States And Illegal Practices:

States and Illegal Practices Josiah McConnell Heyman, 1999-03 Papers from the conference States and Illegal Networks June 1997 Tarrytown New York The Hidden History of Crime, Corruption, and States Renate Bridenthal, 2017-06

Renowned historical sociologist Charles Tilly wrote many years ago that banditry piracy gangland rivalry policing and war making all belong on the same continuum This volume pursues the idea by revealing how lawbreakers and lawmakers have related to one another on the shadowy terrains of power over wide stretches of time and space Illicit activities and forces have been more important in state building and state maintenance than conventional histories have acknowledged Covering vast chronological and global terrain this book traces the contested and often overlapping boundaries between these practices in such very different polities as the pre modern city states of Europe the modern nation states of France and Japan the imperial power of Britain in India and North America Africa s and Southeast Asia s postcolonial states and the emerging postmodern regional entity of the Mediterranean Sea Indeed the contemporary explosion of transnational crime raises the question of whether or not the relationship of illicit to licit practices may be mutating once more leading to new political forms beyond the nation state **Culture and Power at the Edges of the State** Thomas M. Wilson, Hastings Donnan, 2005

State borders are somewhere the state is keen to stress its presence and yet are simultaneously places where that presence is challenged They are sites of resistance to the state and at the same time places where the national interest is vigorously maintained This constant ambiguity generates questions about the dynamics of borderland state relations and about how what happens along the border can undermine state policies Using case studies of nation and state relations in borderlands in Europe this book seeks to understand how structures of power are created experienced changed and reproduced *At the Edges of States* Michael Eilenberg, 2012-01-01 Set in West Kalimantan Indonesian Borneo this study explores the shifting relationships between border communities and the state along the political border with East Malaysia The book rests on the premise that remote border regions offer an exciting study arena that can tell us important things about how marginal citizens relate to their nation state The basic assumption is that central state authority in the Indonesian borderlands has never been absolute but waxes and wanes and state rules and laws are always up for local interpretation and negotiation In its role as key symbol of state sovereignty the borderland has become a place where central state authorities are often most eager to govern and exercise power But as illustrated the borderland is also a place where state authority is most likely to be challenged questioned and manipulated as border communities often have multiple loyalties that transcend state borders and contradict imaginations of the state as guardians of national sovereignty and citizenship Organized Crime and States J. Briquet, G. Favarel-Garrigues, 2010-09-10 In contrast to a globalizing approach to transnational organized crime this edited volume studies socio historical environments in which mafia esque violence has found a fertile ground for growth and development within the political arena **ILL STATES AND ILLEGAL PRACTICES ... XXXXX**, 2000 **Contraband**

Cultures Jennifer Cearn, Charles Beach, 2024-09-17 Contraband Cultures presents narratives representations practices and imaginaries of smuggling and extra legal or informal circulation practices across and between the Latin American region including the Caribbean and its diasporas Countering a fetishizing and hegemonic imaginary typically stemming from the Global North of smuggling activity in Latin America as chaotic lawless violent and somehow exotic this book reframes such activities through the lenses of kinship political movements economic exchange and resistance to capitalist state hegemony The volume comprises a broad range of chapters from scholars across the social sciences and humanities using various methodological techniques theoretical traditions and analytic approaches to explore the efficacy and valence of smuggling or contraband as a lens onto modes of personhood materiality statehood and political dis connection across Latin America This material is presented through a combination of historic documentation and contemporary ethnographic research across the region to highlight the genesis and development of these cultural practices whilst grounding them in the capitalist and colonial refashioning of the entire region from the sixteenth century to the present day *Law and Order in a Weak State* Sinclair Dinnen, 2000-11-01 Twenty five years after independence Papua New Guinea is beset by social economic and political problems poverty and inequality a young and expanding population a stagnant economy corruption and rising crime The state has not only failed to contain these problems but has become progressively implicated in their persistence Escalating levels of violence and lawlessness are seen by many as the most serious challenge facing the young country This book examines these problems of order in light of Papua New Guinea s remarkable social diversity and the impact of rapid and pervasive processes of change Three original and strategic case studies involving urban gangs mining security and election violence form the core of the work Each case study looks at particular forms of conflict and the responses these engender across different socioeconomic contexts and geographic locations Empirical data are analyzed through a common framework that employs material cultural and institutional perspectives allowing readers to view the three cases through different theoretical prisms identify linkages between them and in the process build a larger picture of the post colonial social order *Law and Order in a Weak State* charts not only the problems of crime and lawlessness in Papua New Guinea but also the possibilities for constructive pragmatic solutions It will be of great interest to scholars aid and policy officials and others concerned with understanding the social complexities and challenges of contemporary Papua New Guinea *Violence on the Margins* Timothy Raeymaekers, 2013-08-27 This survey of various African and Asian conflicts examines people s experiences on territorial borders and the ways they affect political configurations By focusing on individuals routines and daily life these contributions treat borderland dynamics as actual political units with their own actions and outcomes **Challenging the Dichotomy** Les Field, Cristobal Gnecco, Joe Watkins, 2016-12-06 Challenging the Dichotomy explores how dichotomies regarding heritage dominate the discussions of ethics practices and institutions Contributing authors underscore the challenge to the old paradigms from multiple forces The case studies and discourses both ethnographic and
