Supervisor's Standard Reference Handbook W. H. Weiss, 1980 Abstract A practical guide for business and industry provides answers to everyday supervisory and management problems. Proven methods are suggested to help supervisors understand people and manage them. Cases illustrate solutions to problem situations encountered in the office or factory such as how to get action, control people, events and costs, persuade, train or delegate effectively, make decisions and handle communication, give orders and get cooperation, evaluate performance, generate ideas and adapt to change. Other topics covered are productivity, development, grievances, slowdowns, motivation, meetings, rumors, safety, pressure, management by objectives and interactions with unions and with OSHA. He discusses some common problems as well as corrective discipline and termination procedures. A separate chapter is devoted to federal student aid programs because of their role in student employment.
