The Theory of Moral Sentiments Adam Smith, 2010-04-30 The moral heart that goes alongside the economic brain of *The Wealth of Nations* this once neglected work of Adam Smith has returned to prominence in recent years It is widely regarded as one of the best written and most compelling books ever penned on ethics and morality It was also Adam Smith's favourite work *The Theory of Moral Sentiments* Adam Smith, 1790 [The theory of moral sentiments ... The Theory of Moral Sentiments ... The Second Edition Adam Smith, 1761 [The Theory of Moral Sentiments ... The Eleventh Edition, Etc](#) Adam Smith, 1808 [The Sublime](#) Andrew Ashfield, Peter de Bolla, 1996-08-15 This collection of texts on the Sublime provides the historical context for the foundation and discussion of one of the most important aesthetic debates of the Enlightenment The significance of the Sublime in the eighteenth century ranged across a number of fields literary criticism empirical psychology political economy connoisseurship landscape design and aesthetics painting and the fine arts and moral philosophy and has continued to animate aesthetic and theoretical debates to this day However the unavailability of many of the crucial texts of the founding tradition has resulted in a conception of the Sublime often limited to the definitions of its most famous theorist Edmund Burke Andrew Ashfield and Peter de Bolla's anthology which includes an introduction and notes to each entry offers students and scholars ready access to a much deeper and more complex tradition of writings on the Sublime many of them never before printed in modern editions **The Ethical and Economic Theories of Adam Smith** Glenn Raymond Morrow, 1923 *Unfelt* James Noggle, 2020-03-15 *Unfelt* offers a new account of feeling during the British Enlightenment finding that the passions and sentiments long considered as preoccupations of the era depend on a potent insensibility the secret emergence of pronounced emotions that only become apparent with time Surveying a range of affects including primary sensation love and self love greed happiness and patriotic ardor James Noggle explores literary evocations of imperceptibility and unfeeling that pervade and support the period's understanding of sensibility Each of the four sections of *Unfelt* on philosophy the novel historiography and political economy charts the development of these idioms from early in the long eighteenth century to their culmination in the age of sensibility From Locke to Eliza Haywood Henry Fielding and Frances Burney and from Dudley North to Hume and Adam Smith Noggle's exploration of the insensible dramatically expands the scope of affect in the period's writing and thought Drawing inspiration from contemporary affect theory Noggle charts how feeling and unfeeling flow and feed back into each other identifying emotional dynamics at their most elusive and powerful the potential the incipient the emergent the virtual Open Access edition funded by the National Endowment for the Humanities [Essays On, I.
