Unafraid Benjamin L. Corey, 2017-11-07 The creator of the popular Formerly Fundie blog on Patheos explains how the American Christianity we are currently taught is actually a fear saturated distortion of biblical faith Benjamin L Corey thought he was suffering a crisis of faith but it turned out to be a spiritual awakening Corey became aware that the constant fear of hell and judgment that defined his Christian faith was out of sync with the idea that God acts from love and promises to deliver us from fear In the wake of this realization came newfound insights from reading the Bible to re-examining American life and the church's role in the wider world Corey learned that what he had been taught was a distorted version of Christianity that was not only untrue but caused real spiritual harm He also discovered that he wasn't alone Many

Christians are yearning to distinguish between the Christianity that has become a rigid American civil religion and the authentic Christian faith embodied in Jesus As he recounts his own spiritual journey Corey offers a powerful and inspiring message of hope for every Christian increasingly frustrated with the church today Do not be discouraged he assures them You do not need to give up your faith you can rediscover the reality of a vibrant Christianity that delivers us from fear and inspires and guides us all today

Beyond the Line Georg Berkemer, Derek L. Elliot, Ute Fendler, Margret Frenz, Michael Mann, Ineke Phaf-Rheinberger, Sebastian R. Prange, Ana Sobral, Frank Schulze-Engler, 2014-04-23 The title of *Beyond the Line* refers to the imaginary Line drawn between North and South a division established by the Peace Treaty of Cateau Cambr sis in 1559 This is an early modern time and Eurocentric construction according to which the southern oceanic world has long been taken as symbol of expansionist philosophies and practices An obvious motivation for changing this Line division is the growing influence of the Global South in the contemporary economic and political setting However another motivation for changing opinions in regard to the Line is equally important We observe an emergent consciousness of the pivotal role of the oceanic world for human life This requires the reformulation of former views and raises numerous questions A diversity of connections comes to the mind which demands the composition of a catalogue of case studies with an oceanic horizon Through this operation different problems are being linked together Which problems encounter historians with their research on fishes in the archives How to trace records about pirates of non European descent in the Indian Ocean Which role play the Oceans as mediators for labor migrations not only of the Black Atlantic but also of people moving from Asia to Africa and vice versa What do we know about workers on the oceans and their routes When considering oceans as contact zones with which criteria can their influence in different literary texts be analyzed Is it possible to study nationalisms taking into account these transoceanic relationships And how do artists address these questions in their use of the media Against the background of this catalogue of oceanic questions old stories are told anew Sometimes their cultural stereotypes are recycled to criticize political and social situations Or in other cases they are adopted for elaborating alternative options In this sense the contributions concentrate on countries like India Kenya Angola or Brazil and cover different academic fields A variety of objects and situations are explored which have been and still are determinant for the construction of cultural narratives in view of the modified relationship with the geographically southern oceanic regions
