The Interloper:

The Interloper Michel Anteby, 2024-04-09 A practical and theoretical guide for field researchers struggling with access Resistance is the bane of all field researchers who are often viewed as interlopers when they enter a community and start asking questions People obstruct investigations and hide evidence They shelve complaints silence dissent and even forget their own past and deny having done so How can we learn about a community when its members resist so strongly The answer is that the resistance itself is sometimes the key Michel Anteby explains how community members often disclose more than intended when they close ranks and create obstacles He draws insights from diverse stories of resistance by uncooperative participants from Nazi rocket scientists and Harvard professors to Disney union busters and people who secure cadavers for medical school dissection to reveal how field resistance manifests itself and how researchers can learn from it He argues that many forms of resistance are retrospectively telling and that these forms are the routine products not by products of the field That means that resistance mechanisms are not only indicative of something else happening instead they often are the very data points that can shed light on how participants make sense of their worlds An essential guide for ethnographers sociologists and all field researchers seeking access The Interloper shares practical and theoretical insights into the value of having the door slammed in your face

Grim Sky Country Eric Griffin,2005-04 It has been a month since retired Army Ranger martial arts expert Sean McConnell s battle with the murderous townspeople of Hadesville in which he barely escaped the deadly encounter with his life With his scars from the savage ordeal still fresh McConnell continues his bicycling expedition across America leaving the sadistic town far behind Now pedaling across Montana s pristine countryside captivated by the stunning untamed beauty of the state s frontier land life seems like it might finally be settling down for Sean McConnell Then in an instant his peace is shattered once again when anguished cries belonging to someone clearly in distress erupt from within the heavily wooded forest nearby The moment that Sean McConnell decides to investigate so begins a terrifying new adventure Sean is once again plunged into a life or death struggle for survival only this time his adversaries aren t human

Sperm Competition and the Evolution of Animal Mating systems Robert L. Smith,2012-12-02 Sperm Competition and the Evolution of Animal Mating Systems describes the role of sperm competition in selection on a range of attributes from gamete morphology to species mating

systems This book is organized into 19 chapters and begins with the conceptualization of sperm competition as a subset of sexual selection and its implications for the insects The following chapter describes the relationship between multiple mating and female fitness with an emphasis on determining the conditions under which selection on females is likely to counteract selection on males for avoiding sperm competition Other chapters consider the female perspective on sperm competition the evolutionary causation at the level of the individual male gamete and the correlation of high paternal investment and sperm precedence in the insects The remaining chapters are arranged phylogenetically and explore the sperm competition in diverse animal taxa such as the *Drosophila* Lepidoptera spiders amphibians and reptiles These chapters also cover the evolution of direct versus indirect sperm transfer among the arachnids or the problem for kinship theory presented by multiple mating and sperm competition in the Hymenoptera This book further discusses the remarkable potential for sperm competition among certain temperate bat species whose females store sperm through winter hibernation and the mixed strategies and male caused female genital trauma as possible sperm competition adaptations in poeciliid fishes The concluding chapter examines the predictions concerning testes size and mating systems in the primates and the possible role of sperm competition in human selection This book is of great value to reproductive biologists and researchers

Assisted Suicide and the European Convention on Human Rights Stevie Martin, 2021-04-12 Locating assisted suicide within the broader medical end of life context and drawing on the empirical data available from the increasing number of permissive jurisdictions this book provides a novel examination of the human rights implications of the prohibition on assisted suicide in England and Wales and beyond Assisted suicide is a contentious topic and one which has been the subject of judicial and academic debate internationally The central objective of the book is to approach the question of the ban's compatibility with the European Convention on Human Rights afresh freed from the constraints of the existing case law and its erroneous approach to the legal issues and selective reliance on empirical data The book also examines the compatibility of the ban on assisted suicide with rights which have either been erroneously disregarded or not considered by either the domestic courts or the European Court of Human Rights Having regard to human rights jurisprudence more broadly including in the context of abortion the research and analysis undertaken here demonstrates that the ban on assisted suicide violates the rights of a significant number of individuals to life to freedom from torture or inhuman or degrading treatment and to private life Such analysis does not depend on a strained or contrived approach to the rights at issue Rather the conclusions flow naturally from a coherent logical application of the established principles governing those rights While the focus of the book is the Suicide Act 1961 the conclusions reached have implications beyond England and Wales including for the other devolved jurisdictions and international jurisdictions Beyond courts and legislators it will be a valuable resource for students of human rights and medical law as well as medical and legal practitioners and academics working in human rights and end of life care
