

Multinational Corporation

[məl-tē-'nash-nəl ,kôr-pə-'rā-shən]

A company that has business operations in at least one country other than its home country.

The Multinational Corporation And The Resource Cost Of International Technology Transfer

B Lingard

The Multinational Corporation And The Resource Cost Of International Technology Transfer:

The Multinational Corporation and the Resource Cost of International Technology Transfer David J. Teece, 1976
Monograph on multinational enterprises comprising an economic analysis of the costs of international technology transfer discusses methodologies the use of statistical data and models the economic structure of the host country economic policy trade investment etc and includes case studies Bibliography pp 123 to 125 graphs references and statistical tables

The Multinational Corporation and the Resource Cost of International Technology Transfer David John Teece, 1975

Multinational Firms and the Theory of International Trade James R. Markusen, 2002 A comprehensive microeconomic general equilibrium theory and empirical analysis of multinational firms

The Organisation of the Firm Ram Mudambi, Martin Ricketts, 2002-01-31 In recent years there has been a growth in work on the organization of the firm The same period has also seen a corresponding rise in literature dealing with the organization of the multinational firm but the two literatures have developed quite separately even though insights from each have much to offer the other This unique collection of essays from respected academics aims to bridge this gap addressing questions of the theory of the firm and international business The material is presented in three sections The first section deals with theoretical issues underpinning multinational enterprise These are the issues of information re engineering and change management and international trade The second section concentrates on the inter firm relationships of multinationals assessing the interplay of co operation and adversarial behaviour The third section deals with applications of the principles presented in the first two sections The applications concern the defence equipment industry the world automobile industry and corporate governance under European Union Regulations The Organisation of the Firm is aimed at researchers and students in the field of international business and is likely to appeal to advanced undergraduates and postgraduates as well as academics

Essays in Technology Management and Policy David J. Teece, 2003 This book examines the manner in which successful firms develop transfer protect and capture value from technological innovation In essence it is about knowledge management which lies at the foundation of firm level competitive advantage in today's global economy The essays contain some of the fundamental contributions to the field of knowledge management by one of its best known thinkers they also constitute an immensely practical guide for those managers who wish to look below the surface of what is going on in Silicon Valley and elsewhere

The Theory of Technological Change and Economic Growth Dr Stanislaw Gomulka, 2006-12-05 In this wide ranging exposition of the various economic theories of technological change Stanislaw Gomulka relates them to rates of growth experienced by different economies in both the short and the long term Analysis of countries as diverse as Japan the Soviet Union and the United Kingdom demonstrates that there is an interdependence between technological change and the institutional and cultural characteristics of different countries which can have a profound effect on their rates of growth All of the major relevant models are discussed including those of Kuznets and Phelps but throughout the emphasis is on the

creation of a unified theoretical framework to help explain the impact of technological progress on both a micro and a macro scale **The Management of Technological Innovation** Mark Dodgson, David M. Gann, Ammon Salter, 2008-02-07 The management of technological innovation MTI is one of the most important challenges facing businesses today Innovation has become the fundamental driver of competitiveness for firms of all sizes in virtually all business sectors and nations The first edition of this book has become one of the most popular texts for students of innovation and technology management This new edition sees David Gann and Ammon Salter join Mark Dodgson as authors drawing on their combined experience of 60 years of researching and teaching MTI It combines the most relevant theoretical analysis with contemporary and historical empirical evidence to provide a comprehensive yet concise and readable guide to the challenges of MTI By explaining the innovation process the book reveals the broad scope of MTI and its importance for company survival growth and sustainability It describes how MTI has to be managed strategically and how this is successfully achieved by formulating and implementing strategy and delivering value Chapters provide frameworks tools and techniques and case studies on managing innovation strategy communities and networks R D design and new product and service development operations and production and commercialization Based on robust analysis the book provides a wide range of empirical evidence from a huge diversity of case studies with around fifty case studies newly written for this edition It analyses MTI in all parts of the world in companies large and small and in services manufacturing and resource based business sectors This new edition has been fully revised and updated to reflect the latest teaching and research and to ensure its continuing relevance to the contemporary world of MTI It will be an important resource for academics students and managers throughout the world is a recommended text for students of innovation and technology management at postgraduate and undergraduate level and is particularly valuable for MBA courses **Economics and Technological Change** Rod Coombs, Paolo Saviotti, Vivien

Walsh, 1987 An area of neglect in much of current economic theory has been its lack of attention to the impact of technological innovation on the structure and behavior of firms and the market This book is a comprehensive study of the economic implications of technological change for three primary institutions the firm the market and the civil sector

Transnational Corporations and Innovatory Activities John Cantwell, 1994 **The Foreign Investment Debate** Cynthia A. Beltz, 1995 Traditionally the United States has maintained an open door at home while promoting investment liberalization abroad through the negotiation of bilateral and regional treaties This strategy has paid off by boosting productivity and economic welfare at home while developing countries are moving at an unprecedented rate to emulate the successful open door policies of the United States There is also renewed interest in a multilateral set of rules for investment At the same time a new generation of U S laws and proposed regulations challenges the very foundation of America's open door namely the principles of national treatment and nondiscrimination This volume brings both sides of the debate together to examine the changing economic role of foreign investment the policy trends and the tools for reducing barriers to transnational investors

The result is a provocative and informative discussion of the strategies and trade offs shaping the foreign investment debate

If you ally compulsion such a referred **The Multinational Corporation And The Resource Cost Of International Technology Transfer** book that will find the money for you worth, acquire the extremely best seller from us currently from several preferred authors.
