Canadian Books in Print 2002 Marian Butler, 2002-02 *Anti-colonialism and Education* George Jerry Sefa Dei, Arlo Kempf, 2006 There is a rich intellectual history to the development of anti colonial thought and practice In discussing the politics of knowledge production this collection borrows from and builds upon this intellectual traditional to offer understandings of the macro political processes

and structures of education delivery e.g. social organization of knowledge, culture, pedagogy and resistant politics. The contributors raise key issues regarding the contestation of knowledge as well as the role of cultural and social values in understanding the way power shapes everyday relations of politics and subjectivity. In reframing anti-colonial thought and practice, this book reclaims the power of critical oppositional discourse and theory for educational transformation.

Anti Colonialism and Education: The Politics of Resistance includes some of the most current theorizing around anti-colonial practice written specifically for this collection. Each of the essays extends the terrain of the discussion of what constitutes anti-colonialism. Among the many discursive highlights is the interrogation of the politics of embodied knowing, the theoretical distinctions and connections between anti-colonial thought and post-colonial theory, and the identification of the particular lessons of anti-colonial theory for critical educational practice. Essays explore such key issues as the challenge of articulating anti-colonial thought as an epistemology of the colonized, anchored in the indigenous sense of collective and common colonial consciousness, the conceptualization of power configurations embedded in ideas, cultures and histories of marginalized communities, the understanding of indigeneity as pedagogical practice and the pursuit of agency, resistance and subjective politics through anti-colonial learning.

Management Motifs Scott Grills, Robert Prus, 2018-07-24. This book examines management and management-related activities as a feature of everyday life. Any person or group that attempts to influence or shape the behaviors or experiences of others may be understood as engaging in management activities. The study of management involves the study of achieving, understanding, providing direction and coordinating activities with others across an endless array of humanly engaged terrains. *Management Motifs* provides a research agenda for an interactionist approach to the study of management activities. Moving well beyond more organizationally based understandings of managers and management, it examines the pragmatic accomplishment of management activities and the generic social processes that accompany them. This work addresses diverse issues related to management such as holding and doing office, pursuing cooperation, developing policy, envisioning and advocating for missions, establishing teams and generating team identities, sustaining team endeavors and managing self. By attending to management-related concerns as a generic feature of human group life, the authors develop and articulate a research framework for the study of managing and management.

Subject Guide to Books in Print, 1996. *Flexibility and Lifelong Learning* Katherine Nicoll, 2006-09-27. This book seeks to develop different approaches to policy analysis through a discursive and rhetorical engagement with the themes of flexibility and lifelong learning.

Power, Pedagogy and Praxis, 2008-01-01. The aim of the text is to respond to gaps in an emergent discourse running along minority-majority world fault lines through various perspectives linking globalization, education and human rights. The editors' standpoint allows the consideration of equity in education as the foremost expression of social justice in this era of economic and technological globalization, regardless of political or cultural contexts. This project continues the tradition of critical social pedagogy in creating common ground that accesses new approaches to political and

classroom based relations of power and praxis
