Statistical System Of Communist China:

The Statistical System of Communist China Choh-Ming Li, Planning and Statistical Systems in China's Agriculture Francis C. Tuan, 1983 Extract China's agricultural economy one of the world's largest produces more grain and hogs than any other country But because of high domestic demand China is also a major purchaser of grain oilseeds and fibers The United States has become a major supplier of many of these commodities Planners directly issue orders to control production in government owned state farms For collectively owned communes the Government uses direct means such as procurement quotas and indirect techniques like credit control to manage production China's recently reestablished statistical system is particularly weak in rural areas because of shortage of trained personnel Census type reporting is the main method employed to collect data

Chinese Economic Statistics in the Maoist Era Nai-Ruenn Chen, 2017-08-02 This thoroughly researched and clearly written compendium of available statistical information on China provides reliable information careful explanations useful guides to further research and a full bibliography An exhaustive compilation of national and provincial statistics on mainland China from 1949 to 1959 this book covers every facet of the Communist Chinese economy and presents the most comprehensive coverage available of statistical data on China from this period Based on data obtained directly from Chinese sources this book is the first attempt to provide Western readers with a reliable reference on the economy of mainland China Nai Ruenn Chen thoroughly and systematically examines each area of the economy and provides an authoritative guide to the terminology classification and method of collecting and listing data presented in the ample tables included in the book Except in cases where missing information could be filled by simple arithmetic means or from descriptions by the Chinese themselves no data was synthesized by inferential methods and no non Chinese estimates were used Rather Chen lists formulae for achieving indices for statistical measurement defines geographical economic and administrative units of measurement and explains the development of statistical procedures that have evolved in China This volume is divided into eleven sections area and population national income capital formation and related estimates industry agriculture transportation and communication trade prices living standards public finance credit and foreign exchange rates and employment labor productivity and wages Each section consists of two parts one containing the explanatory text and the other statistical tables grouped largely according to Chinese classifications Chinese Economic Statistics in the Maoist Era 1949-1965 is indispensable to anyone studying China a valuable source for students of economic development

Agricultural Statistics of the People's Republic of China, 1949-86 Frederick W. Crook, 1988 Agricultural Statistics of the People's Republic of China, 1949-90 W. Hunter Colby, United States. Department of Agriculture. Economic Research Service, 1992

The Chinese Economy Under Maoism Andrew M. Greeley, 2017-07-05 Over sixty years have elapsed since the Communists gained control of the Chinese mainland The years between 1949 and 1969 were a time of constant change and periodic cataclysm the initial purges the Great Leap Forward and the Cultural Revolution all bound up with the Communist

conception of how to move the country into modernity in the shortest possible time The Chinese Economy under Maoism summarizes and evaluates the economic consequences of the Communist path to development in a concise factual presentation that can be readily comprehended by non economists The authors review the major features of the Chinese economy prior to the Communist takeover and discuss the policies performance and problems of the individual sectors of the Chinese economy during its initial years under Communism Included in their review are industry agriculture foreign trade resource allocation population employment and living standards A concluding chapter summarizes Chinese economic growth and presents a discussion of future policy alternatives and an optimum economic policy for China Based on important findings of Western scholars with many original interpretations by the authors this material is presented from a developmental point of view Since it was originally published in 1972 sections of the book devoted to comparative studies of progress in India and the former Soviet regime will be of particular interest now Free of technical language and providing insights into the economy of one of the most important countries in the world this book will be useful not only to economists but to a broad range of sinologists political scientists sociologists and historians interested in the path of revolution
