*The Identity of Christianity* Stephen Sykes, 1984      **The Ecclesiology of Stanley Hauerwas** John B.

Thomson, 2017-05-15 This book presents the theological work of Stanley Hauerwas as a distinctive kind of liberation theology John Thomson offers an original construal of this diffuse controversial yet highly significant modern theologian and ethicist Organising Hauerwas corpus in terms of the focal concept of liberation Thomson shows that it possesses a greater degree of coherence than its usual expression in ad hoc essays or sermons John Thomson locates Hauerwas in relation to a wide range of figures including the obvious choices Rauschenbusch Niebuhr Barth Yoder Lindbeck MacIntyre Milbank and O Donovan as well as less expected figures such as Gadamer Habermas Ricoeur Pannenberg Moltmann and Hardy Providing a structured and rigorous outline of Hauerwas intellectual roots this book presents an account of his theological project that demonstrates an underlying consistency in his attempt to create a political understanding of Christian freedom reaching beyond the limitations of the liberal post enlightenment tradition Hauerwas is passionate about the importance of moral discourse within the Christian community and its implications for the Church's politics When the Church is often perceived to be in decline and an irrelevance Hauerwas proffers a way of recovering identity confidence and mission particularly for ordinary Christians and ordinary churches Thomson evaluates the comparative strengths and weaknesses of Hauerwas argument and indicates a number of vulnerabilities in his project      **Schleiermacher's Influences on American Thought and**

**Religious Life, 1835-1920** Jeffrey A. Wilcox, Terrence N. Tice, Catherine L. Kelsey, 2014-10-23 Here freshly researched unprecedented stories regarding modern American thought and religious life show how the scholar Friedrich Schleiermacher 1768 1834 provides ongoing influence still They describe his influence on universal rights American religious life theology philosophy history psychology interpretation of texts community formation and interpersonal dialogue Schleiermacher is an Einstein like innovator in all these areas and more This work contrasts chiefly evangelical liberal figures with others between circa 1835 and the 1920s It also looks ahead to several careers extended well into the twentieth century and offers numerous characterizations of Schleiermacher's thought In six tightly organized parts fourteen expert historians chronologically discuss the following 1 Methodist leaders 1766 1924 2 Stuart Bushnell Nevins and Hodge 3 Restorationists Transcendentalists women leaders Schaff and Rauschenbusch 4 Clarke Mullins Carus and Bowne 5 Dewey Royce Ames Knudson Brown Fosdick Cross Jones and Thurman within contemporary contexts Unexpectedly John Dewey lies at the epicenter of the narrative and Harry Emerson Fosdick and Howard Thurman bring it to its climax Recently evidence displays a broadening influence advancing rapidly The sixth part of the book surveys modern historiography Schleiermacher on history and comparative method and on psychology as a basic scientific and philosophical field That section also provides a critical survey of histories of modern theology and offers concluding questions and answers The three editors contribute twenty of the thirty one chapters      **Schleiermacher on Religion and the Natural Order** Andrew Dole, 2010 Friedrich Schleiermacher 1768 1834

is best known as the father of liberal Protestant theology largely on the strength of his massive work of systematic theology *The Christian Faith* In this book Andrew Dole presents a new account of Schleiermacher's theory of religion Dole argues that Schleiermacher integrates the individualistic side of religion with a set of claims about its social dynamics and that this takes place within a broader understanding of all events in the world as the product of a universal law governed causal nexus

Schleiermacher on Religion and the Natural Order Andrew C Dole, 2009-12-21 Friedrich Schleiermacher 1768-1834 is best known as the father of liberal Protestant theology largely on the strength of his massive work of systematic theology *The Christian Faith* In this book Andrew Dole presents a new account of Schleiermacher's theory of religion Dole argues that Schleiermacher integrates the individualistic side of religion with a set of claims about its social dynamics and that this takes place within a broader understanding of all events in the world as the product of a universal law governed causal nexus

**Self, Christ and God in Schleiermacher's Dogmatics** Maureen Junker-Kenny, 2020-12-07 Since its first appearance in 1821-22 *The Christian Faith* has had a fractious history of reception It implements decisive departures for theology founding the possibility to speak about God on human freedom It recognises the role of historical consciousness and the need to relate to advances in the natural sciences The study investigates the early critiques of Schleiermacher's analysis of the feeling of utter dependence of his conception of Christ as the archetype of the God consciousness and of his doctrine of God in terms of absolute causality It reconstructs the revisions carried out in the second edition of 1830-31 as a break through to a transcendental argumentation Does Schleiermacher's elaboration of the anthropological turn in theology leave it defenseless against the dissolution of faith in a saving God in Feuerbach's projection thesis Does it offer a naturalising account of religion And where does the interconnectedness of nature established by God leave what was prized by the Romantics human individuality Ongoing objections and new constellations of questions are examined in their relevance for a modern theology that spells out faith in God as a practical self understanding Maureen Junker-Kenny's book is an outstanding presentation of Schleiermacher's theology She attends not only to the development of his method from the first to the second edition of *The Christian Faith* but also to his concrete interpretation of Creation Christology Redemption Theological Anthropology especially human freedom and his understanding of God The book has an exceptional value in the way she relates Schleiermacher not only to his contemporaries but also contemporary concerns Schleiermacher's theology is shown in its relation to the modernity of his age but also the ongoing modernity of today The book has a depth and breath that make it indispensable not only for historical theology but also contemporary constructive theology Francis Schüssler Fiorenza Harvard Divinity School In *Self Christ and God in Schleiermacher's Dogmatics A Theology Reconceived for Modernity* Maureen Junker-Kenny proves herself to be not only a distinguished interpreter of Schleiermacher's work but a creative practitioner in her own right of his dialogical method Elegantly conceived and beautifully written the book shows how Schleiermacher connected the different aspects of his thought form content structure doctrine piety critical rigor into a

coherent system Self Christ and God in Schleiermacher's Dogmatics is now the only guide to Schleiermacher's magnum opus Christian Faith anyone needs Christine Helmer Northwestern University Chicago

**The Germanization of Early Medieval Christianity** James C. Russell, 1996 Discusses German influence on the development of early medieval Christianity

*Christology From Within and Ahead* Mark Chan, 2021-10-01 Troeltsch's struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer's philosophical hermeneutics and Schleiermacher's experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg's notion of proleptic eschatological fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual referentiality

**Cross Theology** Rosalene Bradbury, 2012-03-29 An astute and thought provoking analysis of the theologia crucis and the significance of Karl Barth as a modern exponent of this theological tradition In this volume New Zealand theologian Rosalene Bradbury argues convincingly that tethered to the tradition that gave rise to it the term theologia crucis references a theological system centered around notions of false and true glory and an ancient conviction that from the cross of Jesus Christ comes a revelatory and a saving Word

*The Anthem Companion to Ernst Troeltsch* Christopher Adair-Toteff, 2017-12-15 The Anthem Companion to Ernst Troeltsch is the first collection of essays in English devoted to the thinking of Ernst Troeltsch The eight essays are written by scholars who have been recognized as major contributors to works on Troeltsch many of them have published books on his theology These essays are devoted to exploring Troeltsch's ethical sociological and political ideas in addition to his theological concepts The collection aims to depict Troeltsch as a major sociologist and important philosopher in addition to being one of the most significant German theologians of the late nineteenth and early twentieth centuries

*The Rise of Normative Christianity* Arland J. Hultgren, 2004-07-05 More than fifty years ago Walter Bauer's Orthodoxy and Heresy in Earliest Christianity undercut the traditional views on the making of orthodox Christianity by arguing that in several geographic areas heresy preceded orthodoxy Subsequently the ancient documents discovered at Nag Hammadi proved that early Christianity was tremendously diverse These influences have given rise to the notion that the various gnostic interpretations are mere alternatives to more traditional interpretations of Jesus and his significance Using a focused but broad definition of normative Christianity Hultgren contends that such a tradition originated at the very beginnings of the Christian movements developed and came to dominate as the most adequate expression of Jesus

legacy Normative Christianity a stream as wide as the New Testament canon forged a coherence between confession of faith and community ethos that could endure and was the basis for later orthodoxy Christianity and Western Thought Steve Wilkens, Alan G. Padgett, 2010-07-29 In this second of three volumes which survey the dynamic interplay of Christianity and Western thought from the earliest centuries through the twentieth century Steve Wilkens and Alan Padgett tell the story of the monumental changes of the nineteenth century *Christ, History and Apocalyptic* Nathan R. Kerr, 2008-10-13 This book offers a comprehensive reflection on what it means that Christians claim that Jesus is Lord by engaging in a defense of Christian apocalyptic as the criterion for evaluating the truth of history and of history's relation to the transcendent political reality that theology calls the Kingdom of God The heart of this work comprises an original genealogical analysis of twentieth century theological encounters with the modern historicist problematic through a series of critical engagements with the work of Ernst Troeltsch Karl Barth Stanley Hauerwas and John Howard Yoder Bringing these thinkers into conversation at key points with the work of Walter Benjamin Carl Schmitt John Milbank and Michel de Certeau among others this genealogy analyzes and exposes the ideologically Constantinian assumptions shared by both modern liberal and contemporary post liberal accounts of Christian politics and mission On the basis of a rereading of John Howard Yoder's place within this genealogy the author outlines an alternative apocalyptic historicism which conceives the work of Christian politics as a mode of subversive missionary encounter between church and world The result is a profoundly original vision of history that at once calls for and is empowered by a Christian apocalyptic politics in which the ideologically reductionist concerns for political effectiveness and productivity are surpassed by way of a missionary praxis of subversion and liberation rooted in liturgy and doxology *Political Worship* Bernd Wannenwetsch, 2009-06-18 How does Christian ethics begin This pioneering study explores the grammar of the Christian life as it is embodied and learned in worship as the formative experience of the fellow citizens of God's people The book presents the first in depth theological investigation of the phenomenon of political worship by exposing the political nature of worship and the worship dimension of politics In a careful analysis of biblical and traditional conceptions of worship Wannenwetsch demonstrates how the genuine political character of worship neutralizes attempts to politicize or de politicize it In the imprinting of the experience of divine reconciliation on the Christian body worship challenges the deepest antagonisms of political theory and practice antagonisms of private and public freedom and necessity and action and contemplation At the same time the spill over of worship into every sphere of life instils a healthy suspicion of post liberal conceptualizations of role mobility In the experience of hearing in communion an encounter with a word that does not deceive announces the end of the rule of the hermeneutics of suspicion Further questions discussed include the conditions of true consensus forgiveness as a political virtue political rhetoric between accountability and self justification how reversible role taking can avoid losing the otherness of the other and how the rhetoric of responsibility can be saved from hubris or depression Particular practices or dimensions of worship confession preaching praising intercession

observance of holy days are examined and their heuristic and formative potentials explored in relation to these topics A special feature of the study is a strong ecumenical and international focus The book brings into conversation a variety of traditions including Lutheran Catholic Anglican and Orthodox and contemporary voices An original contribution to Christian ethics the book addresses systematic and practical theology as well as political theory while indicating the essential interpenetration of these disciplines

**Scientific Theology: Theory** Alister E. McGrath, 2007-01-23 The third volume of an extended and systematic exploration of the relation between Christian theology and the natural sciences focussing on the origins and place of theory in Christian theology

Nineteenth-Century European Catholicism Eric C. Hansen, 2017-09-07 Included in this bibliography originally published in 1989 are books pamphlets dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme Each entry is annotated with the major idea or theme of the work as expressed by its author or editor This title will be of interest to students of European History and Religious Studies

**Scientific Theology: Theory** Alister E. McGrath, 2006-11-23 Noting the important parallels between scientific theory and Christian doctrine McGrath offers a sustained defense of the necessity of doctrine within Christian theology against those who argue for a non dogmatic Christianity The approach developed within this volume builds on the work of writers such as Heidegger and Habermas and argues that theory is to be conceived in terms of the communal beholding of reality The many theoretical issues to be addressed in this volume include the manner in which closure is secured in theological theorizing the implications of the stratification of reality for its representation the place of metaphysics in Christian theology and the nature of revelation itself Viewed as a whole Theory represents a fresh evaluation of the origins and place of theory in Christian theology which is certain to provoke discussion and debate This third volume completes the A Scientific Theology series A Scientific Theology is a groundbreaking work of systematic theology in three volumes Nature Reality and Theory Now available as a three volume set

Christian Faith as Religion Paul E. Capetz, 2011-05-26 Christian Faith as Religion investigates the theologies of John Calvin and Friedrich Schleiermacher with respect to the questions What is Religion and What is Christian Religion The author argues that the classical and liberal exemplars of Protestant theology are best compared when these two questions are thoroughly examined and calls into question the contention of neo orthodox theologians Karl Barth and Emil Brunner that Schleiermacher s theological use of the category religion signifies a departure from the tradition of the Reformation He offers a revised comparative framework that discloses the material and formal similarities between Calvin and Schleiermacher with respect to their employment of the categories religion and revelation and allows the historical theologian to delineate the trajectory that accounts for both continuity and discontinuity in the transition from classical to modern Protestant theology This allows the systematic hermeneutical question of a contemporary Protestant theology informed by the historical and philosophical study of religion to be taken up anew
