interdisciplinary study promotes the thesis that some contemporary Chinese ink artists succeed in using principles of traditional Chinese aesthetics to convey the union of self with nature others and the universe The investigation is a case study of the writings and paintings of Jizi an ink wash artist in Beijing who combines images of icy mountains Tibetan landscapes cosmic vistas and enclosures of personal existence Jizi's success in expressing the unification of these dimensions is confirmed by developing and applying an interpretation of Jing Hao's classic description of the authentic image which resonates with the vitality of nature To find words for resonance with visible nature the inquiry extends to such writers as Li Zehou Arthur Danto and Maurice Merleau-Ponty In short an account of authenticity in Chinese ink painting is offered experimentally as a means for assessing whether contemporary Chinese artworks are expressive of Chinese philosophy and culture The text includes stylistic comparisons with artists such as E. C. Escher Guo Xi Jia Youfu Liu Guosong Rene Magritte Piet Mondrian and Xu Bing The result is an appreciation of the healing influence of Chinese ink art in a global culture that is vibrant complex diverse and affirming of the present In this rigorous far-reaching and original analysis of contemporary ink art painting Brubaker and Wang focus our attention on the work of one independent painter Jizi whose work exemplifies an

uncanny marriage between ink art and contemporary concerns In the central chapters Brubaker persuasively argues that in this work Jizi captures principles essential to traditional Chinese aesthetics articulated in terms of wholeness emptiness and visibility that enable the works to express the unification of the self with nature and the universe as a whole It does this through forms that are innovative and part of artistic practices and discourses that are becoming increasingly global Mary Wiseman The City University of New York This important publication focuses on the evocative ink wash paintings of an artist who has over the course of decades demonstrated an unwavering commitment to exploring the technical formal philosophical and experiential dimensions of his chosen medium The essays commentaries and critical reflections collected in this volume present unique perspectives on Jizi s practice significantly contributing to the growing body of scholarship on the continuing vitality of the ink wash tradition in the global contemporary Dr Wenny Teo The Courtauld Institute of Art Through an in depth study of the ink painting practice of contemporary Chinese artist Jizi the authors discover Chinese ink painting s philosophical perspectives cosmic foundations and contemporary possibilities They also uncovered a way to enter into the artist s rich and profound spiritual world through Jiazi s expansive visual patterning and refined spiritual imagery he activates a long and great cultural tradition Yu Yang Central Academy of Fine Arts

world BOOK JACKET Re-Reading Leonardo Claire Farago,2017-07-05 For nearly three centuries Leonardo da Vinci's
work was known primarily through the abridged version of his Treatise on Painting first published in Paris in 1651 and soon
translated into all the major European languages Here for the first time is a study that examines the historical reception of
this vastly influential text This collection charts the varied interpretations of Leonardo's ideas in French Italian Spanish
English German Dutch Flemish Greek and Polish speaking environments where the Trattato was an important resource for
the academic instruction of artists one of the key sources drawn upon by art theorists and widely read by a diverse network
of artists architects biographers natural philosophers translators astronomers publishers engineers theologians aristocrats
lawyers politicians entrepreneurs and collectors The cross cultural approach employed here demonstrates that Leonardo's
Treatise on Painting is an ideal case study through which to chart the institutionalization of art in Europe and beyond for 400
years The volume includes original essays by scholars studying a wide variety of national and institutional settings The
coherence of the volume is established by the shared subject matter and interpretative aim to understand how Leonardo's
ideas were used With its focus on the active reception of an important text overlooked in studies of the artist's solitary genius
the collection takes Leonardo studies to a new level of historical inquiry Leonardo da Vinci's most significant contribution to
Western art was his interpretation of painting as a science grounded in geometry and direct observation of nature One of the
most important questions to emerge from this study is what enabled the same text to produce so many different styles of
painting *The Making of Modern Art* Michael Peppiatt,2020-05-05 A new collection of key texts from a leading critic of
modern art The critic Michael Peppiatt has been described by Art Newspaper as the best art writer of his generation For
more than 50 years he has written trenchant and lively dispatches from the center of the international art world In this new
volume of key works Peppiatt gives his unique insight into the making collection display and interpretation of modern art
Covering the whole spectrum of modern art from pioneers such as Gustav Klimt and Chaim Soutine to collectors and dealers
who played a pivotal role in the modern art world to artists such as Francis Bacon Bill Jacklin and Frank Auerbach with
whom he had close relationships Peppiatt interweaves personal anecdote with critical judgment Each text is accompanied by
a new short introduction written in Peppiatt's signature vivid and jargon free style in which he contextualizes his writings
and reflects on significant moments in a lifetime of artistic engagement This volume will provide readers with an exhilarating
