D. Burns, 2004 While recovering from a heart transplant a strange dream kept returning Bob Hunter found himself once again on a small lobster boat bobbing up and down in the ocean in front of a beautiful lighthouse he had never seen before A number of colorful lobster floats and a stack of lobster traps were on the boat in front of him Waves crashing and exploding against a rocky shore in front of the lighthouse sending giant sprays of white foam into the air A girl in a white dress was standing on a rocky ledge to the left of the lighthouse and waving He knew that somehow she was waving at him As the sequence of dreams returned he would find himself walking up to her as she opened her arms to greet him She was one of the most beautiful girls he had ever seen Her long auburn hair and white dress were gently flowing in the breeze off of the ocean He would always wake up just as he approached Over a period of time he developed an unexplainable and obsessive love for her even though he knew she could not possibly be real Bob Hunter was an artist and a naturalist and painted a picture of both the lighthouse and the girl in his dreams A new acquaintance saw the painting of the lighthouse and told him it was real as she had visited and photographed the same lighthouse She encouraged him to travel to the area to see if he could find a reason for his dreams The dreams had no rhyme or reason Bob had never seen a lobster boat and could not believe that the lighthouse in his dreams actually existed The only way he could rid himself of these dreams was to follow his friend's suggestion and travel to the lighthouse and begin a search for the lady of his dreams

The Heart of the Matter Bob Edwards, 2002-07-24 Psychiatrist and Holocaust survivor Viktor Frankl said Man's search for meaning is the primary motivation in his life Yet some contemporary voices claim that increased knowledge of the material world must diminish our sense of meaning Physicist Steven Weinberg said The more the universe seems comprehensible the

more it also seems pointless Many people hold the material and meaningful perspectives separate in their minds in a state of uneasy truce The Heart of the Matter A Case for Meaning in a Material World tells us that this split vision is not necessary and shows us how the two views can be harmonized to give depth to our picture of the world It looks at current scientific observations from astronomy biology and physics as well as insights from mathematics philosophy psychology and religion We are left with a sense of wonder at both the mechanics and the values of the world the how and the why of events This book will appeal to everyone fascinated by how our world works and especially to those who wonder how such marvelous mechanisms can leave room for the values and purpose that give meaning to our lives and to our world **The Heart of the**

Interactions to Quark Gluon Dynamics [sic] J.-F. Mathiot,J. Thanh Van Tran,1995 [The Heart of the Matter](#) Arthur Green,2015-04-01 Judaism like all the great religions has a strand within it that sees inward devotion as an opening of the

human heart to God's presence This voice is not always easy to hear in a tradition where so much attention is devoted to the how rather than the why of religious living The devotional claim certainly a key part of Judaism's biblical heritage has reasserted itself in the teachings of individual mystics and in the emergence of religious movements over the long course of Jewish history This volume represents Rabbi Arthur Green's own quest for such a Judaism both as a scholar and as a contemporary seeker This collection of essays brings together Green's scholarly writings centered on the history of early Hasidism and his highly personal approach to a rebirth of Jewish spirituality in our own day In choosing to present them in this way he asserts a claim that they are all of a piece They represent one man's attempt to wade through history and text language and symbol an array of voices both past and present while always focusing on the essential question What does it mean to be a religious human being and what does Judaism teach us about it This the author considers to be the heart of the matter Publisher's description

Wrapping Paper explains a simple but extraordinarily powerful technique called the See Feel Hear Challenge that enables people to easily gain entry into the storehouse of their subconscious core beliefs. In the process it cracks the coded messages that those beliefs release in the form of disease, suffering, addictions, unhappy relationships, and victimized circumstances. Based in the latest findings in neuroscience and neurocardiology, this book guides readers to an uncomplicated understanding of the astounding power of our emotions and how life automatically delivers experiences that trigger negative reactions that subconsciously impact us. These emotions form the foundation of core beliefs that create unhealthy attitudes and disease patterns that keep us from experiencing the authentic, satisfying lives we desire. Using clear examples and true stories from clients, Dr. Weissman's latest work demonstrates how we can release these stored emotions and their wisdom via the See Feel Hear Challenge. It then explains how to use this simple method to evoke feelings that positively impact the quantum field, remolding our bodies, minds, and everyday lives into purposeful expressions of inner joy and radiant well-being. Whether you're dealing with addictions, dysfunctional relationships, or illness, or are focused on becoming an Olympic champion, *The Heart of the Matter* gives you a potent tool for positive change and transformation that you can use for the rest of your life.
