The Hidden Domain Norman Friedman, 1997 Did you know that our everyday world arises from an invisible ocean of unlimited energy that surrounds and permeates us That all events exist in potential form in this ocean and certain ones are selected to be manifest in our reality That this domain is the source not only of our universe but innumerable other universes as well The Hidden Domain explores this realm using nonmathematical concepts that are solidly grounded in science Ideas from physicists from religious and philosophical sources and from Seth the discarnate entity brought to us by Jane Roberts illuminate this intriguing depiction of the world that underlies all experience Intuitive Instructional Speech in Sufism
