The Creeds of Christendom Philip Schaff,2007-11-01 Philip Schaff s The Creeds of Christendom is a massive set originally published in three volumes and here reproduced across five volumes cataloging and explaining the many different creeds from the myriad Christian denominations The differences in belief between Calvinists Lutherans and Presbyterians for example can often be subtle so a thorough examination of the particulars as well as an explanation for how those different beliefs result in a different worldview is necessary Volume One Part II covers the Catechism of Geneva AD 1546 and 1541 the Reformed Confessions of France and Netherlands the Reformed Confessions of Germany the Reformed

Confessions of Bohemia Poland and Hungary the Anglican Articles of Religion the Presbyterian Confessions of Scotland the Westminster Standards the Creeds of Modern Evangelical Denominations See Volume One Part I for the Table of Contents for this volume Swiss theologian PHILIP SCHAFF 1819 1893 was educated in Germany and eventually came to the United States to teach at the German Reformed Theological Seminary in Pennsylvania He wrote a number of books and hymnals for children including History of the Christian Church and The Creeds of the Evangelical Protestant Churches American Presbyterian and Theological Review Henry Boynton Smith,James Manning Sherwood,1863 The People's Book Jennifer Powell McNutt,David Lauber,2017-04-11 The Bible played a vital role in the lives theology and practice of the Protestant Reformers These essays from the 2016 Wheaton Theology Conference bring together the reflections of church historians and theologians on the nature of the Bible as the people s book considering themes such as access to Scripture the Bible s role in worship and theological interpretation **The American Presbyterian and Theological Review** ,1863 Spinoza and Biblical Philology in the Dutch Republic, 1660-1710 Jetze Touber,2018-06-21 Spinoza and Biblical Philology in the Dutch Republic 1660 1710 investigates the biblical criticism of Spinoza from the perspective of the Dutch Reformed society in which the philosopher lived and worked It focuses on philological investigation of the Bible its words language and the historical context in which it originated Jetze Touber expertly charts contested issues of biblical philology in mainstream Dutch Calvinism to determine if Spinoza s work on the Bible had bearing on the Reformed understanding of the way society should handle Scripture Spinoza has received considerable attention both in and outside academia His unconventional interpretation of the Old Testament passages has been examined repeatedly during the past decades So has that of fellow radicals rationalists radicals deists libertines and enthusiasts against the backdrop of a society that is assumed to have been hostile overwhelmed static and uniform Touber counteracts this perspective and considers how the Dutch Republic used biblical philology and biblical criticism including that of Spinoza In doing so Touber takes into account the highly neglected area of the Dutch Reformed ministry and theology of the Dutch Golden Age The study concludes that Spinoza rather than simply pushing biblical scholarship in the direction of modernity acted in an indirect way upon ongoing debates shifting trends in those debates but not always in the same direction and not always equally profoundly at all times on all levels
