Solidarity With Victims Toward A Theology Of Social Transformation:

Lonergan, Social Transformation, and Sustainable Human Development Joseph Ogbonnaya, 2013-01-29 Secular contemporary development discourse deals with the problems of societal development and transformation by prioritizing the human good in terms of vital and social values with the aim of providing the basic necessities of life through social institutions that work. While such an approach is profitable by promoting economic growth, it does not take note of other dynamics of social progress and development. Also, it fails to notice the consequences of development strategies on human flourishing, well-being, and happiness. Ogbonnaya argues for an integral approach to development by engaging in a fruitful dialogue between Bernard Lonergan's philosophical anthropology with contemporary development discourse as represented in select theories of development and in select principles of Catholic social teaching. It makes a case for social progress and transformation as emanating from human understanding. Also, it highlights the parts of Lonergan's theory that contribute to an understanding specifically of his treatment of bias and of the shorter and longer cycles of societal decline. In view of the reality of moral impotence and limitations, it considers the reversal of societal decline as possible through the supernatural solution of God's grace.

Towards a Politics of Compassion Emeka Christian Obiezu, 2008 Wise beyond his years Johnny Black Hawk takes pride in his mixed heritage, believing in the inherent good of both the Indians and whites. Then the Civil War brings unbearable grief and suffering. Amid troubles, triumphs, deception, and daring, Johnny struggles to follow his father's teachings about honor. Emotions long dormant are revealed as he discovers decency in a person long considered evil and the miraculous faith of another once thought a fool. Then the white man's broken promises and greed bring death and destruction to the Indian people, and he must learn to listen with his heart to an ancient sacred voice. But will he ever understand the meaning of his gift from the Grandfathers?

From Strength to Strength Robert London Smith, 2007 Drawing on his experience as a member of the clergy and the questions and concerns that arose in the course of ministering to congregants, Robert London Smith Jr. explores exactly what function the black church performs and, importantly, why. In this provocative work, he argues that much black church praxis is less authentic, relevant, and constructive today because it continues to be implicated by certain values and meanings that are themselves rooted in a historical black thematic universe that is fading and being replaced by a new set of values and meanings located within a contemporary black thematic universe. Using a practical theology method, Smith develops a theological framework context praxis to create an approach to understanding and creating an informed praxis for the black church. He then sets forth a bold project that calls for the critical engagement of black church praxis and what he calls the black thematic universe in its historical and contemporary manifestations. The goal is to transform this praxis so that it remains authentic to the Gospel and the religious traditions and history of those who come to interpret and live out its message in the world while being relevant to the issues and challenges of the present historical context in which the black church lives out its meaning and purpose and constructive for the

building up and equipping of the Body of Christ Smith's creation of a black existential and theological hermeneutic is an approach that moves toward the realization of this ambitious goal This book challenges many traditional views of black church praxis including pastoral care worship and fellowship and creates a space for a renewed and much needed dialogue about the acts of the black church within contemporary America As such it is an important text for students of practical theology and African American religion as well as those interested in developing a critical understanding of the implications of the intersection of faith and culture

Back to the Rough Grounds of Praxis Daniel Franklin Pilario, 2005 What is praxis How do we do theology from its perspective These are the main questions which this book seeks to answer As propaedeutic to theological reflection it surveys the notion of praxis in the philosophical sociological and anthropological traditions from Aristotle and Marx to contemporary theories It argues that Pierre Bourdieu's theory of practice achieves a critical synthesis of these different traditions making it a viable theological dialogue partner Bourdieu provides us with a praxeological theory to scrutinize the complexity of the social realm and an epistemological theory to understand the mystery of God's presence in these socio historical conjunctures which serve as the privileged and only locus of His/Her revelation The author thus engages two theologians who take praxis practice as central to their theological methods Clodovis Boff liberation theology and John Milbank radical orthodoxy From the perspective of its appropriated framework this work attempts to avoid the limitations as well as preserves the gains achieved by these two approaches as it also explores the rudiments of a theological method relevant to our post Marxist and postmodern global contexts

Human Rights and the Catholic Tradition Donald Dietrich, 2017-07-28 From the French Revolution to Vatican II the institutional Catholic Church has opposed much that modernity has offered men and women constructing their societies This book focuses on the experiences of German Catholics as they have worked to engage their faith with their culture in the midst of the two world wars the barbarism of the Nazi era and the uncertainties and conflicts of the post World War II world German Catholics have confronted and challenged their Church's anti modernism two lost wars the Weimar Republic the Nazi Third Reich the Cold War German reunification and the impulses of globalization Catholic theologians and those others nurtured by Catholicism who resisted Nazism to create their own private spaces developed a personal and existential theology that bore fruit after 1945 Such theologians as Karl Rahner Johannes Metz and Walter Kasper were rooted in their political experiences and in the renewal movement built by those who attended Vatican II These theologians were sensitive to the horrors of the Nazi brutalization the positive contributions of democracy and the need to create a Catholicism that could join the conversation on human rights following World War II This dialogue meant accepting non Catholic religious traditions as authentic expressions of faith which in turn required that the sacred dignity of every man woman and child had to be respected By the twenty first century Catholic theologians had made furthering a human rights agenda part of their tradition and the German contribution to Catholic theology was crucial to that development The current Catholic milieu has been forged through its defensive

responses to the Enlightenment through its resistance to ideologies that have supported sanctioned murder and through an extensive dialogue with its own traditions In focusing on the German Catholic experience Dietrich offers a cultural approach to the study of the religious and ethical issues that ground the hum God and Humanity in Auschwitz Donald Dietrich,2017-07-12 God and Humanity in Auschwitz synthesizes the findings of research developed over the last thirty years on the rise of anti-Semitism in our civilization Donald J Dietrich sees the Holocaust as a case study of how prejudice has been theologically enculturated He suggests how it may be controlled by reducing aggressive energy before it becomes overwhelming Dietrich studies the recent responses of Christian theologians to the Holocaust and the Jewish theological response to questions concerning God's covenant with Israel which were provoked by Auschwitz Social science has dealt with the psychosocial dynamics that have supported genocide and helps explain how ordinary persons can produce extraordinary evil Dietrich shows how this research combined with theological analyses can help reconfigure theology itself Such an approach may serve to help dissolve anti-Semitism to aid in constructing such positive values as respect for human dignity and to point the way to restricting future outbreaks of genocide God and Humanity in Auschwitz surveys which religious factors created a climate that permitted the Holocaust It also illuminates what social science has to tell us about developing a strategy that when institutionally implemented can channel our energies away from sanctioned murder toward a more compassionate society The book has proven to be an essential resource for theologians sociologists historians and political theorists **Converging Horizons** Allan Hugh Cole,2015-01-15 This collection of essays considers topics in pastoral theology pastoral care and counseling pastoral leadership and social work and attends to challenges and opportunities pertaining to the support and care of persons in need Of interest to ministers chaplains pastoral counselors and social workers these essays focus particularly on human experiences needs or concerns that relate to matters of mental health and religious faith or spirituality Converging Horizons demonstrates approaches to integrative work that draws on multiple fields of theory and practice in service to the goal of providing a range of caregivers with ways to both conceptualize and engage their important work **The Supervision of Pastoral Care** David A.
