Superstudio Life Without Objects:

Superstudio Peter Lang, 2003 L'exposition Superstudio Life Without Objects est l'origine de l'édition de ce livre. En examinant plus d'une décennie d'histoire de Superstudio, les auteurs tentent d'expliquer, à travers la large gamme d'actions de projets et de l'idéologie critique de Superstudio, les visions de ce groupe italien fondé par Adolfo Natalini et Cristiano Toraldo di Francia avec d'autres en 1966 pour produire de l'architecture expérimentale. Le groupe est dissous en 1978.

Planning Moment Sarah Blacker, Emily Brownell, Anindita Nag, Martina Schlünder, Sarah Van Beurden, 2024-05-07 Empires and their aftermaths were massive planning institutions in the past two hundred years; the natural and social sciences emerged at least in part as modes of knowledge production for imperial planning. Yet these connections are frequently underemphasized in the history of science and its corollary fields. The Planning Moment explores the myriad ways plans and planning practices pervade recent global history. The book is built around twenty-seven brief case studies that explore the centrality of planning in colonial and postcolonial environments, relationships and contexts through a range of disciplines: the history of science, science and technology studies, colonial and postcolonial studies, urban studies and the history of knowledge. If colonialism made certain landscapes, populations and institutions legible while obscuring others, The Planning Moment reveals the frequently disruptive and violent processes of erasure in imperial planning by examining how common sense was produced and how the intransigence of planning persists long after decolonization. In recognizing the resistance and subversion that often met colonial plans, the book makes visible a range of strategies and techniques by which planning was modified and reappropriated and by which decolonial futures might be imagined. Contributors: Itty Abraham, Benjamin Allen, Sarah Blacker, Emily Brownell, Lino Camprubí, John DiMoia, Mona Fawaz, Lilly Irani, Chihyung Jeon, Robert Kett, Monika Kirloskar, Steinbach Karen, McAllister Laura, Mitchell Gregg, Mitman Aaron, Moore Nada, Moumtaz Tahani, Nadim, Anindita Nag, Raï Necochea, Lpez Tamar, Novick Benjamin, Peters Juno, Salazar Parre, as Martina Schlünder, Sarah Van Beurden, Helen Verran, Ana Carolina Vimieiro, Gomes Alexandra, Widmer and Alden Young.

Space as Storyteller Laura Chiesa, 2016-07-15 Walter Benjamin's Arcades Project suggests that space can become a storyteller if so plenty of fleeting stories can be read in the space of modernity where repetition and the unexpected cross-pollinate. In Space as Storyteller, Laura Chiesa explores several stories across a wide range of time that narrate spatial jumps from Benjamin's tangential take on the cityscape, the experimentalism of Futurist theatricality, the multiple and potential atlases narrated by Italo Calvino and Georges Perec, and the posturban thought and practice of Bernard Tschumi and Rem Koolhaas. OMA Space as Storyteller diverts attention from isolated disciplines and historical or geographical contexts toward transdisciplinary encounters that

mobilize the potential to invent new spaces of comparison a potential the author describes as architecturability

Ethics in Design and Communication Laura Scherling, Andrew DeRosa, 2020-02-20 This timely collection brings together critical analytic historical and practical studies to address what ethics means in the practice of design Designers face the same challenges as everyone else in the complex conditions of contemporary cultural life choices about consumption waste exploitation ecological damage and political problems built into the supply chains on which the global systems of inequity currently balance precariously But designers face the additional dilemma that their paid work is often entangled with promoting the same systems such critical approaches seek to redress how to reconcile this contradiction among others in seeking to chart an ethical course of action while still functioning effectively in the world Ethics in Design and Communication acknowledges the complexity of this subject matter while also demonstrating that in the ongoing struggle towards an equitable and sustainable world the talents of design and critical thought are essential Featured case studies include graphic design internships today the dark web and media coverage of the 2016 US presidential election The fact that within this book such a wide array of practitioners scholars critics and professionals commit to addressing current injustices
