THE SUICIDE CULT THAT SHOCKED THE WORLD

Suicide Cult

Suicide Cult:

Sacred Suicide Carole M. Cusack, 2016-04-08 The label Suicide Cults has been applied to a wide variety of different alternative religions from Jonestown to the Solar Temple to Heaven's Gate. Additionally, observers have asked if such group suicides are in any way comparable to Islamist suicide terrorism or to historical incidents of mass suicide such as the mass suicide of the ancient community of Masada. Organizationally and ideologically diverse, it turns out that the primary shared trait of these various groups is a common stereotype of religion as an irrational force that pushes fanatics to undertake acts of suicidal violence. Offering a valuable perspective on New Religious Movements and on religion and violence, *Sacred Suicide* brings together contributions from a diverse range of international scholars of sociology, religious studies, and criminology.

The Suicide Cult Marshall Kilduff, Ron Javers, 1978 Homosexuality negative on p 56-57 Misha Schutt **Deadly Cults** Robert L. Snow, 2003-11-30 How does a Vampire Cult differ from a Satanic Cult? How do seemingly normal or ordinary citizens suddenly find themselves committed to a group whose leader promotes criminal activities and isolation from families and friends? What should you do if a loved one becomes indoctrinated by a potentially dangerous cult? This book focuses on various cults and their often criminal belief systems. Most readers are shocked by stories of mass suicides and ritualized cult killings, but few understand how such crimes come to be committed. Snow, a seasoned police officer with experience working on cult crimes, examines those cults that commit offenses from murder and fraud to kidnapping and sexual assault. By providing specific accounts of dangerous cults and their destructive acts, Snow illustrates how seemingly innocent groups can turn pernicious when under the sway of a charismatic leader with an agenda or when members take things too far. He offers advice on how to avoid falling victim to cult indoctrination, concluding with chapters on how to identify cults, how to protect yourself and your family, and what to do if a loved one is ensnared by such a group. Why People Die by Suicide Thomas Joiner, 2009-07-01 Drawing on extensive clinical and epidemiological evidence as well as personal experience, Thomas Joiner provides the most coherent and persuasive explanation ever given of why and how people overcome life's strongest instinct, self-preservation.

The Bridgend Suicides Ann Luce, 2016-08-10 This in-depth analysis looks at how suicide was represented in the British press when 20 young people between the ages of 15 and 29 took their own lives in the South Wales Borough of Bridgend in 2008. The chapters highlight specific categories of description that journalists use to explain suicide to their readers. The study also examines the discourses that emerged around suicide that continue to perpetuate stigma and shame when suicide occurs today. Using her own experience of having lost a loved one to suicide, coupled with original research, the author gives a very frank explanation of why suicide is not accepted in society today. **Suicide** Ronald M. Holmes, Stephen T. Holmes, 2005-08-04 Suicide is an ageless concern that has been with us as long as man has existed. Forbidden by all religions, suicide has nonetheless become such a practical problem that it is now an everyday concern, resulting in more annual deaths than homicide. Suicide must be seen as a societal and personal problem; it is a complex act.

Gordon Melton,2002-05-13 This explores the question of when and why violence by and against new religious cults erupts and whether and how such dramatic conflicts can be foreseen managed and averted The authors leading international experts on religious movements and violent behavior focus on the four major episodes of cult violence during the last decade the tragic conflagration that engulfed the Branch Davidians in Waco Texas

the deadly sarin gas attack by the Aum Shinrikyo in Tokyo the murder suicides by the Solar Temple in Switzerland and Canada and the collective suicide by the members of Heaven s Gate They explore the dynamics leading to these dramatic episodes in North America Europe and Asia and offer insights into the general relationship between violence and religious cults in contemporary society The authors conclude that these events usually involve some combination of internal and external dynamics through which a new religious movement and society become polarized *Encyclopedic Handbook of Cults in America* J. Shakespeare s Suicides Dead Bodies That Matter is the first study in Shakespeare criticism to examine the entirety of Shakespeare s dramatic suicides It addresses all plays featuring suicides and near suicides in chronological order from Titus Andronicus to Antony and Cleopatra thus establishing that suicide becomes increasingly pronounced as a vital means of dramatic characterisation In particular the book approaches suicide as a gendered phenomenon By taking into account parameters such as onstage versus offstage deaths suicide speeches or the explicit denial of final words as well as settings and weapons the study scrutinises the ways in which Shakespeare appropriates the convention of suicide and subverts traditional notions of masculine versus feminine deaths It shows to what extent a gendered approach towards suicide opens up a more nuanced understanding of the correlation between gender and Shakespeare s genres and how eventually through their dramatisation of suicide the tragedies query normative gender discourse Heaven's Gate George D.

Hope and Feminist Theory Rebecca Coleman,Debra Ferreday,2013-12-16 Hope is central to marginal politics which speak of desires for equality or simply for a better life Feminism might be characterised as a politics of hope a movement underpinned by a utopian drive for equality This version of hope has been used for example in Barack Obama s phrase the audacity of hope a mobilisation of an affirmative politics which nevertheless implies that we are living in hopeless times Similiarly in recent years feminism has seen the production of a prevailing mood of hopelessness around a generational model of progress which is widely imagined to have failed However as a number of feminist theorists have pointed out the temporality of feminism cannot be conceived as straightforwardly linear feminism can only be imagined as having failed if it is understood as a particular set of relations and things This collection grapples with the question of hope how it figures and structures feminist theory as both a movement towards certain goals and as inherently hopeful Questions addressed include Does hope necessarily imply a fantasy of perfectibility a progression to a utopian future Might it also be conceived in other ways as an attachment A lure Does life tend towards hope happiness optimism And if so what are the consequences when hope fails Who decides which hopes are false What is the cost of giving up hope This book was published as a special issue of the *Journal for Cultural Research*
