Fredric Jameson Sean Homer,2018-12-07 Fredric Jameson has been described as probably the most important cultural critic writing in English today and he is widely acknowledged as the foremost proponent for the tradition of critical theory known as Western Marxism Yet his work has not been given the systematic review like other contemporary thinkers like Foucault and Derrida Fredric Jameson Marxism Hermeneutics Postmodernism is a thoroughly up to date detailed review and analysis of the work of this influential intellectual Covering Jameson s work and thought from his early projects of form and history to his more recent engagements with postmodernism and cultural politics this synthesis offers a balanced assessment of his ideas their development and their continuing influence Deleuze and Guattari's 'Anti-Oedipus' Ian

Buchanan,2008-02-05 Gilles Deleuze and Félix Guattari s Anti Oedipus is the first part of a two volume project entitled Capitalism and Schizophrenia Challenging the twin orthodoxies of Lacanian psychoanalysis and Althusserian Marxism Anti Oedipus is an important and exciting yet challenging piece of philosophical writing Ian Buchanan s Reader s Guide to Anti Oedipus is the ideal companion to one of the twentieth century s most influential philosophical works **Fredric Jameson:**

**Live Theory** Ian Buchanan,2006-12-27 Widely regarded as one of America s most important cultural theorists Fredric Jameson has been at the forefront of the field of literary and cultural studies since the early 1970s Author of The Political Unconscious Narrative as a Socially Symbolic Act and Postmodernism or the Cultural Logic of Late Capitalism Jameson is without doubt one of the leading intellectuals of our time Fredric Jameson Live Theory offers an invaluable and highly accessible introduction to the work of this important thinker Ian Buchanan explores and illuminates how Jameson forms his concepts and how they operate providing a fascinating account of Jameson s important and ongoing contributions to Critical Theory The book provides a clear sense of his overall project and the marvellous productivity of his thinking Motivated by a desire to inaugurate social change by illuminating the obstacles standing in its way the aim of Jameson s work is to dishabituate us from the comfortable feeling that modern life is enhanced by the global grip of capitalism The book concludes with a new interview with Jameson himself in which he discusses the key themes and issues in his work and future directions for the Jamesonian project Thematically organised clear and accessible Fredric Jameson Live Theory is a key resource for anyone studying this pioneering thinker Reflexivity And The Crisis of Western Reason Barry Sandywell,2013-06-17 This

ground breaking work explores the genealogical analysis of the discourses of reflection Barry Sandywell traces the differences between the traditional discourses of reflection and the experiences of reflexivity in everyday social and philosophical thought Brilliantly organised and abounding with astonishing insights Reflexivity and the Crisis of Western Reason offers a fundamental challenge to our normal ways of viewing social thought **Mark and Literary Materialism**

Niall McKay,2022-07-26 The interpretation of the Bible is intricately interwoven with the history of and rhetoric of European colonization During the modern era the traditions of biblical interpretation played a crucial framing role in the emergence of

industrialized nation states the capitalist mode of production and the colonial enterprises of European powers While the Bible has been used to justify the power of ruling classes and dominating nations it has also been a source of liberative and resistant political discourse In this book Niall McKay uses the tools of literary materialism to read the gospel of Mark and build upon the representational epistemology and patterns of interpretation of the rich Marxism of the Frankfurt school This reading is framed against and around the liberative biblical movements of late colonial and post colonial South Africa in order to develop ways of reading which are generative of liberation As a consequence the author makes a valuable contribution to an ongoing politics and practice of resistance that is attentive to issues of religious collaboration liberation colonialism and the ends of late capitalism      **Urban Verbs** Kevin R. **The Reading of Theoretical Texts** Peter Ekegren,2002-01-04 Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended      **Movement and Belonging**

Carol E. Leon,2009 The uncertainties and newness that surround us today prompt radical questions about ourselves and our relationship with the external world How do and can we belong to the places and spaces of today Movement and Belonging Lines Places and Spaces of Travel describes current realities and suggests ways in which you can define yourself in an ever changing world Using the travel writings of V S Naipaul Michael Ondaatje Patrick White and D H Lawrence Movement and Belonging demonstrates that authentic travel embracing changing boundaries and cultures enables you to create sites of belonging where you can find your sense of self      **Across Meridians** Jinqi Ling,2012-04-18 Over the course of the last two

decades novelist Karen Tei Yamashita has reshaped the Asian American literary imagination in profound ways In Across Meridians Jinqi Ling offers readers the most critically engaged examination to date of Yamashita s literary corpus Crafted at the intersection of intellectual history ethnic studies literary analysis and critical theory Ling s study goes beyond textual investigation to intervene in larger debates over postmodern representation spatial materialism historical form and social and academic activism Arguing that Yamashita s most important contribution is her incorporation of a North South vector into the East West conceptual paradigm Ling highlights the novelist s re prioritization through such a geographical realignment of socio economic concerns for Asian American literary criticism In assessing Yamashita s works as such Ling designates her novelistic art as a form of new Asian American literary avant garde that operates from the peripheries of received histories aesthetics and disciplines Seeking not only to demonstrate the importance of Yamashita s transnational art Ling sets new terms for ongoing dialogues in Asian American literary and cultural criticism At the same time he argues for

the continuing relevance of Asian American literature as a self reflexive and self renewable critical practice      **Fredric Jameson** Robert T. Tally, 2014-06-20 Fredric Jameson is the most important Marxist critic in the world today While consistently operating at the cutting edge of literary and cultural studies Jameson has remained committed to seemingly old fashioned philosophical discourses most notably dialectical criticism and utopian thought In Fredric Jameson The Project of Dialectical Criticism Robert Tally surveys Jameson s entire oeuvre from his early studies of Sartre and formal criticism through his engagements with postmodernism and globalisation to his recent readings of Hegel Marx and the valences of the dialectic The book is both a comprehensive critical guide to Jameson s theoretical project and itself a convincing argument for the power of dialectical criticism to understand the world today      *J.M. Coetzee* David Attwell, 1993-06-11 David Attwell defends the literary and political integrity of South African novelist J M Coetzee by arguing that Coetzee has absorbed the textual turn of postmodern culture while still addressing the ethical tensions of the South African crisis As a form of situational metafiction Coetzee s writing reconstructs and critiques some of the key discourses in the history of colonialism and apartheid from the eighteenth century to the present While self conscious about fiction making it takes seriously the condition of the society in which it is produced Attwell begins by describing the intellectual and political contexts surrounding Coetzee s fiction and then provides a developmental analysis of his six novels drawing on Coetzee s other writings in stylistics literary criticism translation political journalism and popular culture Elegantly written Attwell s analysis deals with both Coetzee s subversion of the dominant culture around him and his ability to see the complexities of giving voice to the anguish of South Africa      *Comparative Criticism: Volume 12, Representations of the Self* E. S. Shaffer, 1990-09-27 This volume explores a theme that has become central in our time as the death of God is widely seen to be succeeded by the death of Man Our contributors set forth its urgency in a variety of contexts Among these Peter Stern gives the paradigmatic history of the bereft damaged and repudiated self in German philosophy and literature from Kleist to Ernst Jilnger In Not I Michael Edwards pursues the theological and psychological consequences of a self without substance Peter France supplies a witty account of the marriage of self and commerce more at home in the eighteenth century tradition of British empiricism and the challenge of Rousseau s refusal of the terms of commerce Raman Selden explores views of the self from the Romantics to the poststructuralists Roger Cardinal probes the secret diary is the genre a contradiction in terms Stephen Bann explores the representations of Narcissus in recent psychoanalytic theory Other contributors include Pierre Dupuy David James Julie Scott Meisami Gregory Blue Mark Ogden and A D Nuttall      **Reading by Starlight** Damien Broderick, 2005-06-29 Reading by Starlight explores the characteristics in the writing marketing and reception of science fiction which distinguish it as a genre Damien Broderick explores the postmodern self referentiality of the sci fi narrative its intricate coded language and discursive encyclopaedia He shows how for perfect understanding sci fi readers must learn the codes of these imaginary worlds and vocabularies all the time picking up references to texts by other writers Reading by

Starlight includes close readings of paradigmatic cyberpunk texts and writings by SF novelists and theorists including Isaac Asimov Arthur C Clarke Brian Aldiss Patrick Parrinder Kim Stanley Robinson John Varley Roger Zelazny William Gibson Fredric Jameson and Samuel R Delaney *The Success and Failure of Fredric Jameson* Steven Helmling, 2000-11-09 This is the first book to provide a critical overview of the work and career as a whole of the Marxist culture critic Fredric Jameson foremost among American intellectuals and a vanguard figure in the theory movement of the past three decades Steven Helmling identifies major themes and traces both continuity and change in Jameson's engagement with the challenges presented by continental theory from the 1950s to the present Instead of approaching Jameson's work by circumventing his notoriously difficult writing style as many have chosen to do Helmling takes at face value Jameson's insistence that the success and failure of critique are conditioned on how it is written Jameson insists on a dialectical prose that not merely analyzes but enacts or performs the contradictions of its subjects resulting in an agitating dramatic and compelling style that questions the very success or failure of critique itself Style is thus regarded both as a salient feature of the writing and as a problem for critical practice in general Besides illuminating an oeuvre that's far from fully understood the book makes a timely contribution to the current What was theory discussion *The Ontology of Space in Biblical Hebrew Narrative* Luke Gartner-Brereton, 2014-12-18 The central premise of this book is that biblical Hebrew narrative in terms of its structure tends to operate under similar mechanical constraints to those of a stage play wherein space is central characters are fluid and objects within the narrative tend to take on a deep internal significance The smaller episodic narrative units within the Hebrew aesthetic tend to grant primacy to space both ideologically and at the mechanical level of the text itself However space as a determinate structural category has been all but overlooked in the field of biblical studies to date reflecting perhaps our own inability as modern readers to see beyond the dominant cinematic aesthetic of our times The book is divided into two major sections each beginning with a more theoretical approach to the function of narrative space and ending with a practical application of the previous discussion using Genesis 28 10 22 the Bethel narrative and the book of Ruth respectively as test cases *Novels, Novelists, and Readers* Mary Frances Rogers, 1991-01-01 Focusing on British and American novels Rogers takes a sociological look at the business of literature the book industry and the experiences of novelists and readers Viewing the novel as a vehicle of cultural meaning the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations She emphasizes the kinship between the social sciences and humanities in her analysis by reinvigorating affection for the novel and also establishing its rich cultural significance Fredric Jameson Adam Roberts, 2000-09-07 This book has been designed as a bridge to Jameson's work for undergraduates This series is truly comprehensive covering key ideas intellectual social and historical contexts and the impact of the thinker's ideas These are usually the subjects of separate books Adam Roberts really knows how to write for a student audience Jameson is another very trendy postmodernist but his work grows out of marxism so he appeals

to theory teachers of the old and new schools and appears on plenty of courses as a result The book has a large amount on The Political Unconscious Jameson s most widely taught text     *Routledge Handbook of Psychoanalytic Political Theory* Yannis Stavrakakis,2019-09-05 The emerging field of psychoanalytic political theory has now reached a stage in its development and rapid evolution that deserves to be registered systematically defined and critically evaluated This Handbook provides the first reference volume which showcases the current state of psychoanalytic political theory maps the genealogy of its development identifies its conceptual and methodological resources and highlights its analytical innovations as well as its critical promise The Handbook consists of 35 chapters offering original comprehensive and critical reviews of this field of study The chapters are divided into five thematic sections Figures discusses the work of major psychoanalytic theorists who have influenced considerably the development of psychoanalytic political theory Traditions genealogically recounts and critically reassesses the many attempts throughout the 20th century of experimenting with the articulation between psychoanalysis and political theory in a consistent way Concepts asks what are the concepts that psychoanalysis offers for appropriation by political theory Themes presents concrete examples of the ways in which psychoanalytic political theory can be productively applied in the analysis of racism gender nationalism consumerism etc Challenges Controversies captures the ways in which psychoanalytic political theory can lead the way towards theoretical and analytical innovation in many disciplinary fields dealing with cutting edge issues The Routledge Handbook of Psychoanalytic Political Theory will serve as scholarly reference volume for all students and researchers studying political theory psychoanalysis and the history of ideas     **Imprisoned by History** Martin Davies,2009-12-04 Imprisoned by History Aspects of Historicized Life offers a controversial analysis grounded both in philosophical argument and empirical evidence of what history does in contemporary culture It endorses and extends the argument that contemporary society is in historical terms already historicized shaped by history and thus history loses sight of the world seeing it only as a reflection of its own self image By focusing on history as a way of thinking about the world as a thought style this volume delivers a major decisive thought provoking critique of a crucial aspect contemporary culture and the public sphere By illustrating the ways in which history enforces socially coercive attitudes and forms of behaviour Martin Davies argues that history is therefore in itself ideological and exists as an instrument of political power Contending that this ideological function is the normal function of professional academic history he repudiates entirely the conventional view that only biased or bad history is ideological By finding history projecting onto the world and getting reflected back at it the exacting history focused thinking and behaviour on which the discipline and the subject rely he concludes that history s very normality and objectivity are inherently compromised and that history works only in terms of its own self interest     **Image, Text, Architecture** Robin Wilson,2016-03-09 Image Text Architecture brings a radical and detailed analysis of the modern and contemporary architectural media addressing issues of architectural criticism architectural photography and the role of journal editors It covers examples as diverse as an article by British artist

Paul Nash in *The Architectural Review* 1940 an early project by French architects Lacaton Vassal published in the journal 2G 2001 and recent photography by Hisao Suzuki for the Spanish journal *El Croquis* At the intersection of image and text the book also reveals the role of the utopian impulse within the architectural media drawing on theories of utopian discourse from the work of the French semiotician and art theorist Louis Marin and the American Marxist critic Fredric Jameson Through this it builds a fresh theoretical approach to journal studies revealing a hitherto unexplored dimension of latent or unconscious discourse within the media portrait of architecture The purpose of this enquiry is to highlight moments where a different type of critical voice emerges on the architectural journal page indicating the possibility of a more progressive engagement with the media as a platform for critical and speculative thinking about architecture and to rethink the journals role within architectural history
