McCoppin,2016-10-13 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature Instead a cyclical promise of continuous life is realized in which no element fully disappears and the hero s message is not to dwell on death The Lessons of Nature in Mythology Rachel S. McCoppin,2015-10-29 This examination of myths from around the world focuses on the role nature plays within mythology Creation myths from myriad cultures recognized that life arose from natural elements inextricably connecting human life to the natural world Nature as portrayed in myth is unpredictable and destructive but also redemptive providing solace and wisdom Mythology relates the human life cycle to the seasons with spring summer fall and winter as metaphors for birth adulthood old age and death The author identifies divinities who were direct representations of natural phenomena The transition of mythic representations from the Paleolithic to Neolithic period is discussed
