Social learning theory has been called the dominant theory of crime and delinquency in the United States yet it is often misrepresented This latest volume in the distinguished *Advances in Criminological Theory* series explores the impact of this theory Some equate it with differential association theory Others depict it as little more than a micro level appendage to cultural deviance theories There have been earlier attempts to clarify the theory's unique features in comparison to other theories and others have applied it to broader issues These efforts are extended in this volume which focuses on developing applying and testing the theory on a variety of criminal and delinquent behavior It applies the theory to treatment and prevention moving social learning into a global context for the twenty first century This comprehensive volume includes the latest work tests and theoretical advances in social learning theory and will be particularly helpful to criminologists sociologists and psychologists It may also be of interest to those concerned with current issues relating to delinquency drug use abuse and drinking alcohol abuse      Socialization for Achievement George A. Office of Technology Transfer,1972 Warriors and Peacemakers Mark Cooney,1998-04 Cooney sociology and law U of Georgia looks at the role of people such as relatives friends neighbors workmates strangers and legal officials in encouraging or discouraging others to resolve conflict without violence He argues that the behavior of the third party depends on how close they are to the principals and whether they are above below or level with them in social status Annotation copyrighted by Book News Inc Portland OR **The Roots of Violent Crime in America** Barry Latzer,2021-03-17 The Roots of Violent Crime in America is criminologist Barry Latzer s comprehensive analysis of crimes of violence including murder assault and rape in the United States from the 1880s through the 1930s Combining the theoretical perspectives and methodological rigor of criminology with a synthesis of historical scholarship as well as original research and analysis Latzer challenges conventional thinking about violent crime of this era While scholars have traditionally cast American cities in the late nineteenth and early twentieth centuries as dreadful places Latzer suggests that despite overcrowding and poverty U S cities enjoyed low rates of violent crime especially when compared to rural areas The rural South and the thinly populated West both suffered much higher levels of brutal crime than the metropolises of the East and Midwest Latzer deemphasizes racism and bigotry as causes of violence during this period noting that while many social groups confronted significant levels of discrimination and abuse only some engaged in high levels of violent crime Cultural predispositions and subcultures of violence he posits led some groups to participate more frequently in violent activity than others He also argues that the

prohibition on alcohol in the 1920s did not drive up rates of violent crime Though the bootlegger wars contributed considerably to the murder rate in some of America s largest municipalities Prohibition also eliminated saloons which served as hubs of vice corruption and lawlessness The Roots of Violent Crime in America stands as a sweeping reevaluation of the causes of crimes of violence in the United States between the Gilded Age and World War II compelling readers to rethink enduring assumptions on this contentious topic

**Crime and Coercion** M. Colvin,2000-09-01 In a major new theory of criminal behavior Mark Colvin argues that chronic criminals emerge from a developmental process characterized by recurring erratic episodes of coercion Colvin s differential coercion theory which integrates several existing criminological perspectives lays out a compelling argument that coercive forces create social and psychological dynamics that lead to chronic criminal behavior While Colvin s presentation focuses primarily on chronic street criminals the theory is also applied to exploratory offenders and white collar criminals In addition Colvin presents a critique of current crime control measures which rely heavily on coercion and offers in their place a comprehensive crime reduction program based on consistent non coercive practices
