Rethinking

the Youth Question Phil Cohen, 2016-02-06 Bringing together material written over the past two decades this book traces a history of political and intellectual debates around central issues of education labour and the youth question An argument is made for linking the cultural structural and autobiographical dimensions of the youth question in order to engage educationally with the burden of representation which young people are made to carry via race class and sexuality in the postmodern world The book includes three major unpublished pieces and an introduction which discusses the nature of the collection and sets it in both a personal and political context *Youth and Subculture as Creative Force* Hans

Skott-Myhre, 2009-01-01 Radical youth work is gaining popularity as a means of teaching adults how in collaboration with youth they can challenge dominant ways of knowing This study uses two particular subcultures skinheads and punks to explore how constructions of subcultures in time language space body practice and identity offer alternative ways of understanding youth adult relationships In doing so it investigates youth work as a radical political process and suggests a new approach to current subculture theory In *Youth and Subculture as Creative Force* Hans Arthur Skott Myhre interviews six youths who identify themselves as members of either punk or traditional skinhead subcultures He discusses the results of these interviews and demonstrates how youth perspectives have come to inform his understanding of himself as a youth worker and scholar Youth subcultures he argues have considerable potential for improving relations between youths and adults in the postmodern capitalist world Drawing on Marxist Foucauldian and postmodernist theory Skott Myhre uses the subjective formations outlined in his study to offer recommendations for constructing legitimate radical youth work that takes into account for the perspectives of young people *British Youth Television* Faye Woods, 2016-09-09 In this book

Faye Woods explores the raucous cheeky intimate voice of British youth television This is the first study of a complete television system targeting teens and twenty somethings chronicling a period of significant industrial change in the early 21st century British Youth Television offers a snapshot of the complexities of contemporary television from a British standpoint youth focused programming that blossomed in the commercial expansion of the digital era yet indelibly shaped by public service broadcasting and now finding its feet on proliferating platforms Considering BBC Three My Mad Fat Diary The Inbetweeners Our War and Made in Chelsea amongst others Woods identifies a television that is defiantly British yet also has a complex transatlantic relationship with US teen TV This book creates a space for British voices in an academic and cultural landscape dominated by the American teenager **Breaking the Age Code Young Skin for Life** Lesley Goodson

Barton Palmer, 2016-03-15 With sequels prequels remakes spin offs or copies of successful films or franchises dominating film and television production it sometimes seems as if Hollywood is incapable of making an original film or TV show These textual pluralities or multiplicities while loved by fans who flock to them in droves tend to be dismissed by critics and scholars as markers of the death of high culture Cycles Sequels Spin offs Remakes and Reboots takes the opposite view surveying a wide range of international media multiplicities for the first time to elucidate their importance for audiences industrial practices and popular culture The essays in this volume offer a broad picture of the ways in which cinema and television have used multiplicities to streamline the production process and to capitalize on and exploit viewer interest in previously successful and or sensational story properties An impressive lineup of established and emerging scholars talk seriously about forms of multiplicity that are rarely discussed as such including direct to DVD films made in Nigeria cross cultural Japanese horror remakes YouTube fan generated trailer mash ups and 1970s animal revenge films They show how considering the particular bonds that tie texts to one another allows us to understand more about the audiences for these texts and why they crave a version of the same story or character or subject over and over again These findings demonstrate that far from being lowbrow art multiplicities are actually doing important cultural work that is very worthy of serious study **Youth Resilience and Culture** Linda C. Theron, Linda Liebenberg, Michael Ungar, 2014-11-21 Until researchers and theorists account for the complex relationship between resilience and culture explanations of why some individuals prevail in the face of adversity will remain incomplete This edited volume addresses this crucial issue by bringing together emerging discussions of the ways in which culture shapes resilience the theory that informs these various studies and important considerations for researchers as they continue to investigate resilience Using research from majority and minority world contexts Youth Resilience and Culture Commonalities and Complexities highlights that non stereotypical critical appreciation of the cultural systems in which youth are embedded and or affiliate with is pivotal to understanding why particular resilience processes matter for particular youth in a particular life world at a particular point in time In doing so this book sensitizes readers to the importance of accounting for the influence of cultural contexts on resilience processes and to the danger of conceptualising and or operationalising resilience culture and their interplay simplistically or idealistically In short the progressive contents of Youth Resilience and Culture Commonalities and Complexities make it an essential read for resilience focused scholars students academics and researchers as well as policy makers practitioners and
