French Blockbusters Michael Charlie Michael, 2019-07-17 The digitised spectacles conjured by a word like blockbuster may create a certain cognitive dissonance with received ideas about French cinema long celebrated as a model for philosophical economic and aesthetic resistance to globalised popular culture While the Gallic cultural exception remains a forceful current to this day this book shows how the onslaught of Hollywood mega franchises and new media platforms since the 1980s has also provoked an overtly commercialised response from French producers eager to redefine the stakes and scope of their own traditions From English language action vehicles like *Valrian* and *the City of a Thousand Planets* Besson 2017 to revisionist historical films like *Of Gods and Men* Beauvois 2011 and crowd pleasing comedies like *Intouchables* Toldano Nakache 2011 the variously filiated local blockbusters from contemporary France brim with the seeds of cultural contradiction but also with the energy of a forceful counter history Cutting across a swath of recent French produced cinema *French Blockbusters* offers the first book length consideration of the theoretical implications historical impact and cultural consequences of a recent grouping of popular films that are rapidly changing what it means to make or to see a French film today

Europe past and present *The Legacy of the Baby Boomers or the French Social System?* Marie-Claire Patron, 2012-12-09
This book aims to identify key factors influencing the increasing brain drain of French early and mid career graduates primarily to Anglo Saxon countries in order to avoid the inexorable outcome of their tertiary studies precarious employment conditions relegating them to the status of intellectual underclass in France This qualitative ethnographic study investigated the experiences of 38 French nationals and expatriates aged between 21 and 48 to provide a voice to the increasing number of students and graduates who despair at the thought of witnessing their years of study culminate in a perennial cycle of training unemployment internship What distinguishes the French from their European counterparts who also struggle to secure employment and a decent future These unprecedented circumstances in Europe are as a result of the global financial crisis and the current sovereign debt predicament Who is responsible for the quandary in which French graduates find themselves in the stratified French society of today where globalisation has made academic mobility de rigueur France risks losing her talented Generation X to more accepting countries where a spirit of meritocracy exists and economic rewards are awarded after years of tertiary education and assiduousness A large number of constituents belonging to Baby Boomer Generation are ensconced in comfortable government positions or are established in lucrative careers reserved for the upper echelons of the privileged classes Are the Baby Boomers to blame for the predicament of Generation X for failing to transmit intergenerational equality to subsequent generations Will the new government deliver on the promises to grant France s youth the economic rewards they deserve and the respect and equality that the previous generation have taken for granted

French Foreign Policy since 1945 Frédéric Bozo, 2016-08-01 When Charles de Gaulle declared that it is because we are no longer a great power that we need a grand policy he neatly summarized France s predicament on the world scene In this compact and engaging history author Fr d ric Bozo deftly recounts France s efforts to reconcile its proud history and global ambitions with a realistic appraisal of its capabilities from the aftermath of World War II to the present He provides insightful analysis of the nation s triumphs and setbacks through the years of decolonization Cold War maneuvering and European unification as well as the more contemporary challenges posed by an increasingly multipolar and interconnected world French Negotiating Behavior Charles Cogan, 2003 Even before it led opposition to the recent war on Iraq France was considered the most difficult of the United States major European allies Each side tends to irritate the other not least at the negotiating table where Americans complain of French pretensions and arrogance and the French fulminate against U S hegemonisme and egoisme But whether they like it or not the two nations are going to have to deal with one another for a long time to come Charles Cogan s timely and insightful study can t guarantee to make those encounters more fruitful but it will help France s negotiating counterparts understand how and why French officials behave as they do With impressive objectivity and authority Cogan first explores the cultural and historical factors that have shaped the French approach and then dissects its key elements Mixing rationalism and nationalism rhetoric and brio self importance and embattled

vulnerability French negotiators often seem more interested in asserting their country's universal mission than in reaching agreement Three recent case studies illustrate this distinctively French m lange Yet agreement is by no means always elusive Cogan offers practical suggestions for making negotiations more cooperative and productive although he also emphasizes the long term damage inflicted by the crisis over Iraq Drawing on candid interviews with many of today's leading players on the French American British and German sides this engaging volume will inform and stimulate both seasoned practitioners and academics as well as students of France and the negotiating process This book is the recipient of the Prix Ernest L monon from L Acad mie des Sciences Morales et Politiques 2006

It's So French! Vanessa R. Schwartz, 2007-12-15 The recent history of cultural exchange between France and the United States would appear to be defined by freedom fries and boycotts against Beaujolais or on the other side of the Atlantic by enraged farmers toppling statues of Ronald McDonald But this dismal state of affairs is a long way from the mutual admiration that followed World War II epitomized in a 1958 cover of Look magazine that declared Brigitte Bardot conquers America It's So French explores the close affinity between the French and American film industries that flourished in the postwar years breaking down myths of American imperialism and French cultural protectionism while illuminating the vital role that cinema has played in the globalization of culture Hollywood was once enamored with everything French and this infatuation blossomed in a wildly popular series of films including An American in Paris Gigi and Funny Face Schwartz here examines the visual appeal of such films and then broadens her analysis to explore their production and distribution probing the profitable influences that Hollywood and Paris exerted on each other This exchange moved beyond individual films with the sensational spectacle of the Cannes Film Festival and the meteoric career of Brigitte Bardot And in turn their success led to a new kind of film that celebrated internationalism and cultural hybridity Ultimately Schwartz uncovers an intriguing paradox that the road to globalization was paved with nationalist clichés and thus films beloved for being so French were in fact the first signs of a nascent cosmopolitan culture Packed with an array of colorful film stills publicity photographs paparazzi shots ads and never before seen archival images It's So French is an incisive account of the fertile collaboration between France and the United States that expanded the geographic horizons of both filmmaking and filmgoing forever changing what the world saw and dreamed of when they went to the movies

Thompson, 2012-08-09 The World Today Series Western Europe is an annually updated presentation of each sovereign country in Western Europe past and present It is broken down into individual chapters on each country dealing with its geography people history political system constitution parliament decentralization and states if a federation parties political leaders and elections There are also sections on foreign and defense policy economy culture future and a lengthy bibliography

French Beans and Food Scars Susanne Freidberg, 2004-10-21 Explores the cultural economies of two non traditional commodity trades between Africa and Europe one anglophone the other francophone in order to show not only why they differ but also how both have felt the fall out of the

wealthy world's food scares France and the European Union Emiliano Grossman, 2020-11-25 The character of international trade has changed dramatically over the past twenty years Previously published as a special issue of The Journal of European Public Policy this volume provides a state of the art study of the new trade politics **French and US Approaches to Foreign Policy** A. Alarcón, 2013-11-06 Based on document analysis and on the evaluations perceptions and judgments of people involved in framing making and applying foreign policy in both countries as foreign affairs officials law makers or think tanks associates this book presents the differing worldviews and concepts for establishing an international order It is argued that the differences between U S and French approaches to foreign policies and international affairs are historically entrenched in political cultures and could transcend other elements such as economic interests or the political inclinations of the individuals or parties who control their governments Many of the findings could be applied to the differences and similarities between the U S and other European countries American and European Values John Lachs, 2009-03-26 American and European Values Contemporary Philosophical Perspectives is a collection of essays by contemporary scholars considering key aspects of intersection and encounter between American and European values in the contemporary world The truly international makeup of twenty one contributors enlivens the book's theme in surprising and frequently edifying ways The authors consider in places with revealing frankness the cultural sensibilities unique to America and Europe key historical philosophic figures from John Dewey Josiah Royce and William James to Jean Paul Sartre Ludwig Wittgenstein and Mikhail Bakhtin They also take up various philosophic trends and movements unique to the American and European traditions including pragmatism existentialism phenomenology and logical linguistic analysis Readers interested in deepening their understanding of the increasingly vital philosophical problems that continue to emerge with growing trends of globalization are invited into this rich conversation *Since the Boom* Sebastian Voigt, 2021-01-04 Marked by a period of massive structural change the 1970s in Europe saw the collapse of traditional manufacturing The essays in this collection question aspects of the narrative of decline and radical transformation **Western Europe 2018-2019** Wayne C. new variety of challenges much as it does in neighboring European countries Alarmists view the growing role of Muslims in French society as a form of reverse colonization they believe Muslim political and religious networks seek to undermine European rule of law or that fundamentalists are creating a society entirely separate from the mainstream Integrating Islam portrays the more complex reality of integration s successes and failures in French politics and society From intermarriage rates to economic indicators the authors paint a comprehensive portrait of Muslims in France Using original research they devote special attention to the policies developed by successive French governments to encourage integration and discourage extremism Because of the size of its Muslim population and its universalistic definition of citizenship France is an especially good test case for the encounter of Islam and the West Despite serious and sometimes spectacular problems the authors see a French Islam slowly replacing Islam in France in other words the emergence of a religion and a culture that feels at home in and is largely at peace with its host society Integrating Islam provides readers with a comprehensive view of the state of Muslim integration into French society that cannot be found anywhere else It is essential reading for students of French politics and those studying the interaction of Islam and the West as well as the general public **Western Europe**

Place Stephane Gerson, 2018-08-06 Nineteenth century France grew fascinated with the local past Thousands of citizens embraced local archaeology penned historical vignettes and monographs staged historical pageants and created museums and pantheons of celebrities St phane Gerson s rich elegantly written and timely book provides the first cultural and political history of what contemporaries called the cult of local memories an unprecedented effort to resuscitate the past instill affection for one s locality and hence create a sense of place A wide range of archival and printed sources some of them untapped until now inform the author s engaging portrait of a little known realm of Parisian entrepreneurs and middling provincials of obscure historians and intellectual luminaries Arguing that the local and modernity were interlaced rather than inimical between the 1820s and 1890s Gerson explores the diverse uses of local memories in modern France from their theatricality and commercialization to their political and pedagogical applications The Pride of Place shows that contrary to our received ideas about French nationhood and centralism the local buttressed the nation while seducing Parisian and local officials The state cautiously supported the cult of local memories even as it sought to co opt them and grappled with their

cultural and political implications The current enthusiasm for local memories Gerson thus finds is neither new nor a threat to Republican unity More broadly yet this book illuminates the predicament of countries that like France are now caught between supranational forces and a revival of local sentiments
