**Adorno's Rhinoceros** Antonia Hofstätter, Daniel Steuer, 2022-01-27 Throughout his work the philosopher Theodor W Adorno repeatedly invokes the rhinoceros Taking its cue from one of these passages in Aesthetic Theory So a rhinoceros the mute animal seems to say I am a rhinoceros this book explores the life of this animal in Adorno s texts and articulates the nuanced interconnections between art nature and critique in his thought By thus illuminating key elements of Adorno s work this volume reveals the invaluable contributions that this classical thinker can make to our current reflections on the various pressing natural and political crises of our times **Gale Encyclopedia of Science** ,1997 **Gale Encyclopedia of Science** ,2004 Current Catalog National Library of Medicine (U.S.),1968 Includes subject section name section and 1968 1970 technical reports *An Interdisciplinary Approach to Aging, Biohacking and Technology* L.F. Carver,2023-12-19 An Interdisciplinary Approach to Aging Biohacking and Technology focuses on a broad range of issues that cover everything from the most basic ways technology and biohacking influence people s everyday lives to concerns about equity globalization and how we humans produce consume and are consumed by our technologies This edited collection looks at the intersection between technology and aging addressing the ways in which technology affects individuals groups local communities and entire populations Contributions from a range of disciplines including sociology philosophy communications medicine and religion provide interdisciplinary perspectives addressing questions such as What is the impact of technology on adult bodies our well being and our safety The book explores risks such as surveillance technology body modification and the Internet as well as issues in the aging journey such as the body and its modification communication privacy and surveillance gerontechnology and aging in place Critically examining the journey of ageing and exploring techniques such as biohacking this book is for students studying aging and technology including courses such as psychology sociology philosophy cultural studies health studies and gerontology It will also be of interest to scholars who are curious about an interdisciplinary approach to age and technology *Annual Report* New South Wales. Department of Mineral Resources,2001 **Who are you?** Axel Cleeremans, Changiz Mohiyeddini, Livio Provenzi, Sara Palermo,2025-06-23 Psychology and the neurosciences attempt to understand who we are what makes us us At its core this involves explaining how the biological activity of the brain produces mind our mental states and everything that we feel But we also need to address questions such as how our mind develops how we interact with other people how we perceive the world around us how we make decisions in short how does our mind work The core goal of this collection is to offer a set of articles highlighting some of the central concepts and empirical findings in the broad domains of psychology and human neuroscience Many of these findings are surprising in different ways and hence of inherent interest to the wider public and in particular to an audience of kids who are at an age where one tries to understand oneself The collection will involve contributions from different Frontiers in Psychology SCEs and will include a variety of approaches and of domains such as Perception Core findings but also biases illusions and other

surprising phenomena Consciousness How come we are aware of ourselves What can we do unconsciously Emotion What role do they play in decision making How can we control them Language How come we learn to speak without instruction Is it good to be bilingual Gender How do our sexual preferences and identity develop Development What changes as we grow up Can kids sometimes be better than adults Memory How is our memory organized How do we make it better The brain How does the brain work What can go wrong Culture Do people in different cultures see the world differently Manuscripts will preferentially include experimental findings put in the context of core theoretical constructs **The Gale Encyclopedia of Science** ,2001 **The Church in the Public** Ilse Ahn,2022-08-09 How should the church relate to the public sphere The body politic The state The economic order The natural world For too many Christians and churches being in the world but not of it has resulted in either a theocratic impulse to seize the reins of secular power or a quietistic retreat from the world and its material concerns The Church in the Public shows how this dualism has corrupted the church's social witness and allowed neoliberal and neocolonial ideas to assert control of public and political life Dualism has rendered the church not only indifferent to but also complicitous with the state's bio and power politics Because of this outdated framework of the church's political theology the church has been reluctant to engage in challenging structural and systemic injustice in this world But rather than counseling despair or making a case for Christendom Ilse Ahn argues for a public church one that collaborates and cooperates with other public actors and entities in the promotion of a just social order The book traces this third way back to the apostolic age and offers practical approaches for enacting it today Central to this vision is the analogy of the rhizome that strange unique form of life that lives underground grows horizontally and is capable of regeneration The Church in the Public draws on this image to develop a political theology for engaging the world identifying with the oppressed and binding up the broken **Book Review Index** ,2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index *Radiophonic Feminisms* Esther Díaz Martín,2025-08-12 How Latina voices in commercial radio and podcasting subvert cultural norms and bring feminism to the fore of their work What does Latina feminism sound like in popular culture Drawing on case studies of commercial radio programs and podcasts hosted by Latinas and oriented toward Latinx listenership Esther Díaz Martín explores how Latina voices create female specific aural spaces that interrupt the misogynist status quo in US mainstream media Radiophonic Feminisms focuses on radio podcasting as a medium in which women find methods for resisting oppressive gendered cultural imaginaries Through their specific articulations that is the quality of their voices their music choices and the soundscapes they construct Latina hosts since the early 1990s have offered feminist responses to a cultural moment marked by the demographic changes brought on by the political economy of migration and the social changes wrought by media in the digital age Drawing attention to the invisible antisexist work of creating sound and to its reception Díaz Martín bridges the epistemic insights of Chicana feminist theory and sound studies enriching and further decolonizing our thinking about auditory meaning making **The Digital Bind** Jeffrey Boase,2025 As

mobile devices continue to evolve from basic phones designed solely for calling to more sophisticated smartphones and wearable devices what remains constant is that the portability of these devices creates new possibilities for social connectivity By lowering our social dependence on place mobiles open up the timing of our availability enabling the technological reality of constant connectivity for much of the world's population What has constant connectivity meant for social life How have relationships adapted and changed as mobile devices become more complex In *The Digital Bind* Jeffrey Boase explores the social implications of constant connectivity for family work and friendship Using a new theoretical lens called the configuration approach Boase shows how complex technological and social arrangements explain why individuals often draw on a multitude of apps and devices to stay connected He presents a comprehensive empirical study that reveals three common practices of connection media situatedness the division of media and temporal boundaries These practices help individuals manage the challenges and opportunities of constant connectivity while at the same time deeply binding the digital to the social By combining historical context theoretical insights and rigorous empirical research *The Digital Bind* offers a comprehensive account of how the apps and devices that we use to navigate contemporary social life have become embedded into our lives and our relationships *Standard Catalog for High School Libraries* H.W. *A Brief Guide to Ghost Hunting* Leo Ruickbie, 2013-08-15 There has been an upsurge in books television programmes films and websites exploring the reality or otherwise of the spirit world Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular Television and the internet in particular have fueled this new level of interest creating a modern media phenomenon that spans the globe But while the demand for information is high good information remains scarce *A Brief Guide to Ghost Hunting* leads us through the process of ghost hunting from initially weighing the first report to choosing equipment and investigating and identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even

older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more

**An Introduction to the Work of a Medical Examiner** John J. Miletich, Tia Laura Lindstrom, 2010-02-26 Medical examiners play an increasingly important role in society as unexpected and violent deaths increase not only due to crime but also due to new toxins in the environment emerging diseases crossing from animals to humans bizarre suicides sadistic sexual practices and other non natural causes John Miletich and Tia Lindstrom take us into the world of these medical detectives Biological clues from bite marks and skin abnormalities to blood chemical levels and brain oxygenation are just some factors exposed in their quest for truth and justice We learn the basics of death determination from rigor and livor mortis to signs of death by design drug use disease suicide and more We also come to understand the tools of this work from the Stryker's Saw to the grocer's scale and tests that reveal factors from DNA evidence to toxins from insect bites Each case begins with a biological mystery and ends with a conclusion that can provide loved ones with relief or shock Miletich who trained at the Alberta Office of the Chief Medical Examiner and with the Royal Canadian Mounted Police teams with Lindstrom to introduce readers to the medical examiner's role including autopsy techniques and analysis Twists and turns emerge as what was initially thought to be a murder proves to be suicide what was suspected to be a natural death proves to be murder or environmental poisoning or what was thought to be an accidental death proves to be something more sinister This work includes appendices with guides to Medical Examiner organizations seminars and conventions

**The Encyclopedia Americana**, 1920 [The Japanese Pharmaceutical Industry](#) Maki Umemura, 2011-03-02 This book explores why Japan despite being a world leader in many high technology industries such as automobiles and consumer electronics is only a minor player in the global pharmaceutical industry Japan provides a huge market for pharmaceuticals as the second largest consumer of prescription drugs after the United States and is a massive importer of prescription drugs relying on discoveries made elsewhere This book charts the development of the industry from the devastation resulting from the Second World War to its performance in the present day Focusing in particular on antibiotics and anticancer drugs the book analyses factors that have prevented Japan from leading the rapid advances in science and technology that have occurred globally over recent decades Looking at the pharmaceutical industry the book argues that the Japanese government's research and development policies were not sufficiently incentivising It also shows

how the nature of capitalism in Japan which featured close relations between government and industry as well as between and within firms was appropriate for nurturing industrial development in the immediate post war decades but became much less effective in later years
