course in the past only to realize that you didn't retain anything you read. The sad irony is that in order to properly learn things like speed reading skills and memory techniques in the past you had to read dozens of books and psychological journals to decode the science behind it. Or you had to hire an expensive private tutor who specializes in SuperLearning. That's what I did. And it changed my life. Fortunately, my co-authors, experts and innovators in the fields of superlearning, memory improvement and speed reading agreed to help me transform their materials into the first ever digital course. Over 25,000 satisfied students later, we have transformed our course into a book you can enjoy anywhere. Our teaching methodology relies heavily on at-home exercises. The chapters themselves are only part of what you're buying. You will be practicing various exercises and assignments on a regular basis over the course of a 7-week schedule. In addition to the lectures, there are hours of supplemental video and articles which are considered part of the curriculum. This vital book contains all the tools needed to learn, memorize and reproduce anything you want with the joy that ease brings. Don't take another class until you've read it.

Superior brain power is now the most sought-after advantage in the world. Along with having a steel trap memory for business, here's why it's not who you know that counts any more; it's what you know about who you know. In other words, when you can remember vital facts about the people you do business with, you'll do more business with them. You'll get more opportunities to grow your own business and more. Imagine this: You want to do a joint venture that will 10x your business almost overnight. Who will you choose to partner with? Or more importantly, who will choose to partner with you? A business friend or a business stranger? The more you know about others, the more rewards you'll get in life. Ignorance isn't bliss in business. When you have a superior memory, you'll outshine all of your competitors.
