

Assisted Outpatient Treatment Utilization in Hospitals

In partnership with the Michigan Department of Health and Human Services, the Michigan Health & Hospital Association conducted a survey during Spring 2023 to gather insights on Assisted Outpatient Treatment (AOT) utilization within hospitals and health systems. AOT offers outpatient care for individuals with serious mental illness, aiming to reduce risks stemming from not following a prescribed regimen. **As a proven method, AOT promotes recovery, reduces harmful behaviors and minimizes costly hospitalizations and emergency room visits.** It is imperative this collaborative initiative promotes clear and streamlined communication between hospitals, health systems, community mental health (CMH) agencies, law enforcement and correctional facilities. Participants were asked to share data for each individual hospital or health system. Below are responses obtained from nine individual acute care hospitals.

Current Interaction with Patients Under AOT Orders

PERCENT OF FACILITIES WHO PROVIDE CARE FOR (OR INTERACT WITH) PATIENTS UNDER AOT ORDERS WHO REQUIRE HOSPITALIZATION

44% of surveyed facilities are aware they provide care for or interact with patients under AOT orders who require hospitalization.

WHERE PATIENTS WITH AOT RECEIVE CARE

Patients with AOT orders are more likely to be provided with care in patient care rooms, the emergency department, another floor of the hospital or transferred to a different facility entirely.

*Settings within surveyed facilities where patients with AOT orders receive care

Challenges in Michigan Hospitals During Discharge

Hospitals encounter challenges in discharge planning for patients who have completed the hospitalization phase of an AOT order due to a general shortage of available services, despite hospitals providing CMH agencies a five-day notice prior to discharging a patient. Some additional challenges include:

Scarce Inpatient Beds

Lack of Outpatient Resources

Shortage of Community Services

Transportation Logistics

Staffing and Case Management Shortages

Long Waitlists

Voluntary Patients

Petitioned Orders
