### **Is War Necessary for Economic Growth?**

Vernon W. Ruttan,2006 Publisher Description *The Next Cold War?* James M. Hanson,1996-09-24 The Next Cold War sounds a warning the United States may be contributing to another cold war through its competitive unilateral and regional economic policies Whereas wars of the past usually resulted from political conflict Hanson warns that a new cold war may result from economic conflict This raises important questions for American policymakers Will the United States be a world leader that promotes cooperation and unity or will it seek to create competition and division Will the United States address the basic problems of population environmental deterioration and economic stagnation in concert with other nations or will it pursue narrow geopolitical and geoeconomic power strategies This fascinating work explores both sides of these questions and poses alternatives that will promote world cooperation and unity

### **Democracy and Security**

Matthew Evangelista,Harald Muller,Niklas Schoernig,2009-12-04 This edited book offers a broad examination of how democratic preferences and norms are relevant to security policy beyond the decision of whether to go to war therefore providing a fresh understanding of state behaviour in the security realm *The Process and Politics of Defense Acquisition* David S.

Sorenson,2008-12-30 The United States government invests billions each year on equipping armed forces with the most advanced military equipment The root of the American defense acquisition system is driven by a combination of national interests and domestic political requirements While fundamentally the defense acquisition system has produced results for the United States military improvements are needed in order to continue to move forward in advancing military tactics and technology Exploring both the systemic and political levels of the system Sorenson argues that the United States will fall behind if the current defense acquisition system is not reformed This book brings together elements of this complicated system such as national security requirements and the changes that are needed in both the structural and political pillars A combination of political interests and the needs of the military serviced by an ever shrinking defense industry make a genuine acquisition reform even more difficult resulting in reform that is more symbolic than genuine

Military Arthur Asa Berger,2017-07-05 When the cold war ended many hoped it signified enhanced prospects for a more stable world However despite favorable political developments the post cold war period has been marked by turbulence uncertainty and challenge The actions of rogue states such as Iraq and North Korea have made nuclear proliferation more unpredictable Violence in Somalia and Bosnia has cast doubt on the viability of international peacekeeping arrangements Hopes for expanding democratization have been dimmed by assertions that the values of liberal democracy and human rights are incompatible with non Western cultures The Adaptive Military describes how military security policies and practices have adapted to these new times and explains why such changes are necessary The central argument is that current conflicts have been shaped by long term trends which increased the number and complexity of threats that the developed world is supposed

to meet and correspondingly decreased the stock of social and political options available to meet them Although the authors differ in their assessments about the current prospects for peace and ways to maintain security the issues they address are as critical as they were at the end of the Cold War Mobilizing resources and political support for remote and difficult enterprises will always remain contentious but if we recognize the hazard of letting violence run unopposed throughout the world then we bear some responsibility to consider how it might be checked This volume is an exercise of that responsibility It will be of great interest to experts in military studies and international relations **Quarterly Review of Military**
