The Routledge *Encyclopedia of International Relations and Global Politics* provides a unique reference source for students and academics covering all aspects of global international relations and the contemporary discipline across IR's major subject divisions of diplomacy, military affairs, international political economy and theory. Written by a distinguished group of international scholars, the *Encyclopedia* is largely comprised of substantial entries of more than 1,000 words, with fifty major entries of 5,000 words on core contemporary topics. Each entry is fully cross-referenced and followed by a listing of complementary entries and a short bibliography for further reading. The whole is comprehensively indexed.
