State Under Siege Development And Policy Making In Peru:

State Under Siege Philip Mauceri, 2018 **State Under Siege** Philip Mauceri, 2018-03-29 Using a framework that highlights how societal and international factors have shaped state capacities Philip Mauceri examines Peru's volatile politics in the country's move from a developmentalist state to neoliberalism. He explores the challenges to state authority during the military regimes' reformist experiment, arguing that they were intensified in the 1980s by poor planning and limited policy choices. He then examines how social and international conditions have influenced the Fujimori regime's attempt to retool the state along neoliberal lines. Using a framework that highlights how societal and international factors have shaped state capacities, Philip Mauceri examines the volatile politics in Peru from the Velasco through the Fujimori regimes as the country has moved from a developmentalist state to neoliberalism. Dr. Mauceri begins by reassessing the reformist experiment of the Peruvian military regime, 1968-1980, arguing that it led to the development of unexpected challenges to state authority both from new social actors and international financial organizations. During the 1980s, these challenges intensified, made even worse by poor planning and limited policy choices. The author then argues that the attempt by the Fujimori regime, backed by a neoliberal coalition, to retool the state indicates the degree to which state capacities are determined by social and international conditions. Mauceri also gives special attention to the relation between changing state power and social control. Separate chapters on the evolution of a Lima shantytown and the Shining Path examine how changes in state-society relations have had impacts at the grassroots level.

A timeline of key events, list of notable people who made significant contributions to Peru's history, and a bibliography of print and electronic sources supplement the work. Power, Institutions, and Leadership in War and Peace David R. Mares, David Scott Palmer, 2012-06-15 In January 1995, fighting broke out between Ecuadorian and Peruvian military forces in a remote section of the Amazon. It took more than three years and the interplay of multiple actors and factors to achieve a

definitive peace agreement thus ending what had been the region's oldest unresolved border dispute. This conflict and its resolution provide insights about other unresolved and/or disputed land and sea boundaries which involve almost every country in the Western Hemisphere. Drawing on extensive field research at the time of the dispute and during its aftermath including interviews with high ranking diplomats and military officials, *Power Institutions and Leadership in War and Peace* is the first book length study to relate this complex border dispute and its resolution to broader theories of conflict. The findings emphasize an emerging leadership approach in which individuals are not mere captives of power and institutions. In addition, the authors illuminate an overlap in national and international arenas in shaping effective articulation, perception and selection of policy. In the new democratic Latin America that emerged in the late 1970s through the early 1990s, historical memory remains influential in shaping the context of disputes in spite of presumed U.S. post Cold War influence. This study offers important broader perspectives on a hemisphere still rife with boundary disputes as a rising number of people and products including arms pass through these borderlands.

Peru John Crabtree, Francisco Durand, 2017-05-15 While leftist governments have been elected across Latin America, this Pink Tide has so far failed to reach Peru. Instead, the corporate elite remains firmly entrenched and the left continues to be marginalised. Peru therefore represents a particularly stark example of state capture in which an extreme concentration of wealth in the hands of a few corporations and pro-market technocrats has resulted in a monopoly on political power. Post the 2016 elections, John Crabtree and Francisco Durand look at the ways in which these elites have been able to consolidate their position at the expense of genuine democracy, with a particular focus on the role of mining and other extractive industries where extensive privatization and deregulation has contributed to extreme disparities in wealth and power. In the process, Crabtree and Durand provide a unique case study of state development by revealing the mechanisms used by elites to dominate political discussion and marginalize their opponents, as well as the role played by external actors such as international financial institutions and foreign investors. The significance of Crabtree's findings therefore extends far beyond Peru and illuminates the wider issue of why mineral rich countries so often struggle to attain meaningful democracy.

Reinventing the State Carol Wise, 2003-01-17 Publisher Description

Violent Peace David R. Mares, 2001 David R. Mares argues that the key factors influencing political leaders in all types of polities are the costs to their constituencies of using force and whether the leader can survive their displeasure if the costs exceed what they are willing to pay. *Violent Peace* proposes a conceptual scheme for analyzing militarized conflict and supports this framework with evidence from the history of Latin America.

Political Violence and the Construction of National Identity in Latin America Peter Lambert, 2006-11-27 This topical volume seeks to analyze the intimate but understudied relationship between the construction of national identity in Latin America and the violent struggle for political power that has defined Latin American history since independence. The result is an original, fascinating contribution to an increasingly important field of study.

Case Studies in Latin American Political Economy Julia Buxton, Nicola Phillips, 1999

Covering the period from the re establishment of the Irish militia during the Crimean War until the disbandment of the Ulster Defence Regiment in 1992 this book examines the Irish amateur military tradition within the British Army distinctive from a British amateur military tradition Irish men and women of both religions and political persuasions made a significant contribution to these forces and in so doing played an important role within the British Empire whilst also providing a crucial link between the army and Irish society Utilising new source material this book demonstrates the complex nature of Irish involvement with British institutions and its Empire It argues that within this unique tradition two divergent Protestant and Catholic traditions emerged and membership of these organisations was used as a means of social mobility for political patronage and crucially to demonstrate loyalty to Britain and its Empire

Constructing Democratic Governance in Latin America Jorge I. Domínguez, Michael Shifter, 2013-07-31 After more than a century of assorted dictatorships and innumerable fiscal crises the majority of Latin America's states are governed today by constitutional democratic regimes Some analysts and scholars argue that Latin America weathered the 2008 fiscal crisis much better than the United States How did this happen Jorge I Dom nguez and Michael Shifter asked area specialists to examine the electoral and governance factors that shed light on this transformation and the region's prospects They gather their findings in the fourth edition of *Constructing Democratic Governance in Latin America* This new edition is completely updated Part I is thematic covering issues of media constitutionalism the commodities boom and fiscal management vis vis governance Part II focuses on eight important countries in the region Argentina Brazil Bolivia Chile Colombia Mexico Peru and Venezuela Already widely used in courses *Constructing Democratic Governance in Latin America* will continue to interest students of Latin American politics democratization studies and comparative politics as well as policymakers
