The Imperial Japanese Navy:

A Battle History of the Imperial Japanese Navy Paul Dull, 2012-12-12 For almost 20 years more than 200 reels of microfilmed Japanese naval records remained in the custody of the U S Naval History Division virtually untouched This unique book draws on those sources and others to tell the story of the Pacific War from the viewpoint of the Japanese Former Marine Corps officer and Asian scholar Paul Dull focuses on the major surface engagements of the war Coral Sea Midway the crucial Solomons campaign and the last ditch battles in the Marianas and Philippines Also included are detailed track charts and a selection of Japanese photographs of major vessels and actions

The Imperial Japanese Navy in the Pacific War Mark Stille, 2014-11-20 A highly illustrated examination of the key ships tactics and operations of the Imperial Japanese Navy in the War in the Pacific in World War II The Imperial Japanese Navy IJN was the third most powerful navy in the world at the start of World War II and came to dominate the Pacific in the early months of the war This was a remarkable turnaround for a navy that only began to modernize in 1868 although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose Bringing together for the first time material previously published in Osprey series books and with the addition of new writing making use of the most recent research this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed how they were armed when and where they were deployed and how effective they were in battle The Imperial Japanese Navy in the Pacific War provides a history of the IJN s deployment and engagements analysis of the evolution of strategy and tactics and finally addresses the question of whether it truly was a modern navy fully prepared for the rigors of combat in the Pacific Illustrated throughout with photographs and detailed colour artworks this is a valuable reference source for Pacific War enthusiasts and historians alike

Submarines of the Imperial Japanese Navy Dorr Carpenter, Norman Polmar, 1986 **The Imperial Japanese Navy of the Russo-Japanese War** Mark Stille, 2016-03-24 When the Imperial Japanese Navy destroyed Russia's battle fleet during the Russo Japanese War it marked the emergence of Japan as one of the world's major naval powers Japan's navy had been built up over just two decades with the IJN acquiring a fleet of modern foreign built warships Coupled with the IJN's leadership and high levels of training this proved enough to destroy the fleet of one of the world's historic naval powers This book explains in concise detail the IJN's fleet of 1904-1905 from its battleships and armored cruisers to the torpedo boats that launched the first great torpedo attack in history and outlines the history of the naval campaign against the Russian fleet

From Mahan to Pearl Harbor Sadao Asada, 2013-04-22 major work by one of Japan's leading naval historians this book traces Alfred Thayer Mahan's influence on Japan's rise as a sea power after the publication of his classic study *The Influence of Sea Power Upon History* Hailed by the British Admiralty Theodore Roosevelt and Kaiser Wilhelm II the international bestseller also was endorsed by the Japanese Naval Ministry who took it as a clarion call to enhance their own sea power That power of course was eventually used against the United States Sadao Asada opens his book with a discussion of Mahan's sea power doctrine and demonstrates how Mahan's ideas led the Imperial Japanese Navy to view itself as a hypothetical enemy of the Americans Drawing on previously unused Japanese records from the three naval conferences of the 1920s the Washington Conference of 1921-22 the Geneva Conference of 1927 and the London Conference of 1930 the author examines the strategic dilemma facing the Japanese navy during the 1920s and 1930s against the background of advancing weapon technology and increasing doubt about the relevance of battleships He also analyzes the decisions that led to war with the United States namely the 1936 withdrawal from naval treaties the conclusion of the Tripartite Pact in September 1940 and the armed advance into south Indochina in July 1941 in the context of bureaucratic struggles between the army and navy to gain supremacy He concludes that the ghost of Mahan hung over the Japanese naval leaders as they prepared for war against the United States and made decisions based on miscalculations about American and Japanese strengths and American intentions

Morning Glory Stephen Howarth, 1983 A Battle History of the Imperial Japanese Navy, 1941-1945 Paul S. Dull, 1978 **Imperial Japanese Navy Battleships 1941-45** Mark Stille, 2012-05-20 The Imperial Japanese Navy of World War II surpassed the Allied and Axis fleets in innovation and technology This title covers the 12 Japanese battleships that saw service between 1941 and 1945 including the mighty Yamato Each class is considered in light of its design and construction its armament and wartime modifications The author Mark Stille uses primary sources and dramatic photographs to tell the story of these mighty battleships at war including their major engagements during the raid at Pearl Harbor and the battle of Midway The first English language book to include photographs from the prestigious Fukui Collection this investigation will fascinate any naval enthusiast **A Battle History of the Imperial Japanese Navy (1941-1945) ...** Paul S. Dull, 1978

Making Waves J. Schencking, 2005-01-18 This book explores the political emergence of the Imperial Japanese Navy between 1868 and 1922. It fundamentally challenges the popular notion that the navy was a silent apolitical service. Politics, particularly budgetary politics, became the primary domestic focus if not the overriding preoccupation of Japan's admirals in the prewar period. This study convincingly demonstrates that as the Japanese polity broadened after 1890, navy leaders expanded their political activities to secure appropriations commensurate with the creation of a world class blue water fleet. The navy's sophisticated political efforts included lobbying oligarchs, coercing cabinet ministers, forging alliances with political parties, occupying overseas territories, conducting well orchestrated naval pageants and launching spirited propaganda campaigns. These efforts succeeded by 1921, naval expenditures equaled nearly 32 percent of the country's total budget, making Japan the world's third largest maritime power. The navy, as this book details, made waves at sea and on shore and in doing so significantly altered the state, society, politics and empire in prewar Japan. *A Battle History of the Imperial Japanese Navy, 1941-1945* Paul S. Dull, 1978 The first non Japanese language battle history of the Imperial Japanese Navy in World War II to recount the war in the Pacific as the Japanese saw and officially recorded it. *The Imperial Japanese Navy* Frederick Thomas Jane, 1904 *Imperial Japanese Navy Light Cruisers 1941-45* Mark Stille, 2012-02-20 The Imperial Japanese Navy went to war with 17 light cruisers and another three cruiser sized training ships. Of these most were 5,500 ton ships designed to act as destroyer squadron flagships. This made them much different in capabilities and mission from their American counterparts. During the war the Japanese built another five light cruisers, all but one of which maintained the design premise of being able to serve as destroyer squadron flagships. During the war Japanese light cruisers were active throughout the Pacific performing many missions in addition to their flagship duties. Mark Stille continues Osprey's coverage of the IJN of WWII with this concise and complete study of all 25 ships from their design and development to their ultimate fates. Detailed Osprey artwork and rare period photographs from the Fukui collection held in Kure, Japan illustrate this discussion. *Warships of the Imperial Japanese Navy, 1869-1945* Hansgeorg Jentschura, 1977 **The Imperial Japanese Navy** Fred T. Jane, 1984 *The Japanese Navy in World War II* David C. Evans, 2017-02-15 First published in 1986 and lauded by historians and World War II buffs, eager for the Japanese viewpoint, this collection of essays makes significant contributions to the field of World War II literature. In it, top ranking Japanese officers offer their personal perspectives of the Pacific War. This second edition adds five articles to the original twelve to present a full picture of the Japanese navy's role in the war. Most of these moving accounts were written in the 1950s and retain the immediacy felt by the writers when they participated in the events. They provide valuable information on the strategy, tactics and operations of the Japanese fleet as well as insights into the personalities and motives of its leaders. Here Vice Admiral Shigeru Fukudome comes to grips with allegations that the assault on Pearl Harbor represented strategic folly, political blundering and tactical stupidity. Captain Mitsuo Fuchida describes how his bombing group unleashed devils of doom on Battleship Row and Mitsuru Yoshida gives an

eye witness account of the sinking of the famous battleship Yamato The new contributions to the volume discuss operations in the Indian Ocean the battle of the Philippine Sea the protection of merchant shipping submarine warfare and Japan s overall naval strategy *End Japanese Navy* Masanori Itō,1984-12 **THE IMPERIAL JAPANESE NAVY.** Paul S. Dull,1978 THIS IS A BATTLE HISTORY OF THE IMPERIAL JAPANESE NAVY FROM 1941 45
