusses Paul s God Christ and Spirit language without reference to trinitarian theology In contrast to that trend Wesley Hill argues in this book that later post Pauline trinitarian theologies represent a better approach opening a fresh angle on Paul s earlier talk about God the Father Jesus Christ and the Spirit Hill looks critically at certain well known discussions in the field of New Testament studies those by N T Wright Richard Bauckham Larry Hurtado and others in light of patristic and contemporary trinitarian theologies resulting in an innovative approach to an old set of questions Adeptly integrating biblical exegesis and historical systematic theology Hill s Paul and the Trinity shows how trinitarian theologies illumine interpretive difficulties in a way that more recent theological concepts have failed to do Watch a 2015 interview with the author of this book here The Road from Damascus Richard N.

Longenecker,2002-01-10 Conversion is intrinsic to the Christian Religion The most remarkable conversion recorded in the New Testament is that of Paul and most Christians consider Christ s encounter with Paul to be a prototype of Christian conversion generally This collection of eleven essays give Paul s conversion a firmer rootage in the biblical materials while also emphasizing personal application The contributors examine the nature of Paul s Damascus Road experience and the impact of that experience on his thought and ministry and explore how Paul s experience functions as a paradigm for Christian thought and action today Words of Faith Byrne, Brendan J., SJ,2023 This work offers over 100 concise discussions of key Pauline words and concepts Its primary focus lies on the seven undisputed letters though material in the

remaining letters traditionally attributed to Paul especially Ephesians and Colossians while treated separately is not neglected While accuracy has required reference to the relevant Greek words in each case the use of transliteration renders the work accessible to nonspecialists and students as well to established scholars Each entry is completed with an up to date indication of further reading in the area concerned Compiled from a distinctly theological perspective and the product of over five decades of research and teaching in Pauline studies the vocabulary is an indispensable resource for scholar and student alike
