The Modern Chair Clement Meadmore, 1979-01-01 **The Modern Chair: Classics in Production** Clement Meadmore, 1975 A man who sleeps for twenty years in the Catskill Mountains wakes to a much changed world **THE MODERN CHAIR. CLASSICS IN PRODUCTION. BY CLEMENT MEADMORE.** CLEMENT MEADMORE, 1974 *Modern Chair* Clement Meadmore, 2019-08-14 In this profusely illustrated study a noted furniture designer brings together more than 40 examples of chairs that combine practicality and elegance to transcend the confines of period and fashion Featured are such modern classics as Thonet's Bentwood armchair Breuer's Wassily chair van der Rohe's Barcelona chair and many more Each chair is described in detail with the aid of photographs Mr Meadmore's own explanatory drawings and some reproductions of the original designer's plans The author also explores the ways in which the designers approached and solved inherent problems of function and aesthetics The scale drawings in this book are all one eighth of full size allowing easy assessment of dimensions and visual comparison of size and proportion Many of these chairs are housed in museum collections others are still being produced today Now this inexpensive edition of *The Modern Chair* enables students of furniture and any interested reader to make a thorough study of the most important chairs of modern times **Antiques Roadshow Collectibles** Carol Prisant, 2003-01-01 Offers tips on identifying collecting and caring for furniture photographs posters and illustration art costume jewelry and wristwatches dolls toys advertising and sports memorabilia and glass and pottery *Chair* Anne Massey, 2013-06-01 The chair you're likely sitting in one right now Yet despite its common presence in offices restaurants and homes we very rarely stop to think about the origins of the chair and its place in culture After all the human body is actually more suited to sitting on the ground than on a chair and as a result chairs often cause back problems Nonetheless in Western culture as Anne Massey explains the chair is an object that marks our place in the modern world Massey explores how particularly in the last hundred years the chair has become a revered object of design Certain chairs have become iconic like the Eames Lounge chair and Verner Panton's S Chair which are photographed exhibited in art museums and slavishly copied by cheaper models Other chairs have reached iconic status simply through their everydayness think of Van Gogh's chair or the way Shaker chairs have become emblematic of a simpler and purer lifestyle Massey further examines how chairs have been crafted from local to global manufacture In doing so she elucidates the meaning of the chair in contemporary culture as well as the development design and manufacture of this ubiquitous object Drawing on design art popular culture and personal experience *Chair* is an engaging and informative biography of this everyday object and will appeal to anyone interested in why we choose to sit on the chairs we do *A History of Seating, 3000 BC to 2000 AD* Jenny Pynt, Joy Higgs, 2010 The focus of this book is on functional seating and the key argument presented is that functional seating needs to assist the person using it for the performance of seated tasks enhance rather than detract from the person's posture and health and it needs to provide aesthetic features that do not limit task or health The book spans the period 3000BC to

2000AD and presents largely Western seating This book is unique in its approach to seating because it draws together evidence that relates to seating that facilitates health and task while also addressing aesthetic factors This evidence creates an understanding of how seats may be designed to not only promote bodily health but also allow functional optimisation of sitting and seating This book is important to furniture and industrial designers interior decorators architects those teaching seat design health professionals attending and educating those who relax or work in the seated position furniture historians and members of the general public interested in the history of seating Contemporary Designers Colin Naylor,1990 This provides information on the lives and work of the most significant and most influential designers of our era Selected from throughout the world by an international advisory board they are the individuals who have done the most to shape the visual and tactile form of our everyday world Designers from the fields of graphics interiors fashion stage film houseware textile and industrial design are included **Bookseller and the Stationery Trades' Journal** ,1913 **Catalogue of Auction** Christie, Manson & Woods,1983-06-29 **Mid-Century Modern - Visionary Furniture Design from Vienna** Caroline Wohlgemuth,2021-12-31 Visionary furniture design from Vienna In 1938 Vienna lost its best and most creative minds This rupture was manifested in all of the arts and sciences and its mark is felt to this day not least in the field of furniture design With inexhaustible creativity the Jewish furniture designers who were forced to flee Vienna continued to work while in exile They taught at the best universities and spread their ideas and vision throughout the entire world Their creations became classics of twentieth century furniture design the epitome of mid century modern style This book honors the memory of the exiled designers with a thorough overview of their work It details their life stories and their visionary designs which remain as relevant and contemporary as ever and brings to light new aspects of the history of Viennese furniture design A new history of Viennese furniture design with 27 detailed biographies Numerous previously unpublished photographs and sketches Including works by Friedl Dicker Brandeis Martin Eisler Josef Frank Friedrich Kiesler Richard Neutra Bruno Pollak Margarete Schtte Lihotzky Franz Singer Ernst Schwadron among others *Computer-Aided Architectural Design: The Next City - New Technologies and the Future of the Built Environment* Gabriela Celani,David Moreno Sperling,Juarez Moara Santos Franco,2015-06-15 This book constitutes the refereed proceedings of the 16th International Conference on Computer Aided Architectural Design Futures CAAD Futures 2015 held in S o Paulo Brazil in July 2015 The 33 revised full papers presented were carefully reviewed and selected from 200 submissions The papers are organized in topical sections on modeling analyzing and simulating the city sustainability and performance of the built space automated and parametric design building information modelling BIM fabrication and materiality shape studies *Sotheby's Arcade Auctions* ,1992 Ludwig Mies Van Der Rohe David A.
