## **Sociology Through Active Learning Student Exercises:**

Sociology Through Active Learning Kathleen McKinney, Barbara S. Heyl, 2008-07-10 The exercises in this text are designed to give students the chance to explore in depth some of the most important ideas in the discipline by providing hands on experience investigating empirical and theoretical questions Sociology Through Active Learning, 2008 A great source for kinesthetic learning activities I've used the book for designing my course for multiple learning styles Megan Thiele University of California Irvine This student workbook is designed to allow you to easily integrate multiple active learning exercises into your Introduction to Sociology courses Many teachers want to use active learning in their class but don't have the materials commensurate with that pedagogy These 51 active learning exercises have been carefully selected from a nationwide search of the best class tested active learning exercises Sociology Through Active Learning Kathleen McKinney, Frank Beck, Barbara Heyl, 2000-12-14 This book contains exercises that address the range of subject matter core skills and ideas in introductory sociology courses The classroom exercises begin with a rationale for the exercise including learning goals and follows with instructions to students The exercises conclude with several different evaluation schemes **Sociology in Action** David S. Hachen, 2001 The book's objective is to help students develop a skill their ability to interpret and analyze situations sociologically Development of student skills and their sociological eyesight is facilitated through practice using decision cases relatively short problem centered narratives that promote critical thinking The book's structure promotes the progressive and incremental development of skills Each chapter in Part I begins with a case The body of each chapter introduces sociological ideas and concepts by using them to analyze the beginning case Each chapter concludes with another case so that students can practice the specific skills they have acquired in the chapter using the chapter's Sociological Eyesight Analysis Guide Part II contains additional cases providing more opportunities for students to practice their skills at interpreting situations sociologically and solving problems An instructor's manual is available to qualified adopters of **Sociology in Action** To read the Introduction to the instructor's manual or to view a Sample Course Outline click on Additional Materials in the left column under About This Book **Agricultural Education for Development in the Arab Countries** Samy, Mohamed M., Barrick, R. Kirby, 2023-03-13 Agricultural development is an important economic engine for development in the Arab countries in North Africa and the Middle East An essential factor to accelerate agricultural development in these countries is a well educated and trained agricultural workforce However the areas of secondary school community college and university agricultural education have lacked attention and resources for many years Curriculum development instructional enhancement practical training and career advancement are central to agricultural education development technology utilization and natural resource management The engagement of educators administrators business and community leaders and policymakers ensures that the graduates of all levels of agricultural education are well prepared for the jobs of today and tomorrow Agricultural Education for Development in the Arab Countries provides essential

knowledge to enhance all elements of agricultural secondary post secondary and university education programs to effectively prepare students for successful careers in global agriculture multi national food supply chains and natural resource management Covering topics such as higher education workforce skills and agribusiness this reference work is ideal for agriculturists industry professionals researchers scholars academicians practitioners instructors and students **Key Ideas in Sociology** Peter Kivisto,2004 Key Ideas in Sociology is the only compact and portable book for undergraduate readers that links issues regarding post modern society to the ideas and individuals that gave rise to sociological thinking in the late 19th century This is the ideal text for idea and history oriented introductory sociology courses Addressing Homophobia and Heterosexism on College Campuses Elizabeth Cramer,2014-03-05 This book presents an integrated approach toward changing attitudes about lesbian gay bisexual and transgendered LGBT students faculty and staff on contemporary college campuses From Addressing Homophobia and Heterosexism on College Campuses you can learn specific classroom techniques for handling homophobia and heterosexism in the classroom This book tackles a wide variety of subjects including academic freedom diversity training nontraditional families and religion each of which plays an integral part in the sense of community found on any college campus Addressing Homophobia and Heterosexism on College Campuses provides you with the basic tools to set up sensible programs that have worked for others in the past and can work for you in the future In Addressing Homophobia and Heterosexism on College Campuses you ll also find a list of helpful feature films and documentaries case studies from the US Canada and Australia methods to combat homophobia and heterosexism among social work students practical ways to set up Safe Zone or Allies programs techniques for reducing trans anxieties lectures and role playing games geared toward changing thoughts and live **Sociology for a New Century** York William Bradshaw,Joseph F. Healey,Rebecca Smith,2001-03-08 Written with the conviction that sociology can play a major role perhaps THE major role in helping college students understand how their lives are shaped by the complexities of global social forces in our new century Helps students develop an approach to thinking about social issues and evaluating claims and arguments that they can use long after the course has ended Reflects the following qualities from the sociological tradition a commitment to the principles of scientific investigation a deep concern for social issues and human welfare and a macro approach that takes account of history geography and relations between the societies and regions of the globe Strives less to introduce sociology and more to demonstrate the power and value of thinking sociologically about societies today Centers on a small number of organizing themes and principles introduced in Chapter 1 and used throughout the remainder of the text see detailed table of contents Contains 16 chapters and 7 topical essays interspersed between Chapters 1 10 The first 10 chapters are the core foundation of the text Chapters 11 15 apply sociological thinking to a series of significant global issues including war work health and population growth Chapter 16 brings the text to a close with a discussion of how individuals and organizations can create positive change in the world Written to help teach the process of investigation the

sociological craft of research critical thinking and careful analysis Rather than presenting students with answers the core Chapters 1 10 are each organized around a specific question or problem selected for its interest to students as well as its importance to the U S and the world see table of contents Thus sociological terms and concepts are introduced as they become relevant to the analysis never for their own sake The Topical Essays broaden the coverage of issues and diversity of viewpoints in the text while the book maintains its overall thematic coherence Most essays are written by leading scholars and researchers in sociology save one essayist who is an undergraduate student Tracey Dawson and one a cartoonist Nick Rutter who has illustrated Gay Seidman s essay on Sweatshops and Chapters 11 16 Active Learning Exercises extend and reinforce the emphasis on critical thinking throughout the book A Web Site specifically devoted to Sociology For a New Century provides many helpful ways students can strengthen their ability to think and see sociologically A Sociological Atlas in the back of the book provides 32 four color maps of global sociological information as well as a wealth of web sites and other information resources Graphical Displays of Social Data and informative Photographs and Cartoons throughout the chapters make learning easier and more fun Teaching Resources available upon adoption of the text contains an excellent set of various tests and an annotated set of literary and visual resources in addition to an annotated bibliography of teaching resource materials

**Taking It Big** Steven P. Dandaneau, 2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students personal experiences with what is happening at the societal global level today The emphasis is on teaching the sociological imagination i e to instill in students a unique and radical form of consciousness that will allow them to conceptualize today s chief global and individual problems and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it s the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto

Augustana College Rock Island Illinois **The Engineering-Business Nexus** Steen Hyldgaard Christensen, Bernard Delahousse, Christelle Didier, Martin Meganck, Mike Murphy, 2018-11-14 Fascinating and compelling in equal measure this volume presents a critical examination of the multilayered relationships between engineering and business In so doing the study also stimulates ethical reflection on how these relationships either enhance or inhibit strategies to address vital issues of our time In the context of geopolitical economic and environmental tendencies the authors explore the world that we

should want to create and the role of the engineer and the business manager in this endeavor Throughout this volume the authors identify periods of alignment and periods of tension between engineering and business They look at focal points of the engineering business nexus related to the development of capitalism The book explores past and present movements to reshape reform or reject this nexus The volume is informed by questions of importance for industry as well as for higher education These are What kinds of conflict arise for engineers in their attempts to straddle both professional and organizational commitments How should professionals be managed to avoid a clash of managerial and professional cultures How do engineers create value in firms and corporations What kinds of tension exist between higher education and industry What challenges does the neoliberal entrepreneurial university pose for management faculty students society and industry Should engineering graduates be ready for work and can they possibly be What kinds of business issues are reflected in engineering education curricula and for what purpose Is there a limit to the degree of business hybridization in engineering degree programs and if so what would be the criterion for its definition Is there a place in engineering education curricula for reflective critique of assumptions related to business and economic thinking One ideal of management and control comes to the fore as the Anthropocene the world transformed into an engineered artefact which includes human existence The volume raises the question as to how engineering and business together should be considered given the fact that the current engineering business nexus remains embedded within an economic model of continual growth By addressing macro level issues such as energy policy sustainable development globalization and social justice this study will both help create awareness and stimulate development of self knowledge among practitioners educators and students thereby ultimately addressing the need for better informed citizens to safeguard planet Earth as a human life supporting system First Contact Nancy A. Greenwood, Jay R. Howard, 2011-08-16 The Introduction to Sociology course is usually the first contact that students have with the discipline of sociology This course can determine whether students take other sociology courses or learn to use sociology in their lives as adults and citizens First Contact identifies important issues facing instructors in introducing students to the sociological imagination Drawing on the literature of teaching and learning in sociology and higher education more broadly First Contact provides an overview of the scholarship of teaching and learning best practices and other essential information to create a successful first course in sociology It walks the instructor through the course design process from learning about whom your students are determining appropriate course goals and learning objectives and using these ideas to design execute and assess your course It examines the core content of a first course It discusses how to design a syllabus select textbooks and readings as well as how to design and deliver effective lectures facilitate good discussions and other course delivery options An invaluable resource for anyone teaching the introductory sociology course including grad students new professors and seasoned instructors who seek renewal in their approach to teaching this critical course in the sociology curriculum Nazisplottation! Daniel H. Magilow, Elizabeth Bridges, Kristin T. Vander

Lugt,2011-11-24 *Nazisploitation* examines past intersections of National Socialism and popular cinema and the recent reemergence of this imagery in contemporary visual culture In the late 1960s and early 1970s films such as *Love Camp 7* and *Ilsa She Wolf of the SS* introduced and reinforced the image of Nazis as master paradigms of evil in what film theorists deem the sleaze film More recently Tarantino's *Inglourious Basterds* as well as video games such as *Call of Duty World at War* have reinvented this iconography for new audiences In these works the violent Nazi becomes the hyperbolic caricature of the monstrous feminine or the masculine sadist Power hungry scientists seek to clone the Führer and Nazi zombies rise from the grave The history aesthetic strategies and political implications of such translations of National Socialism into the realm of commercial low brow and sleaze visual culture are the focus of this book The contributors examine when and why the *Nazisploitation* genre emerged as it did how it establishes and violates taboos and why this iconography resonates with contemporary audiences

**Active Learning Exercises for Research Methods in Social Sciences** Beth P. Skott,Masjo Ward,2013 Based on the premise that when students engage in an activity instead of simply reading about it they understand it better this book offers 29 hands on active learning exercises for use in research methods courses in the social sciences The activities were created by instructors throughout the United States and tested for effectiveness in their classrooms They include group activities and solo activities presented in very accessible language for students Each exercise is directly related to a concept of research methods and aims to help students become better researchers

**Experiencing Social Research** Kerry J. Strand,Gregory L. Weiss,2020-08-11 This reader introduces students to the social research process by pairing 16 published research articles with candid interviews with the lead researcher on each study

*The Joy of Teaching* Peter Filene,2009-11-13 Gathering concepts and techniques borrowed from outstanding college professors *The Joy of Teaching* provides helpful guidance for new instructors developing and teaching their first college courses Award winning professor Peter Filene proposes that teaching should not be like a baseball game in which the instructor pitches ideas to students to see whether they hit or strike out Ideally he says teaching should resemble a game of Frisbee in which the teacher invites students to catch ideas and pass them on Rather than prescribe any single model for success Filene lays out the advantages and disadvantages of various pedagogical strategies inviting new teachers to make choices based on their own personalities values and goals Filene tackles everything from syllabus writing and lecture planning to class discussions grading and teacher student interactions outside the classroom The book's down to earth accessible style makes it appropriate for new teachers in all fields Instructors in the humanities the social sciences and the natural sciences will all welcome its invaluable tips for successful teaching and learning

*Schools and Society* Jeanne H. Ballantine,Joan Z. Spade,2011-04-04 Offering a wide array of theoretical perspectives and methods a broad range of resources and both classic and contemporary studies this fully updated Fourth Edition uses the open systems approach to provide readers with a framework for understanding and analyzing the book's disparate topics Edited by Jeanne H Ballantine and Joan Z Spade both

of whom actively teach Sociology of Education courses this text includes dozens of readable articles that illustrate major concepts and theoretical perspectives in the field

*Best Practices in Online Teaching and Learning across Academic Disciplines* Ross C. Alexander, 2017-10-17 Online teaching and learning has surged in recent years and faculty who normally teach in face to face settings are increasingly called upon to teach blended hybrid and fully online courses *Best Practices in Online Teaching and Learning across Academic Disciplines* provides insights from experienced university teachers and scholars across multiple disciplines including social sciences humanities natural sciences mathematics and professional programs such as nursing education and business administration who share innovative practices pedagogies and instructional design techniques This work highlights and features effective practical innovative and engaging best practices and approaches in online teaching and instructional design that can assist university faculty members and teachers course designers and developers and administrators invested and involved in online education Using a common theme and structure each chapter is co authored by faculty members possessing a wealth of experience and credentialing in online teaching and instructional design in the relevant discipline or sub discipline Chapters include best practices approaches and techniques within the discipline as well as relevant innovative and specific tools and strategies that improve student engagement and outcomes The book will appeal to faculty members and administrators in higher education teaching or designing online courses or entire online curricula as well as instructional design staff working with and training faculty Readers will be especially interested to discover lessons about how contributors have successfully taught and designed courses in disciplines not typically associated with online learning such as mathematics composition writing drawing hard sciences and speech among others Distributed for George Mason University Press
