Common Prayer Ramie Targoff, 2001-05
Common Prayer explores the relationship between prayer and poetry in the century following the Protestant Reformation Ramie Targoff challenges the conventional and largely misleading distinctions between the ritualized world of Catholicism and the more individualistic focus of Protestantism Early modern England she demonstrates was characterized less by the triumph of religious interiority than by efforts to shape public forms of devotion This provocatively revisionist argument will have major implications for early modern studies Through readings of William Shakespeare's Hamlet Richard Hooker's Lawes of Ecclesiastical Politie Philip Sidney's Apology for Poetry and his translations of the Psalms John Donne's sermons and poems and George Herbert's The Temple Targoff uncovers the period's pervasive and often surprising interest in cultivating public and formalized models of worship At the heart of this study lies an original and daring approach to understanding the origins of devotional poetry Targoff shows how the projects of composing eloquent verse and improving liturgical worship come to be deeply intertwined New literary practices then became a powerful means of forging common prayer or controlling private and otherwise unmanageable expressions of faith

modern period this book focuses chiefly on fifteenth century manuscripts and discusses how these volumes were read used valued and transformed in an age of the poet's prominence in print Each chapter argues that patterns in the material interventions made by readers in their manuscripts correcting completing supplementing and authorising reflect conventions which circulated in print and convey prevailing preoccupations about Chaucer in the period the antiquity and accuracy of his words the completeness of individual texts and of the canon and the figure of the author himself This unexpected and compelling evidence of the interactions between fifteenth century manuscripts and their early modern analogues asserts print's role in sustaining manuscript culture and thus offers fresh scholarly perspectives to medievalists early modernists and historians of the book This title is also available as open access on Cambridge Core [The Literary Culture of Early Modern Scotland](#) Sebastiaan Verweij, 2016 This book explains the literary history of Scotland in the early modern period 1560-1625 by investigating what was the most important way of publishing such literature mostly poetry the manuscript It organises the majority of surviving manuscripts by three different types of place where they were written and read 1 the royal court 2 the city and 3 the country It has long been believed that the renaissance in Scotland was a disappointing affair but this book argues that in fact it has long been misunderstood the contents of little known manuscripts paint a picture of a much more interesting cultural history than was previously known

Manuscript Matters Lara M. Crowley, 2018-09-05 Manuscript Matters illuminates responses to some of John Donne's most elusive texts by his contemporary audiences Since examples of seventeenth century literary criticism prove somewhat rare and frequently ambiguous this book emphasizes a critical framework rarely used for exhibiting early readers' exegeses of literary texts the complete manuscripts containing them Many literary manuscripts that include poems by Donne and his contemporaries were compiled during their lifetimes often by members of their circles For this reason and because various early modern poems and prose works satirize topical events and prominent figures in highly coded language attempting to understand early literary interpretations proves challenging but highly valuable Compilers scribes owners and other readers men and women who shared in Donne's political religious and social contexts offer clues to their literary responses within a range of features related to the construction and subsequent use of the manuscripts This study's findings call us to investigate more extensively and systematically how certain early manuscripts were constructed through analysis of such features as scripts titles sequence of contents ascriptions and variant diction While such studies can throw light on many early modern texts exploring artefacts containing Donne's works proves particularly useful because more of his poetry circulated in manuscript than did that of any other early modern poet Manuscript Matters engages Donne's satiric lyric and religious poetry as well as his prose paradoxes and problems Analysing his texts within their manuscript contexts enables modern readers to interpret Donne's poetry and prose through an early modern lens
