Surfing Samurai Robots:

Surfing Samurai Robots Mel Gilden,2012-10-19 He called himself Zoot Marlowe said he d just blown in from Cay City but even the wacked out surfer dudes could tell that the four foot detective with the giant schnoz was from somewhere out of their world Still he could throw a mean frisbee and he said he was a private eye and when someone decided to smash and trash all the surfing robots in Malibu just days before the biggest surfing contest of the year Zoot was the only being around willing to track the bot beaters down But Zoot didn t know just how widespread a conspiracy he was about to run up against For this first case of his Earthly career would see him taking on everything from the Malibu cops to Samurai robots motorcycle madmen to talking gorillas and a misplaced mistress of genetic manipulation Gilden proves that you can write first rate humorous science fiction *Science Fiction Chronicle*

Architectures and Algorithms Pei Wang,2007-06-15 The topic of this book the creation of software programs displaying broad deep human style general intelligence is a grand and ambitious one And yet it is far from a frivolous one what the papers in this publication illustrate is that it is a fit and proper subject for serious science and engineering exploration No one has yet created a software program with human style or even roughly human level general intelligence but we now have a sufficiently rich intellectual toolkit that it is possible to think about such a possibility in detail and make serious attempts at design analysis and engineering possibility in detail and make serious attempts at design analysis and engineering This is the situation that led to the organization of the 2006 AGIRI Artificial General Intelligence Research Institute workshop and to the decision to publish a book from contributions by the speakers at the conference The material presented here only scratches the surface of the AGI related R D work that is occurring around the world at this moment But the editors are pleased to have had the chance to be involved in organizing and presenting at least a small percentage of the contemporary progress
