The Multiple Stage In Spain During The Fifteenth And Sixteenth Centuries:

The Multiple Stage in Spain During the Fifteenth and Sixteenth Centuries William Hutchinson Shoemaker, 1973
The present study is an examination of the manifestations of the multiple stage technique in Spain from the earliest records of dramatic performances up to the period of Lope de Vega from the author's introduction

The Multiple Stage in Spain During the Fifteenth and Sixteenth Centuries William Hutchinson Shoemaker, 1935

The Theatre in the Middle Ages William Tydeman, 1978 William Tydeman covers central aspects of western European theatre from the Dark Ages to the building of the first public theatres towards the end of the sixteenth century

The Medieval European Stage, 500-1550 William Tydeman, 2001-09-27 This volume brings together a wide selection of primary source materials from the theatrical history of the Middle Ages The focus is on Western Europe between the fall of the Roman Empire and the emergence of markedly Renaissance forms in Italy Early sections of the volume are devoted to the survival of Classical tradition and the development of the liturgical drama of the Roman Catholic Church but the main concentration is on the genesis and growth of popular religious drama in the vernacular Each of the major medieval regions is featured while a final section covers the pastimes and customs of the people a record of whose traditional activities often only survives in the margins of official recognition The documents are compiled by a team of leading scholars in the field and the over 700 documents are all presented in modern English translation

A Companion to the Medieval Theatre Ronald W. Vince, 1989-03-27 Vince has provided a useful and for the most part usable reference work His introduction should be required reading for anyone approaching medieval theater Choice Scholars increasingly see medieval theatre as a complex and vital performance medium related more closely to political religious and social life than to literature as we know it Reflecting the current interest in performance A Companion to the Medieval Theatre presents 250 alphabetically arranged entries offering a panoramic view of European and British theatrical productions between the years 900 and 1550 The volume features 30 essays contributed by an international group of specialists and includes many shorter entries as well as systematic cross referencing a chronology a bibliography and a full complement of indexes Major entries focus on the theatres of the principal linguistic areas the British Isles France Germany Iberia Italy Scandinavia the Low Countries and Eastern Europe and on dramatic forms and genres such as liturgical drama Passion and saint plays morality plays folk drama and Humanist drama Other articles examine costume acting pageantry and music and explore the theatrical dimension of courtly entertainment the dance and the tournament Short entries supply information on over one hundred playwrights directors actors and antiquarians whose contributions to the theatre have been documented This informative guide brings new depth to our appreciation of the richness and color of medieval public entertainments and the symbolism and pageantry that were a part of daily life in the Middle Ages Designed to appeal to general reader this volume is also an attractive choice for libraries serving students and scholars of theatre history English and European literatures medieval history cultural history drama

and performance **Theatre in Spain, 1490-1700** Merveena McKendrick, 1989 This is the first book to examine the rise of Spain's extraordinary national theatre in the sixteenth and seventeenth centuries in all its aspects the commercial theatre the court drama and the Corpus autos the organisation of theatrical life the playhouses themselves and their public the literary and moral controversies and the plays as literary texts The book has been written for students of drama as well as Hispanists Spanish theatre is set in its national and international context Spanish titles and theatrical terms are translated Considerable space has been devoted to the experimental drama of the sixteenth century before Lope de Vega At the core of the book is a highly distinctive successful national theatre which mirrored the energies beliefs and anxieties of a great nation in crisis yet at the same time granted full expression to the individual genius of its greatest exponents Lope de Vega Tirso de Molina and Calderon de la Barca **The Medieval Theatre** Glynn William Gladstone Wickham, 1987-07-09 This is a thoroughly revised edition of Glynn Wickham's important history of the development of dramatic art in Christian Europe Professor Wickham surveys the foundations on which this dramatic art was built the architecture costumes and ceremonial of the imperial court at Byzantium the liturgies of countries in the Eastern and Western Empires and the triumph of the Roman rite and the Romanesque style in Western art Within this context Professor Wickham describes three major influences upon the drama religion recreation and commerce The first produced the liturgical music drama rooted in praise of Christ the King vernacular Corpus Christi drama Saint Plays and Moralities centred on the humanity of Christ The second gave rise to the secular theatres of social recreation based on the games and dances of village communities and the more sophisticated sex and war games of the nobility The section on commerce shows how the development of the drama was intimately related to questions of funding and management which led during the sixteenth century to the substitution of a professional for an amateur theatre and to a growing emphasis on stage spectacle For this third edition the author has added a substantial section on monastic reform and its effect on Biblical translation and the use of allegory a final chapter charts the transition in different European countries from this medieval Gothic theatre to the neoclassical methods of play construction and representation which flourished for the next two hundred years The book gorges a coherent pattern through a very large and complicated subject It is an excellent introduction to medieval theatre for undergraduates and to the growing number of theatregoers who enjoy contemporary revivals of medieval plays A large plate section gives a pictorial version of the story using photographs of contemporary manuscript illuminations mosaics frescoes paintings and sculptures The Casa del Deán Penny C. Morrill, 2023-09-15 The Casa del Deán in Puebla Mexico is one of few surviving sixteenth century residences in the Americas Built in 1580 by Tomás de la Plaza the Dean of the Cathedral the house was decorated with at least three magnificent murals two of which survive Their rediscovery in the 1950s and restoration in 2010 revealed works of art that rival European masterpieces of the early Renaissance while incorporating indigenous elements that identify them with Amerindian visual traditions Extensively illustrated with new color photographs of the murals The Casa del Deán presents a

thorough iconographic analysis of the paintings and an enlightening discussion of the relationship between Tom s de la Plaza and the indigenous artists whom he commissioned Penny Morrill skillfully traces how native painters trained by the Franciscans used images from Classical mythology found in Flemish and Italian prints and illustrated books from France as well as animal images and glyphic traditions with pre Columbian origins to create murals that are reflective of Don Tom s s erudition and his role in evangelizing among the Amerindians She demonstrates how the importance given to rhetoric by both the Spaniards and the Nahuas became a bridge of communication between these two distinct and highly evolved cultures This pioneering study of the Casa del De n mural cycle adds an important new chapter to the study of colonial Latin American art as it increases our understanding of the process by which imagery in the New World took on Christian meaning

Progress of Mediaeval and Renaissance Studies in the United States and Canada ,1924 Each number contains a List of medievalists and their publications and a List of doctoral dissertations Nos 6 10 include also the report of the academy

Magic on the Early English Stage Philip Butterworth,2005-10-06 An original investigation into conjuring tricks and stage magic on the medieval stage
