The Gift Esp The Extraordinary Experiences Of Ordinary People:

The Gift Sally Rhine Feather, Michael Schmicker, 2005-05 A foremost parapsychologist examines how ESP works with gripping case histories from the world's largest collection of ESP stories *The Power of Premonitions* Larry Dossey, MD, 2009-10-05 The doctor and bestselling author who first demonstrated the healing effects of prayer now offers an unprecedented look at the science of premonitions The Power of Premonitions takes readers through documented cases of premonitions including a remarkable instance when an entire Nebraska community skipped church the very day it exploded an examination of recent scientific study of presentiment a discussion of what it all means to daily life and practical field tested techniques for inviting premonitions In this compelling new book Dossey uses cutting edge science to prove the value of what has long been considered spiritual mumbo jumbo This is a book for the sceptical mind but it's also for the believer's heart because its author possesses the rare gift of having both *The Science of Premonitions* Larry Dossey, 2010-05-04 Larry Dossey is one of America's most important thinkers When he talks I listen Marianne Williamson author of A Return to Love In his New York Times bestseller Healing Words Dr Dossey investigated why patients surrounded by prayer healed faster and more completely than patients who were not Now in The Science of Premonitions Dossey uses cutting edge science to make a convincing case that premonitions are real common and helpful Then Dossey explores research on mindfulness and meditation to show readers how they can cultivate and take advantage of premonitions Packed with compelling case studies and thought provoking findings this is a book for the skeptical mind and the believer's heart and will be greeted warmly by as Deepak Chopra said anyone who is interested in knowing about the deeper meaning of our existence Deepak Chopra M D *Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments* Mark A. Schroll, 2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re-experience memories that are woven into the morphogenetic fields of that place an idea that originates with Paul Devereux's empirical enquiry into dreams at sacred sites in Wales and England This book examines how this investigation provides us with a new way of understanding consciousness and a new direction toward a reconciliation of the divorce between matter and spirit We explore the work of David Lukoff and Stanislov Grof the connections between the varieties of transformative experience in dream studies ecopsychology transpersonal psychology and the anthropology of consciousness as well as the overlap between David Bohm's interpretation of quantum theory and Rupert Sheldrake's hypothesis of formative causation *Parapsychology* Etzel Cardena, John Palmer, David Marcusson-Clavertz, 2015-07-25 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur

although we are far from explaining them to everyone's satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don't know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories Instructors considering this book for use in a course may request an examination copy here

Connecting with Coincidence Bernard Beitman, 2016-03-07 We've all experienced or heard of surprising events and unexplainable coincidences money that seems to come from nowhere a spontaneous idea that turns into a life changing solution meeting our soulmate on a flight we weren't supposed to take or families being reunited by accident after years of separation Often these coincidences are explained as being controlled by a higher power or pure chance But for the first time since Carl Jung's work comes bold new research that explains scientifically how we can identify understand and perhaps even control the frequency of coincidences in our everyday lives Bernard Beitman a leading expert on Coincidence Studies proposes a greater personal responsibility which depends partly upon newly discovered grid cells located in the brain near the hippocampus But neuroscience cannot complete the entire puzzle and in this fascinating guide Beitman provides the missing piece From analyzing true stories of synchronicity from around the globe and throughout history he shares key personality characteristics and situational factors that contribute to the occurrence of meaningful coincidences in our lives Where other books on coincidences tend to be theoretical inspirational or story collections only Beitman's book is the first to provide a scientific understanding and practical ways in which readers can use them in their own lives He reveals How to activate your observing self so you don't miss synchronistic moments How serendipity can offer insights into solving problems or making difficult decisions Why stress activates meaningful coincidences Which states of

mind impede our ability to experience synchronicity How to interpret the meaning of a coincidence Why being attuned to coincidences is a learned skill and how to hone your sensitivity *Book Review Index* ,2006 Every 3rd issue is a quarterly cumulation The North Carolina Historical Review ,2006 The Mental Environment Bob Gebelein,2007 The Publishers Weekly ,2005 The Gift Sally Rhine-Feather, **Esp Experience** Jan Ehrenwald,1978-03-20 A respected psychiatrist explores the extent to which modern day psychiatry confirms the existence of extrasensory perception **The British National Bibliography** Arthur James Wells,2005 **The Truth about ESP** Hans Holzer,1974 **Journal of Religion and Health** ,1980 Amazing Stories ,1978-11 **Do Cats Have ESP?** Jeane Dixon,2000-02 The last work completed by America s legendary psychic Jeane Dixon before her death Do Cats Have ESP explores stories of amazing felines with mystical power This fascinating book features investigations cat horoscopes and incredible accounts of cats who saved people s lives **The Aryan Path** Sophia Wadia,1967 **Twelve Dimensions** Charles Ferris,1988
