## **Sociology Of Philosophies:**

The Sociology of Philosophies Randall Collins,1998-08-30 Randall Collins traces the movement of philosophical thought in ancient Greece China Japan India the medieval Islamic and Jewish world medieval Christendom and modern Europe What emerges from this history is a social theory of intellectual change one that avoids both the reduction of ideas to the influences of society at large and the purely contingent local construction of meanings Instead Collins focuses on the social locations where sophisticated ideas are formed the patterns of intellectual networks and their inner divisions and conflicts

**The Sociology of Philosophies** Randall Collins,2009-07-01 Collins traces the movement of philosophical thought in ancient Greece China Japan India the medieval Islamic and Jewish world medieval Christendom and modern Europe He focuses on the social locations where sophisticated ideas are formed the patterns of intellectual networks and their inner divisions and conflicts

**The Sociology of Philosophical Knowledge** Martin Kusch,2000-04-30 Until 30 years ago most sociologists believed that only knowledge in the humanities and social sciences is open to sociological analysis This is no longer the case a large number of studies have shown that the knowledge of science and technology also has the character of social institutions The success of sociologists in understanding the social dimensions of science and technology has led to a relative decline of sociological studies of the humanities in general philosophy in particular This anthology seeks to correct that neglect The authors seek to show that contextual and sociological sensitivity is crucial to an understanding of the very content of philosophical positions and controversies and for recapturing the contingency in the history of philosophy

*Modern Historical and Social Philosophies* Pitirim A. Sorokin, 2020-03-05 Even in normal times cogitation about man's destiny on the whence and whither the how and why of a given society is now and then carried on by at least a few thinkers or scholars In times of serious crisis these problems suddenly assume exceptional importance theoretical as well as practical for thinkers as well as for plain folk An enormous part of the population finds itself uprooted ruined mutilated and annihilated by the crisis People's routine of life is entirely upset their habitual adjustments are broken and large groups of human beings are turned into a flotsam of displaced and disadjusted persons Even the ordinary man in the street cannot help asking How has all this come about what does it all mean who is responsible for it what are its causes is there any way out where do we go from here and what is going to happen to me and my family my friends and my country In a serious crisis these questions press still more intensely upon the thinkers leaders and scholars in a society Many of them do not pay much attention to their sociocultural shoes until they begin to pinch When however the pinching of the hardships of the crisis becomes unbearable they are forced to begin to ponder on the how and why of the crisis and on all the other problems of a painful transitional situation

**Understanding the Culture** Jeff Myers, 2017-03-01 Addressing issues such as gender identity abortion technology and poverty Dr Myers challenges readers to ask How can an authentic Christian worldview provide a compassionate effective witness in culture today Dr Myers first shows readers what they can learn from Christian history and why today's issues might not be as new as they seem Then he takes them through the significant topics that affect them every day offering biblical ideas for conversing with others in an increasingly hostile culture This capstone book to a groundbreaking worldview trilogy equips readers to apply a bold Christian witness to their relationships with loved ones neighbors and colleagues

*Comparative Methods in Law, Humanities and Social Sciences* Adams, Maurice, Van Hoecke, Mark, 2021-11-19 This cutting edge book facilitates debate amongst scholars in law humanities and social sciences where comparative methodology is far less well anchored in most areas compared to other research methods It posits that these are disciplines in which comparative research is not simply a bonus but is of the essence

*The Oxford Handbook of Philosophical Methodology* Herman Cappelen, Tamar Gendler, John P. Hawthorne, 2016 This is the most comprehensive book ever published on philosophical methodology A team of thirty eight of the world's leading philosophers present original

Turner, 2006-11-22 This wide ranging handbook presents in depth discussions on the array of subspecialties that comprise the field of sociological theory Prominent theorists working in a variety of traditions discuss methodologies and strategies the cultural turn in sociological theorizing interaction processes theorizing from the systemic and macro level new directions in evolutionary theorizing power conflict and change and theorizing from assumptions of rationality     **Philosophies and Sociologies of Bioethics** Hauke Riesch, Nathan Emmerich, Steven Wainwright, 2018-07-09 This book is an interdisciplinary contribution to bioethics bringing together philosophers sociologists and Science and Technology Studies researchers as a way of bridging the disciplinary divides that have opened up in the study of bioethics Each discipline approaches the topic through its own lens providing either normative statements or empirical studies and the distance between the disciplines is heightened not only by differences in approach but also disagreements over the values interpretations and problematics within bioethical research In order to converse across these divides this volume includes contributions from several disciplines The volume examines the sociological issues faced by interdisciplinary research in bioethics the role of expertise moral generalisations distributed agency and the importance of examining what is not being talked about Other contributions try to take an interdisciplinary look at a range of specific situations fetal alcohol syndrome in the media citizen science electronic cigarettes and bioethical issues in human geography     *The SAGE Handbook of Social Network Analysis* John Scott, Peter J. Carrington, 2011-10-07 This sparkling Handbook offers an unrivalled resource for those engaged in the cutting edge field of social network analysis Systematically it introduces readers to the key concepts substantive topics central methods and prime debates Among the specific areas covered are Network theory Interdisciplinary applications Online networks Corporate networks Lobbying networks Deviant networks Measuring devices Key Methodologies Software applications The result is a peerless resource for teachers and students which offers a critical survey of the origins basic issues and major debates The Handbook provides a one stop guide that will be used by readers for decades to come     Philosophical Foundations of the Three Sociologies (RLE Social Theory) Ted Benton, 2014-09-19 An extended historical and philosophical argument this book will be a valuable text for all students of the philosophy of the social sciences It discusses the serious alternatives to positivist and empiricist accounts of the physical sciences and poses the debate between naturalism and anti naturalism in the social sciences in new terms Recent materialist and realist philosophies of science make possible a defence of naturalism which does not make concessions to positivism and which

recognizes the force of several of the anti positivist arguments from the main anti naturalist neo Kantian tradition The author presents a critical evaluation of empiricist and positivist theories of knowledge and investigates some classic attempts at using them to provide the philosophical foundation for a scientific sociology He takes the Kantian critique of empiricism as the starting point for the main anti positivist and anti naturalist philosophical approaches to the social studies He goes on to investigate the inadequacy of post Kantian arguments from Rickert Weber Winch and others both against non positivist forms of naturalism and as the possible source of a distinctive philosophical foundation for the social studies The book concludes with a critical investigation of the Marxian tradition and an attempt to establish the possibility of a materialist and realist defence of the project of a natural science of history which escapes the fundamental flaws of both positivist and neo Kantian attempts at philosophical foundation

**Veblen** Charles Camic,2020-11-30 Thorstein Veblen s analysis of America s parasitic upper class which plunders its wealth from productive workers is widely attributed to his outsider status But Charles Camic shows that Veblen s ideas did not derive from social marginality Veblen was a professional economist whose fierce social critique was the work of an academic insider Edinburgh Companion to Twentieth-Century Philosophies

Constantin V. Boundas,2007-06-19 The Companion is organized into two sections each one of which reflects the developments of the Anglo American Analytic and the Continental European philosophical traditions respectively An appendix presents the main accomplishments of non Western philosophies in the same time frame Each section discusses the main movements and fields of the discipline throughout the century The authors have maintained a balance between the historian s commitment to breadth and accuracy with the commitment of the systematic philosopher to the engaged point of view and to critical reflection The result is a distinctive reference book made up of a series of philosophical studies an invaluable companion to anyone who is searching for a panoramic but also reliable and challenging presentation of the philosophical ideas which shaped the last century

**Illusory Abiding** Natasha Heller,2020-05-11 A groundbreaking monograph on Yuan dynasty Buddhism Illusory Abiding offers a cultural history of Buddhism through a case study of the eminent Chan master Zhongfeng Mingben Natasha Heller demonstrates that Mingben and other monks of his stature developed a range of cultural competencies through which they navigated social and intellectual relationships They mastered repertoires internal to their tradition for example guidelines for monastic life as well as those that allowed them to interact with broader elite audiences such as the ability to compose verses on plum blossoms These cultural exchanges took place within local religious and social networks and at the same time they comprised some of the very forces that formed these networks in the first place This monograph contributes to a more robust account of Chinese Buddhism in late imperial China and demonstrates the importance of situating monks as actors within broader sociocultural fields of practice and exchange
