Solomon, 1987 S2SIMSAP and SIMTIM are computer programs that have been developed to simulate the stand growth and development of natural and treated even aged northern hardwood stands SIMSAP begins with species distributions by quality classes in sapling stands after regeneration SIMTIM the poletimber sawtimber harvest phase uses stocking guides based on quadratic mean stand diameter number of trees and basal area per acre of trees in the main crown canopy Using available data the connecting phases of the models have been tested to determine the effects of silvicultural treatments or no treatment on long term stand response The models are coded in FORTRAN 77 and are available on mainframe and IBM compatible microcomputers with a minimum of 256 K S3      U.S. Government Research Reports , 1960      **Lawnfield, James A. Hansen, 1984 S2Three system 6 mill size alternatives were designed and evaluated to determine their overall economic potential for producing standard size hardwood blanks The study focused on developing standard discounted cash flow measures Internal rates of return ranged from about 15 to 35 percent after taxes Secondary effort was directed at providing accounting cost summaries to facilitate cost comparison of standard size blanks with rough dimension stock Cost per square foot of blanks ranged from about 0 88 to 1 19 depending on mill size and the amount of new investment required S3      Soil Survey , 1991      **Research Paper NE.** , 1985      **Scientific and Technical Aerospace Reports** , 1970      *Perspectives on the Age of the Earth and Why They Matter* Francis Ö. Dudás, 2020-02-13 Polls show almost half of US adults believe that Earth is only 10 000 years old whereas scientists consider our planet to be 4 56 billion years old Examining these conflicting views illuminates aspects of the perceived conflict between religion and science and helps us understand the battles between evolutionist and creationist advocates This book examines how we approach knowledge and how we look at certainty It disentangles the threads of the traditional knowledge we are taught from the knowledge we gain from our own investigation of truth It argues that nature the basis of science and scripture the basis of religion derive from a single source Because of their shared origins religious and scientific perspectives grounded in verifiable truths must be in harmony The book presents the science behind the reliability of isotopic dates and critiques young earth creationist attacks on isotopic studies Though the nature of time is a philosophical issue its measurement is a scientific venture that has affirmed that Earth is 4 56 billion years old The harmony of science and religion based on recognition of their single source is a prerequisite for the progress of humanity as a whole
