The Emerald Modem Richard Leviton,2004-05-04 Twenty years ago in England author Richard Leviton discovered the planet Following quite specific guidance he began a long process that amounted to an apprenticeship My mentors dispatched me to various specific locations in the Somerset landscape and at all hours of the night and day I sat on hills and valleys and rocks under sunlight moonlight rain snow and fog and had visions I started to see another landscape behind the apparent landscape It was an apparitional landscape with stars planets galaxies angels spirits of Nature mythic deities divinity As time

went on he found himself talking with angels visiting celestial cities and following gnomes He came to understand that at one level we are the planet and that both we and it have an intimate relationship with our galaxy I found myself living inside the myths of the world as if they were expert scripts for real life inner adventures I never once thought I was crazy Why should I Quite the opposite I believed I was finally getting grounded in something real But it would take me twenty years to make sense of it That sense is embodied in *The Emerald Modem* The Emerald Modem includes direct correspondences between human chakras and the Earth's energy features and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth's energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you're doing Your intent to interact for the benefit of yourself and the planet is all that's required Just as modems dial us into the Internet so the features of the Earth's energy body described in *The Emerald Modem* help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you're not traveling alone *Secrets of the Sanctuary* Octavia J. Riley, 2019-10-15 *The Coven Chronicles* is part of a serial All books end with cliffhangers When Hell Refuses to Freeze Over Thea Bauer has earned her way to being a highly skilled member of the Coven Ranked as a Spellweaver she's assigned the more dangerous missions Corralling a herd of wild unicorns No problem Taking down a witch riding the high of black magic Piece of cake Finding out why magic based creatures are suddenly flooding the local sanctuary protected by a powerful sorceress with a hatred for the Coven Thea might need more than her tethered demonic partner to see this mission through She calls upon Summoner Rafe MacBain a trusted colleague she's known for years whose dreamy eyes might keep her up at night but she's not admitting that to anyone He's got his own demonic companion and altogether they're a force to be reckoned with But even with their combined strength it might not be enough against feral demons escaping some of the farthest reaches of Hell As if that weren't bad enough Thea must conquer her own demons residing within herself that conjure up a painful past Will she be able to overcome herself or will the memories she's tried to stray from keep her from fighting enemies in the physical realm Thea is starting to wonder if the sorceress may be one of those enemies too What secret is she hiding at the bottom of the sanctuary and how will it affect everything Thea has come to know
