**A History of Cooks and Cooking** Michael Symons,2004 Never has there been so little need to cook Yet Michael Symons maintains that to be truly human we need to become better cooks practical and generous sharers of food Fueled by James Boswell s definition of humans as cooking animals for no beast can cook Symons sets out to explore the civilizing role of cooks in history His wanderings take us to the clay ovens of the prehistoric eastern Mediterranean and the bronze cauldrons of ancient China to fabulous banquets in the temples and courts of Mesopotamia Egypt and Persia to medieval English cookshops and southeast Asian street markets to palace kitchens diners and modern fast food eateries Symons samples conceptions and perceptions of cooks and cooking from Plato and Descartes to Marx and Virginia Woolf asking why cooks despite their vital and central role in sustaining life have remained in the shadows unheralded unregarded and underappreciated People think of meals as occasions where you share food he notes they rarely think of cooks as sharers of food Considering such notions as the physical and political consequences of sauce connections between food and love and cooking as a regulator of clock and calendar Symons provides a spirited and diverting defense of a cook centered view of the world
