Taxation Of Corporations And Their Shareholders:

The Taxation of Corporations and Their Shareholders David J. Shakow, 1991 *The Taxation of Corporations and Shareholders* Martin Norr, 2013-06-29 This monograph is principally the work of the late Martin Norr. He completed a draft of the entire monograph but had not yet revised it when he died in late 1972. At that time the integration of corporate and shareholder taxation was just beginning to become of widespread interest in the United States. With the increasing interest thereafter the International Tax Program began to revise his manuscript making as few changes as possible in the original draft. We had the benefit of criticism and analysis from Professor Richard M. Bird of the University of Toronto, now Director of the Institute of Policy Analysis there. In addition, Mr. Mitsuo Sato of the Ministry of Finance in Japan gave freely of his time in carefully suggesting changes throughout the manuscript. The present version of Chapter 3 owes a great deal to his additions and suggestions. Thanks are also due to Professor Hugh J. Ault of Boston College Law School for the Appendix containing his description of the German integration system that became effective in 1977, which was first published in *Law Policy in International Business*. Mr. Norr's interest in the subject of corporate and shareholder taxation developed while he was writing the International Tax Program's World Tax Series volume *Taxation in France*, published in 1966. The integration of French taxes on corporations and shareholders took place just after that volume was finished but had been under discussion in France for some time before then.

Taxation of Corporations in New York, Massachusetts, Pennsylvania and New Jersey Robert Harvey Whitten, 1901 **Tax Havens and Their Use by United States Taxpayers** Richard A. Gordon, 1981 Overview of tax havens and the use of tax havens by US taxpayers. The study sought to determine the frequency and nature of tax haven transactions, identify specific types of tax haven transactions, obtain a description of the US and foreign legal and regulatory environment in which tax haven transactions are conducted, describe the IRS and Justice Department efforts to deal with tax haven related transactions, and to identify interagency coordination problems.

Tax Havens and Their Use by United States Taxpayers - An Overview Richard A. Gordon, 2002-08 This book was written at the request of the Commissioner of Internal Revenue, the Assistant Attorney General, Tax Division, and the Assistant Secretary of the Treasury Tax Policy. The purpose of this book was to develop an overview of tax havens and the use of tax havens by United States taxpayers. The study sought to determine the frequency and nature of tax haven transactions, identify specific types of tax haven transactions, obtain a description of the United States and foreign legal and regulatory environment in which tax haven transactions are conducted, describe Internal Revenue Service and Justice Department efforts to deal with tax haven related transactions, and to identify interagency coordination problems. The findings are based on a review of judicial decisions and published literature in the field of international tax planning, research into internal IRS documents concerning taxpayer activities, interviews with IRS personnel, personnel who deal with tax haven issues for other Federal government agencies, and lawyers and certified public accountants who specialize in international taxation. The findings are also based on a statistical

analysis of available data concerning international banking United States direct investment abroad and foreign investment in the United States While the findings did not uncover all the methods employed to use tax havens the belief is that the inquiry was extensive enough to give an understanding of the situation and to enable the IRS to develop options which might be useful in improving the administration of the tax laws as they apply to tax havens The Taxation of Corporations in Massachusetts ...
