## **Sociology For Whom By Lee Alfred McClung:**

Politics in the Human Interest William David Du Bois, R. Dean Wright, 2007-01-01 This book presents the striking proposition that by paying attention to what has been learned about human behavior we can develop a political agenda that is in the human interest. Such values provide the basis for an action-oriented sociology. *Politics in the Human Interest* explores the theoretical foundation of a humanistic sociology. It is a call for the return to the original progressive agenda that knowledge about human behavior can be used to create social progress and a better world. *The Cambridge Handbook of Sociology: Volume 2* Kathleen Odell Korgen, 2017-08-11 Whether a student, an instructor, a researcher, or just someone interested in understanding the roots of sociology and our social world, *The Cambridge Handbook of Sociology Volume 2* is for you. This second volume of the Handbook covers specialties within sociology and interdisciplinary studies that relate to sociology. It includes perspectives on race, class, feminist theories, special topics, e.g., the sociology of nonhuman animals, quality of life, social indicators, research, the sociology of risk, the sociology of disaster, the sociology of mental health, sociobiology, the sociology of science and technology, the sociology of violence, environmental justice, and the sociology of food, the sociology of the self, the sociology of the life course, culture and behavior, sociology's impact on society and related fields, e.g., criminology, criminal justice studies, social work, social psychology, sociology of translation and translation studies, and women and gender studies. Each essay includes a discussion of how the respective subfield contributes to the overall discipline and to society. Written by some of the most respected scholars, teachers, and public sociologists in the world, the essays are highly readable and authoritative. **21st Century Sociology: A Reference Handbook** Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description *Service Sociology and Academic Engagement in Social Problems* A. Javier Treviño, Karen M. McCormack, 2016-04-01 This book challenges sociologists and sociology students to think beyond the construction of social problems to tackle a central question: What do sociologists do with the analytic tools and academic skills afforded by their discipline to respond to social problems? Service Sociology posits that a central role of sociology is not simply to analyze and interpret social problems but to act in the world in an informed manner to ameliorate suffering and address the structural causes of these problems. This volume provides a unique contribution to this approach to sociology, exploring the intersection between its role as an academic discipline and its practice in the service of communities and people. With both contemporary and historical analyses, the book traces the legacy, characteristics, contours, and goals of the sociology of service, shedding light on its roots in early American sociology and its deep connections to activism, before examining the social context that underlies the call for volunteerism, community involvement, and non-profit organizations, as well as the strategies that have promise in remedying contemporary social problems. Presenting examples of concrete social problems from around the world, including issues of democratic participation, poverty, and unemployment, student involvement in micro-lending, disaster mitigation, the organization and leadership of social movements, homelessness, activism around HIV/AIDS, and service spring

**Globalizing Knowledge** Michael D. Kennedy, 2014-12-10 Heralding a push for higher education to adopt a more global perspective the term globalizing knowledge is today a popular catchphrase among academics and their circles The complications and consequences of this desire for greater worldliness however are rarely considered critically In this groundbreaking cultural political sociology of knowledge and change Michael D Kennedy rearticulates questions approaches and case studies to clarify intellectuals and institutions responsibilities in a world defined by transformation and crisis Globalizing Knowledge introduces the stakes of globalizing knowledge before examining how intellectuals and their

institutions and networks shape and are shaped by globalization and world historical events from 2001 through the uprisings of 2011. But Kennedy is not only concerned with elaborating how wisdom is maintained and transmitted; he also asks how we can recognize both interconnectedness and inequalities and possibilities for more knowledgeable change within and beyond academic circles. Subsequent chapters are devoted to issues of public engagement, the importance of recognizing difference, and the local's implication in the global, and the specific ways in which knowledge, images, and symbols are shared globally. Kennedy considers numerous case studies from historical happenings in Poland, Kosovo, Ukraine, and Afghanistan to today's energy crisis, Pussy Riot, the Occupy Movement, and beyond, to illuminate how knowledge functions and might be used to affect good in the world.

*Handbook of Sociology and Human Rights* David L. Brunson, Keri E. Lyall Smith, Brian K. Gran, 2015-10-23

Long the province of international law, human rights now enjoys a renaissance of studies and new perspectives from the social sciences. This landmark book is the first to synthesize and comprehensively evaluate this body of work. It fosters an interdisciplinary, international, and critical engagement both in the social study of human rights and the establishment of a human rights approach throughout the field of sociology. Sociological perspectives bring new questions to the interdisciplinary study of human rights as amply illustrated in this book. The Handbook is indispensable to any interdisciplinary collection on human rights or on sociology. This text brings new perspectives to the study of human rights in an interdisciplinary fashion. Offers state-of-the-art summaries, critical discussions of established human rights paradigms, and a host of new insights and further research directions. Fosters a comprehensive human rights approach to sociology, topically representing all 45 sections of the American Sociological Association.

**The Public and Their Platforms** Mark Carrigan, Lambros Fatsis, 2021-06-09

It envisions a new kind of public sociology that brings together the digital and the physical to create public spaces where critical scholarship and active civic engagement can meet in a mutually reinforcing way.

*Critical Social Research* Lee Harvey, 2025-07-11

Originally published in 1990, *Critical Social Research* is a unique methodology textbook that provides students, lecturers, and indeed all those involved in social research with an invaluable illustrative guide. The author argues that critical social research offers a perspective and a methodology that transcends divisions between quantitative and qualitative approaches. At the heart of critical social research is the idea that knowledge is structured by existing sets of social relations; its aim is to provide knowledge that engages with and challenges prevailing oppressive social structures. This book is divided into three sections, each addressing a different form of oppression: those based on class, gender, and race. Case studies from research published for the most part in North America and Britain are used extensively to demonstrate how empirical critical social research has been done. The case studies, consisting of evaluative summaries of important published research, will in themselves form a useful resource for students. They reveal a variety of techniques, including historical analysis, critical ethnography, and semiological and structuralist approaches. Critical

social research is extremely varied and may often appear complex this text provides a cogent explanation of its methodological operation that links epistemological underpinnings to practical techniques *Rethinking Society in the 21st Century, Fourth Edition* Kate Bezanson, Michelle Webber, 2016-09-01 *Rethinking Society in the 21st Century* is a critical collection of readings that provides students with a foundational knowledge base in sociology The fourth edition has been thoroughly updated to include significant Canadian content with a greater focus on indigeneity gender and sexuality and a new section dedicated to social movements social change and emerging fields This anthology introduces students to the fundamental elements of sociology with a balance of classical theory Marx Weber Durkheim Mills and more contemporary approaches found in the works of Michel Foucault and Dorothy Smith Building on this theoretical grounding the text outlines core concepts in sociology as well as major social institutions such as families the economy and labour education health care and media Covering a wide breadth of topics including chapters on animals the environment crime trans issues class ethnicity and race this new edition explores critical debates in Canadian society with an emphasis on intersectional approaches to social inequalities This volume is rich with pedagogical features that promote critical understanding including detailed introductions that speak to the contextual history of the source material and discussion questions for each section Uniquely designed for introductory courses *Rethinking Society in the 21st Century* is the ideal reader for Canadian students of sociology Public Sociology Dan Clawson, Robert Zussman, Joya Misra, Naomi Gerstel, Randall Stokes, 2007-06-06 In 2004 Michael Burawoy speaking as president of the American Sociological Association generated far reaching controversy when he issued an ambitious and impassioned call for a public sociology Burawoy argued that sociology should speak beyond the university engaging with social movements and deepening an understanding of the historical and social context in which they exist In this volume renowned sociologists come together to debate the perils and the potentials of Burawoy's challenge Contributors Andrew Abbott Michael Burawoy Patricia Hill Collins Barbara Ehrenreich Evelyn Nakano Glenn Sharon Hays Douglas Massey Joya Misra Orlando Patterson Frances Fox Piven Lynn Smith Lovin Judith Stacey Arthur Stinchcombe Alain Touraine Immanuel Wallerstein William Julius Wilson Robert Zussman **Collaborating for Change** Susan D.
