## **Sledgehammer Womens Imprisonment At The Millennium:**

*Sledgehammer* P. Carlen, 1998-09-13 Pat Carlen's compelling and compassionate analysis of the penal control of women at the end of the twentieth century is based on new research completed in 1997. She develops many of the themes of previous work while introducing new concepts such as gender testing and ameliorative justice. Skilfully and vividly presenting the words and views of both staff and inmates of the women's prisons, Carlen presents a powerful case for both a quantitative and qualitative reduction in women's imprisonment. *Analysing Women's Imprisonment* Pat Carlen, Anne Worrall, 2013-01-11 In both the UK and the rest of the world there have been rapid increases in the numbers of women in prison which has led to an acceleration of interest in women's crimes and the social control of women and women's experience of both prison and the criminal justice system is very different to men's. This text is concerned to address the key issues relating to women's imprisonment contributing at the same time to an understanding of prison issues in general and the historical and contemporary politics of gender and penal justice. What are women's prisons for? What are they like? Why are lone mothers, ethnic minority and very poor women disproportionately represented in the women's prison population? Should babies be sent to prison with their mothers? These are amongst the issues with which this book is concerned. *Analysing Women's Imprisonment* is written as an introductory text to the subject aiming to guide students of penology carefully through the main historical and contemporary discourses on women's imprisonment. Each chapter has a clear summary, concepts to know, essay questions and recommendations for further reading and will help students prepare confidently for seminars, course examinations and project work. *Vulnerable Victimization* Phil Mulvey, Shelly L. Clevenger, 2023-09-06 This edited volume showcases research on vulnerable victimizations or more specifically on individuals and/or populations that due to their status have less power in society, are socially controlled in unique ways in the criminal legal system or are members of marginalized groups with specialized considerations surrounding their victimization experiences such as LGBTQIA individuals, immigrants, incarcerated persons, children and females. The scholarship focuses on the overall victimization experience and at the same time is also centered on the victimization experiences of historically ignored and/or marginalized groups. Victimization of vulnerable individuals in the United States is increasing at a moment when marginalized groups continue to confront legislative and policy reforms that would undermine their liberty. It is as important now as it has ever been for the field of victimology to consider those who historically may not have the loudest or any voice to spotlight and investigate their experiences. *Vulnerable Victimization* will be a key resource for academics, researchers and advanced students of Victimology, Criminology and Criminal Justice. The chapters included in this book were originally published in *Victims Offenders*. *Fifty Key Thinkers in Criminology* Keith Hayward, Shadd Maruna, Jayne Mooney, 2009-12-04 *Fifty Key Thinkers in Criminology* brings the history of criminological thought alive through a collection of fascinating life stories. The book covers a range of historical and contemporary thinkers from around the world offering a stimulating combination of

biographical fact with historical and cultural context A rich mix of life and times detail and theoretical reflection is designed to generate further discussion on some of the key contributions that have shaped the field of criminology Featured profiles include Cesare Beccaria Nils Christie Albert Cohen Carol Smart W E B DuBois John Braithwaite Fifty Key Thinkers in Criminology is an accessible and informative guide that includes helpful cross referencing and suggestions for further reading It is of value to all students of criminology and of interest to those in related disciplines such as sociology and criminal justice

**Spaces of Care** Loraine Gelsthorpe, Perveez Mody, Brian Sloan, 2020-04-16 The collection examines the ways in which the emerging interdisciplinary study of care provokes a reassessment of the connections and disjuncture between care and governance ethics and public personal and professional identities Evolving from a project coordinated by the Cambridge Socio Legal Group Spaces of Care brings together leading international scholars to articulate what we may consider to be a useful analytic of care Lawyers anthropologists sociologists and criminologists reflect on specific aspects of conceptualising caring relations in spaces These spaces include communities of care and abandonment self care and kinship care spaces as gaps in care the meanings of marketised care and the ways in which care is constructed and constrained in different ways in venues such as homes prisons workplaces and virtual spaces Common themes include temporality historical specificity and the dynamics of care across time and place subjectivity including different experiences of care the economies of care including the commodification of care public and private manifestations of care privatised care disruptions of care which generate vulnerabilities with regard to continuities of care eligibility those deemed to be deserving and undeserving of care relationalities of care collective and individual agency in caring relations kinship care and technologies and imaginaries of care as in new notions of care forged by those in online virtual worlds such as Second Life

*A Criminological Imagination* Pat Carlen, 2017-07-05 A Criminological Imagination contains a selection of key articles from Pat Carlen's research studies of magistrates courts and women's imprisonment together with a range of other articles on social control discourse analysis ideology punishment criminology and critique They are all informed by an assumption that while criminal justice must remain imaginary in societies based upon unequal and exploitative social relations one task of a criminological imagination might be to suggest why this is so and how things could be otherwise This is an invaluable collection for anyone interested in crime justice and injustice and the social political and academic contexts in which knowledge of them is constructed

**Punishment and Social Control** Stanley Cohen, 2017-07-05 While crime law and punishment are subjects that have everyday meanings not very far from their academic representations social control is one of those terms that appear in the sociological discourse without any corresponding everyday usage This concept has a rather mixed lineage After September 11 has become a slogan that conveys all things to all people but carries some very specific implications on interrogation and civil liberties for the future of punishment and social control The editors hold that the already pliable boundaries between ordinary and political crime will become more unstable national and global considerations will come

closer together domestic crime control policies will be more influenced by interests of national security measures to prevent and control international terrorism will cast their reach wider to financial structures and ideological support the movements of immigrants refugees and asylum seekers will be curtailed and criminalized taken for granted human rights and civil liberties will be restricted In the midst of these dramatic social changes hardly anyone will notice the academic field of punishment and social control being drawn closer to political matters Criminology is neither a pure academic discipline nor a profession that offers an applied body of knowledge to solve the crime problem Its historical lineage has left an insistent tension between the drive to understand and the drive to be relevant While the scope and orientation of this new second edition remain the same in recognition of the continued growth and diversity of interest in punishment and social control new chapters have been added and several original chapters have been updated and revised
