Lea, 1870 Superstition and Force Henry Charles Lea, 2019-11-29

In *Superstition and Force* Henry Charles Lea meticulously examines the intricate relationship between power and belief in society particularly during the medieval period. Through a rich tapestry of historical analysis, Lea explores how superstition intertwined with legal and political authority to shape societal norms and behaviors. His literary style is characterized by a rigorous methodological approach drawing on a diverse range of primary sources that illuminate the pervasive influence of superstition on both individual and collective actions. The book serves not only as a historical account but also as a profound commentary on the interplay between faith and governance in the evolution of Western civilization.

Henry Charles Lea (1825-1909) was an influential American historian whose extensive background in both law and history uniquely positioned him to address such complex themes. His commitment to understanding the dynamics of power and societal control played a pivotal role in the conception of this work. Lea's own reflections on justice and morality, shaped by the tumultuous debates of his era, particularly regarding issues of religion and state, underscore his drive to investigate the mechanisms of social order.

Superstition and Force is essential reading for scholars and general readers alike who seek to understand the historical roots of modern belief systems and their impact on societal structures. Lea's compelling argumentation and command of the subject matter offer a profound exploration of how superstition has historically influenced human behavior and societal governance, making it a significant contribution to the fields of history and sociology.

Lea,2015-07-08 Excerpt from Superstition and Force Essays on the Wager of Law the Wager of Battle the Ordeal Torture Apart from the exact sciences there is no subject which more fully repays the student than the history of jurisprudence To the reflecting mind few popular quotations are so essentially false or reveal so narrow a view of life as the often cited lines How small of all that human hearts endure That part which kings or laws can cause or cure Since the origin of society each unit of our race has struggled on in his allotted path through joys and griefs fashioned for the most part by the invisible network of habits customs and statutes which surround him on every side and silently shape his daily actions Thus the history of jurisprudence becomes the history of the life of man and the society of distant ages is more distinctly presented to us in the crabbed sentences of codes than in the flowing rhetoric of the historian Slender as may be the respect with which we of to day sometimes regard rotatory assemblymen and partisan judges still are they none the less noteworthy personages The parts are more important than the actors and centuries hence it will be to our statute books and reports that the curious student will resort to find out what manner of men were the restless and energetic race which found self government a harder task than the founding of a gigantic empire The law giver and the law dispenser are the custodians of all that we hold dear on earth About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Superstition and Force** Henry C.
