**Good Data in Business and Professional Discourse: Research and Teaching** Geert Jacobs, Sofie Decock, 2021-01-27 This edited book engages with the richly interdisciplinary field of business and professional communication, aiming to reconcile the prescriptive ambitions of the US-centred business communication tradition with the more descriptive approach favoured in discourse studies and applied linguistics. A follow-up to the award-winning book *The Ins and Outs of Business and Professional Discourse* (Palgrave Macmillan, 2016), this volume brings together scholars and their recent work from wide-ranging business and professional settings to engage with the question of what counts as good data. The authors focus on four key themes: authenticity, triangulation, background and relevance, to shine a light on business and professional discourse as essential contextual and intertextual.
