Telangana Movement 1944 1951:

An Agrarian History of South Asia David E. Ludden, 1999-10-07 Originally published in 1999 this book offers a comprehensive historical framework for understanding the regional diversity of agrarian South Asia *Interrogating Reorganisation of States* Asha Sarangi, Sudha Pai, 2020-11-29 The volume analyses the complex historical and political context for the processes of state formation in independent India It provides both a conceptual and empirical framework for an understanding of Indian democracy through the perspective of reorganisation of states Following the recommendations of the States Reorganisation Commission SRC in 1956 the territorial boundaries of the states were redrawn However within a decade the geo linguistic and cultural ideological criteria could not be considered satisfactory for the future division of states With the formation of three new states Chhattisgarh Uttarakhand and Jharkhand and the demand for Telangana statehood not accepted as yet new dimensions and perspectives about state formation as a critical political practice have surfaced yet again in contemporary India The book addresses a number of significant themes related to states reorganisation and its effects questions of underdevelopment size political participation governance cultural identities and also analyses the demand for smaller states It focuses on different states their historical and contemporary trajectory leading to the demand for territorial remapping and thus recognising specific political and cultural resources and identities in the regions and sub regions of states in India The book will be useful for those studying politics history sociology comparative politics and South Asian Studies *Politics in Emotion* Himadeep Muppidi, 2014-09-25 The work focuses on a subaltern local sovereignty movement called Telangana in India Over the last ten years this movement has engaged in a massive political mobilization including strikes rallies work stoppages occupation of public spaces electoral contests 200 and more political suicides and media battles But interestingly enough notwithstanding a political mobilization that has brought day to day life to a halt on a number of occasions it has remained largely invisible in international media and global politics Fascinated by the social movement's international invisibility as well as the causes and conditions of its eruption around a city region that has become a showcase of new capitalist development Muppidi seeks to unpack this issue showing that this invisibility is not just intrinsically puzzling but also represents the operation of power on a global scale Investigating the conditions of invisibility in this instance can therefore tell us something important about the way global power works to produce visibility and invisibility in the 21st century world This book provides a unique resource for students of Postcolonialism International relations and South East Asian studies **State of Subversion** Virinder S. Kalra, Shalini Sharma, 2023-05-31 This volume looks at the interface between ideology religion and culture in Punjab in the 20th century spanning from colonial to post colonial times Through a rereading of the history of Punjab and of Punjabi migrant networks the world over it interrogates the term radicalism and its relationship with terms such as militancy terrorism and extremism in the context of Punjab and elsewhere during the period explores the relationship between left and religious radicalism such as the Ghadar movement and the

Akalis and the continuing role of radical movements from British Punjab to the independent states of India and Pakistan Expanding the dimensions on the study of Punjab and its historical impact in the South Asian region this book will interest scholars and students of modern Indian history politics and sociology **Swami Ramananda Tirtha and the Hyderabad Freedom Struggle** V.
