Supersensible Physiology and Balance in Teaching Rudolf Steiner, 1969 Supersensible Physiology, and Balance in Teaching Rudolf Steiner, 1945 Balance in Teaching Rudolf Steiner, 2007-09 Whereas most readers are familiar with Goethe as a poet and dramatist few are familiar with his scientific work In this brilliant book Henri Bortoft who began his studies of Goethean science with J G Bennett and David Bohm introduces the fascinating scientific theories of Goethe He succeeds in showing that Goethe's way of doing science was not a poet's folly but a genuine alternative to the dominant scientific paradigm Bortoft shows that a different gentler kind of empiricism is possible than that demanded by the dualizing mind of modern technological science and demonstrates that Goethe's participatory phenomenology of a new way of seeing while far from being a historical curiosity in fact proposes a practical solution to the dilemmas of contemporary postmodern science If you read only one book on Goethan science this should be the one Supersensible Physiology and Balance in Teaching Rudolf Steiner, 2011-05-01 Published From A Stenographic Report Not Edited By The Lecturer Compiled **Lectures by Rudolf Steiner** Rudolf Steiner,2006 Rudolf Steiner's Vision of Love Bernard Nesfield-Cookson, 2011-03-14 Gathering together references to the logic of the heart from throughout Steiner's work the author encapsulates the great teacher's revelations on the meaning of love and indicates the supreme importance of the greatest of all deeds of love Cover Eurythmy Rudolf Steiner, 2013-04-16 Rudolf Steiner's original contribution to human knowledge was based on his ability to conduct spiritual research the investigation of metaphysical dimensions of existence Samples of his work are to be found in this introductory reader in which Beth Usher brings together excerpts from Steiner's many talks and writings on Eurythmy The volume also features an editorial introduction commentary and notes Chapters In the beginning God created out of movement School eurythmy a kind of spiritual gymnastics Eurythmy therapy the word of the heavens is the being of man Silent soul speaking soul Eurythmy as a performing art How eurythmy arises out of anthroposophy Bibliographical Reference List of the Published Works of Rudolf Steiner in English Translation ,1979 Supersensible Physiology Rudolf Steiner, 1945 Books in Print ,1953 **Voyage Through Childhood Into the Adult World** Eva A.
