The Modern American Tradition Readings In Intellectual History:

The Modern American Tradition, 1972-01-01 American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker Company. Department of Bibliography, 1978 Tariff Question in the Gilded Age Joanne Reitano, 2010-11-01 Protective tariffs were part of American life long before the era of NAFTA and GATT In the late nineteenth century the tariff question was one of the most controversial issues of the day As Joanne Reitano shows in this far reaching study the ensuing debate was anything but an empty exercise in political rhetoric occupying only politicians and lobbyists The tariff was of central concern to a broad cross section of people because of its perceived relationship to immediate economic problems such as wages prices and trusts In fact it became a means for many Americans to wrestle with the implications of the country's rapid growth and the impact of industrial capitalism on American life Reitano focuses on the election year of 1888 when the tariff was adopted as a cause célèbre by President Grover Cleveland Congress the two major parties and the press At the heart of the debate was the Mills Bill for tariff reduction Although the bill failed to pass Reitano finds in the rancorous public debate a barometer of changes in the American mind in the Gilded Age She carefully blends intellectual political economic and social issues through analyses of the Congressional Record press coverage of the debate academic and polemical literature political cartoons and the presidential campaign Ultimately Reitano contends that ideas about political economy have always been central to the American mind They were so in the Gilded Age as they are today Library of Congress Catalog Library of Congress, 1970 A cumulative list of works represented by Library of Congress printed cards **Writers Directory** NA NA, 2016-03-05 **American Labyrinth** Raymond Haberski, Jr., Andrew Hartman, 2018-12-15 American Labyrinth contains a stimulating and useful collection of essays by historians reflecting on American intellectual history As a whole the book convinces the reader that the field of intellectual history is enjoying a renaissance The book will be especially prized by intellectual historians but historians of many different persuasions will find these essays rewarding too Choice Intellectual history has never been more relevant and more important to public life in the United States In complicated and confounding times people look for the principles that drive action and the foundations that support national ideals American Labyrinth demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest Raymond Haberski Jr and Andrew Hartman asked a group of nimble sharp scholars to respond to a simple question How might the resources of intellectual history help shed light on contemporary issues with historical resonance The answers all rigorous original and challenging are as eclectic in approach and temperament as the authors are different in their interests and methods Taken together the essays of American Labyrinth illustrate how intellectual historians operating in many different registers at once and ranging from the theoretical to the political can provide telling insights for understanding a public sphere fraught with conflict In order to understand why people are ready to fight over cultural

symbols and political positions we must have insight into how ideas organize enliven and define our lives Ultimately as Haberski and Hartman show in this volume the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas **The Publishers' Trade List Annual** ,1981 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1974 Library of Congress catalog--Books: subjects United States,1976 **The New American History** American Historical Association,1997 Originally released in 1990 The New American History edited for the American Historical Association by Eric Foner has become an indispensable volume for teachers and students In essays that chart the shifts in interpretation within their fields some of our most prominent American historians survey the key works and themes in the scholarship of the last three decades Along with substantially revised essays from the first edition this volume presents three entirely new ones on intellectual history the history of the West and the histories of the family and sexuality The second edition of The New American History reflects in Foner's words the continuing vitality and creativity of the study of the past how traditional fields are being expanded and redefined even as new ones are created Author note Eric Foner is DeWitt Clinton Professor of History at Columbia University He is the author of numerous books including *Reconstruction 1863-1877* which was awarded the Bancroft Prize
